**Photography and Exploration** James R. Ryan,2013-07-15 When Ferdinand Magellan set out to circumnavigate the globe in 1519 he wasn t able to bring a digital camera or a smartphone with him Yet as the eagerly awaited images from the Mars rover prove modern exploration is inconceivable without photography Since its invention in 1839 photography has been integral to exploration used by

explorers sponsors and publishers alike and the early twentieth century advances in technology and photography's newfound cultural currency as a truthful witness to the world made the camera an indispensable tool In *Photography and Exploration* James R Ryan uses a variety of examples from polar journeys to space missions to show how exploration photographs have been created circulated and consumed as objects of both scientific research and art Examining a wide range of photographs and expeditions Ryan considers how nations have often employed images as a means to scientific advancement or territorial conquest He argues that because exploration has long been bound up with the construction of national and imperial identity expeditionary photographs have often been used to promote claims to power especially by the West These images also challenge the way audiences perceive the world and their place within it Featuring one hundred images *Photography and Exploration* shines new light on how photography has shaped the image of explorers expeditions and the worlds they discovered

*The Forgotten Explorer* Samuel Prescott Fay, 2011-02-15 North of Jasper in the Canadian Rockies is a large roadless and spectacular wilderness of alpine flower meadows glaciated peaks canyons waterfalls and abundant wildlife Compared to the

millions each year who visit Banff and Jasper national parks immediately to the south this northern area sees few visitors Fewer still have ever attempted to travel through this wilderness in one continuous trip The first to do so was Samuel Prescott Fay in 1914 To this day his exact route has never been duplicated Fay and his party set out from Jasper on June 26 1914 with five saddle horses and 16 pack horses After a treacherous slogging journey of 1 200 kilometres through wild uncharted country they reached their destination on October 15 1914 with the outfit completely intact During his expedition Fay kept a detailed journal currently held at the Smithsonian Institution Washington DC which he provided to the US Biological Survey now known as the US Fish Wildlife Service and to various Canadian government authorities He also published several magazine articles about his discoveries However the journal in its entirety with all his day to day observations struggles and concerns has never been published Similarly his maps photographs and wildlife records have been preserved in various Canadian and US archives but never exhibited to a wider audience Brought together for the first time in book form they provide an early and dynamic record of an area that remains little known to this day Complete with a large selection of never before published photos and maps The Forgotten Explorer is destined to become a classic of North American exploration history Headwaters of the Mississippi Comprising Biographical Sketches of Early and Recent Explorers of the Great River, and a Full Account of the Discovery and Location of Its True Source in a Lake Beyond Itasca Willard W. Glazier, 1901 **Working on Mars** William J. Clancey, 2012 Beginning in 2004 a team of geologists and other planetary scientists did field science in a dark room in Pasadena exploring Mars from NASA's Jet Propulsion Laboratory JPL by means of the remotely operated Mars Exploration Rovers MER Clustered around monitors living on Mars time painstakingly plotting each movement of the rovers and their tools sensors and cameras these scientists reported that they felt as if they were on Mars themselves doing field science The MER created a virtual experience of being on Mars This book examines how the MER has changed the nature of planetary field science NASA cast the rovers Spirit and Opportunity as robotic geologists and ascribed machine initiative to remotely controlled actions Clancey argues that the actual explorers were not the rovers but the scientists who imaginatively projected themselves into the body of the machine to conduct the first overland expedition of another planet The author investigates how the design of the rover mission enables field science on Mars explaining how the scientists and rover engineers manipulate the vehicle and why the programmable tools and analytic instruments work so well for them **Last Explorer** Simon Nasht, 2012-08 In the tradition of The Ice Master and Endurance here is the incredible story of the first truly modern explorer whose death defying adventures and uncommon modesty make this book itself an extraordinary discovery Hubert Wilkins was the most successful explorer in history no one saw with his own eyes more undiscovered land and sea Largely self taught Wilkins became a celebrated newsreel cameraman in the early 1900s as well as a reporter pilot spy war hero scientist and adventurer capturing in his lens war and famine cheating death repeatedly meeting world leaders like Lenin and Stalin and circling the globe on a zeppelin Apprenticing with

the greats of polar exploration including Shackleton in the Antarctic Wilkins recognized the importance of new technologies such as the airplane and submarine He helped map the Canadian Arctic and plumbed the ocean depths from the icecap A pioneer in the truest sense of the word he became the first man to fly across the North Pole which won him a knighthood the first to fly to the Antarctic and discover land there by airpla and the first to take a submarine under the Arctic ice Grasping the link between the poles and changing global weather Wilkins was a visionary in weather forecasting and the study of global warming A true hero of the earth he changed the way we look at our world      *Unwillingly a Witch* Rachel

Fisher,2011-06-01 Description This is a raw and incredibly bleak account of ritual abuse which ruined a young life A young girl is raped initiated into a fascination for all things occult and ends up praying to the Devil in secret and with terrible consequences She dare not tell her secrets or else But Rachel does eventually tell those secrets as we meet the weird and wonderful Mrs Psychiatrist and the dreaded Reverend Squeaky Clean both of whom attempt to help her in entirely different ways Whose way will win Sadly this account is a true one and it is only the author s unique and amazing sense of humour that prevents this story being too shocking About the Author Rachel survived Following time spent in a psychiatric hospital and intensive sessions with a consultant psychiatrist she went on to graduate from university with 1st class honours in Theology Unable to work because of physical health problems she now devotes her time to her many hobbies and to writing Now a grandmother in her fifties she lives in Wales with her husband and family She is a devoted Christian
