An Introduction to Contemporary American Fiction Alan Bilton, 2003-03 Don DeLillo Paul Auster Cormac McCarthy Rolando Hinojosa E Annie Proulx Bret Easton Ellis Douglas Coupland and Thomas Pynchon *An Introduction to Contemporary American Fiction* introduces the work of a range of key American authors all of whom can be said to engage with postmodernism Exploring the vitality and energy of contemporary writing in light of pessimistic proclamations on the state of postmodern American culture Bilton highlights the tension

between realistic description and linguistic self consciousness in contemporary fiction In addition by addressing a central problem in literary theory its neglect of literary discussion and the practice of reading An Introduction to Contemporary American Fiction is able to present a working model for reading a text theoretically As an introductory text it assumes no prior knowledge of the authors of the novels discussed To encourage understanding and aid further study the following features are included GLOSSARY OF CRITICAL AND LITERARY TERMS BIBLIOGRAPHY OF EACH AUTHOR S WORKS BIOGRAPHY OF EACH AUTHOR GUIDE TO FURTHER READING THEMATIC AND AUTHOR INDICES

American World Literature: An Introduction Paul Giles, 2019-02-04 A scholarly review of American world literature from early times to the postmodernist era American World Literature An Introduction explores how the subject of American Literature has evolved from a national into a global phenomenon As the author Paul Giles a noted expert on the topic explains today American Literature is understood as engaging with the wider world rather than merely with local or national circumstances The book offers an examination of these changing conceptions of representation in both a critical and an historical context The author examines how the perception of American culture has changed significantly over time and how this has been an object of widespread social and political debate From examples of early American literature to postmodernism the book charts ways in which the academic subject areas of American Literature and World Literature have converged and diverged over the past generations Written for students of American literature at both undergraduate and postgraduate levels and in all areas of historical specialization American World Literature offers an authoritative guide to global phenomena of American World literature and how this subject has undergone crucial changes in perception over the past thirty years

Don DeLillo Jesse Kavadlo, 2004 Don DeLillo winner of the National Book Award the William Dean Howells Medal and the Jerusalem Prize is one of the most important novelists of the late twentieth and early twenty first centuries While his work can be understood and taught as prescient and postmodern examples of millennial culture this book argues that DeLillo s recent novels White Noise Libra Mao II Underworld and The Body Artist are more concerned with spiritual crisis Although DeLillo s worlds are rife with rejection of belief and littered with faithfulness estrangement and desperation his novels provide a balancing moral corrective against the conditions they describe Speaking the vernacular of contemporary America DeLillo explores the mysteries of what it means to be human

Representations of Technoculture in Don DeLillo's Novels Laila Sougri, 2023-09-04 This book is the first to explore technoculture in all of Don DeLillo s novels From Americana 1971 to The Silence 2020 the American author anatomizes the constantly changing relationship between culture and technology in overt and layered aspects of the characters experiences Through a tendency to discover and rediscover technocultural modes of appearance DeLillo emphasizes settings wherein technological progress is implicated in cultural imperatives This study brings forth representations of such implication interaction through various themes particularly perception history reality space architecture information and the posthuman The chapters are based on a thematic structure that weaves DeLillo s

novels with the rich literary criticism produced on the author and with the various theoretical frameworks of technoculture This leads to the formulation and elaboration on numerous objects of research extracted from DeLillo s novels namely the theorization of DeLillo s radiance in dailiness the investigation of various uses of technology as an extension the role of image technologies in redefining history the reconceptualization of the ethical and behavioral aspects of reality the development of tele visual and embodied perceptions in various technocultural spaces and the involvement of information technologies in reconstructing the beliefs behaviors and activities of the posthuman One of the main aims of the study is to show how DeLillo s novels bring to light the constant transformation of technocultural everydayness It is argued that though such transformation is confusing or resisted at times it points to a transitional mode of being This transitional state does not dehumanize DeLillo s characters it reveals their humanity in a continually changing world **The Cambridge**

Introduction to Postmodern Fiction Bran Nicol,2009-10-08 A lucid exploration of the key features of postmodernism and the most important authors from Beckett to DeLillo **Succeeding Postmodernism** Mary K. Holland,2013-04-25 While critics collect around the question of what comes after postmodernism this book asks something different about recent American fiction what if we are seeing not the end of postmodernism but its belated success Succeeding Postmodernism examines how novels by DeLillo Wallace Danielewski Foer and others conceptualize threats to individuals and communities posed by a poststructural culture of mediation and simulation and possible ways of resisting the disaffected solipsism bred by that culture Ultimately it finds that twenty first century American fiction sets aside the postmodern problem of how language does or does not mean in order to raise the reassuringly retro question of what it can and does mean it finds that novels today offer language as solution to the problem of language Thus it suggests a new way of reading antihumanist late postmodern fiction and a framework for understanding postmodern and twenty first century fiction as participating in a long and newly enlivened tradition of humanism and realism in literature *The Avant-garde and American Postmodernity* , An evaluation that tracks American culture s shift from modernism into postmodernism Conspiracy Culture Dr Peter Knight,Peter Knight,2013-04-15 Conspiracy theories are everywhere in post war American culture From postmodern novels to The X Files and from gangsta rap to feminist polemic there is a widespread suspicion that sinister forces are conspiring to take control of our national destiny our minds and even our bodies Conspiracy explanations can no longer be dismissed as the paranoid delusions of far right crackpots Indeed they have become a necessary response to a risky and increasingly globalized world in which everything is connected but nothing adds up Peter Knight provides an engaging and cogent analysis of the development of conspiracy culture from 1960s countercultural suspicions about the authorities to the 1990s where a paranoid attitude is both routine and ironic Conspiracy Culture analyses conspiracy narratives about familiar topics like the Kennedy assassination alien abduction body horror AIDS crack cocaine the New World Order as well as more unusual ones like the conspiracies of patriarchy and white supremacy Conspiracy Culture shows how Americans have come

to distrust not only the narratives of the authorities but even the authority of narrative itself to explain What Is Really Going On From the complexities of Thomas Pynchon s novels to the endless mysteries of The X Files Knight argues that contemporary conspiracy culture is marked by an infinite regress of suspicion Trust no one because we have met the enemy and it is us

Narrative, Perception, and the Embodied Mind Lilla Farmasi,2022-09-02 This book encourages cross disciplinary dialogues toward introducing a new framework for neuro narratology expanding on established theory within cognitive narratology to more fully encompass the different faculties involved in the reading process To investigate narrative cognition the book traces the ways in which cognitive patterns of embodiment and the neural connections that comprise them in the reading process are translated into patterns in narrative fiction Drawing theories of episodic memories and nonvisual perception of space Farmasi draws on theories of episodic memories and nonvisual perception of space in analyzing a range of narratives from twentieth century prose The first set of analyses shines a light on perception and emotion in narrative discourses and the construction of storyworlds while the second foregrounds the reader s experience The volume makes the case for the fact that narratives need to be understood as dynamic elements of the interaction between mind body and environment generating new insights and inspiring further research This book will appeal to scholars interested in narrative theory literary studies cognitive science neuroscience and philosophy

Reading Landscape in American Literature , Interactions Between Iranian and American Literatures Naghmeh Esmaeilpour,2024-05-14 Introducing narrative mobility as a new approach in comparative studies of Iran and the US this book reinterprets the politics and aesthetics of relations between the nations through an analysis of Iranian and American authors The book focuses specifically on three authors Simin Daneshvar Shahriar Mandanipour and Don DeLillo who each employ narrative mobility to rethink intercultural negotiation addressing parallel issues in America and Iran from different but complementary perspectives The book analyzes the employment of parallel narrational techniques presenting physically and virtually mobile characters who embody their respective countries as they move from one culture to another The strange affinity between Iran and the US is ultimately revealed by viewing literary works as a contact zone through which the complicated relations and shared history of the two nations can be renegotiated On a more theoretical level the book reflects on the role of literature in particular the novel as a transnational medium as a bridge between nations in a period of globalization With its focus on cross cultural connections the book will be of interest to anyone studying or researching comparative literature US Iran relations and cultural studies generally

Postmodern Belief Amy Hungerford,2010-07-01 How can intense religious beliefs coexist with pluralism in America today Examining the role of the religious imagination in contemporary religious practice and in some of the best known works of American literature from the past fifty years Postmodern Belief shows how belief for its own sake a belief absent of doctrine has become an answer to pluralism in a secular age Amy Hungerford reveals how imaginative literature and religious practices together allow novelists poets and critics to express the formal

elements of language in transcendent terms conferring upon words a religious value independent of meaning Hungerford explores the work of major American writers including Allen Ginsberg Don DeLillo Cormac McCarthy Toni Morrison and Marilynne Robinson and links their unique visions to the religious worlds they touch She illustrates how Ginsberg s chant infused 1960s poetry echoes the tongue speaking of Charismatic Christians how DeLillo reimagines the novel and the Latin Mass why McCarthy s prose imitates the Bible and why Morrison s fiction needs the supernatural Uncovering how literature and religion conceive of a world where religious belief can escape confrontations with other worldviews Hungerford corrects recent efforts to discard the importance of belief in understanding religious life and argues that belief in belief itself can transform secular reading and writing into a religious act Honoring the ways in which people talk about and practice religion

Postmodern Belief highlights the claims of the religious imagination in twentieth century American culture **Apostles of Modernity** Guy Reynolds,2008-01-01 In a revisionist account that takes development as its main theme Guy Reynolds charts the responses of novelists travel writers and literary intellectuals to America s deepening engagement in world affairs following World War II Apostles of Modernity offers an original in depth study of the literary manifestations of this period of globalism in novels memoirs essays reportage and political commentary Through close readings of texts Reynolds revisits and reassesses U S internationalism showing how writers and intellectuals engaged with a cluster of topics decolonization the rise of the Third World Islamic difference the end of European empires China s enduring significance and transatlantic and cosmopolitan identities A contribution to the study of literary internationalism Apostles of Modernity establishes new paradigms for understanding America s place in the world and the world s place in America **The Drift: Affect, Adaptation, and New Perspectives on Fidelity** John Hodgkins,2013-06-06 Provides a new perspective on the complex relationship between literature and cinema by rethinking adaptation as a generative affective dialogue between symbiotic mediums **American Postmodernist Fiction and the Past** T. Savvas,2011-10-24 Through a close reading of the work of five prominent American postmodernist writers this book re evaluates the role of the past in recent American fiction outlines the development of the postmodernist historical novel and considers the waning influence of postmodernism in contemporary American literature Masculinity in Contemporary New York Fiction Peter Ferry,2014-08-21 Masculinity in Contemporary New York Fiction is an interdisciplinary study that presents masculinity as a key thematic concern in contemporary New York fiction This study argues that New York authors do not simply depict masculinity as a social and historical construction but seek to challenge the archetypal ideals of masculinity by writing counter hegemonic narratives Gendering canonical New York writers namely Paul Auster Bret Easton Ellis and Don DeLillo illustrates how explorations of masculinity are tied into the principal themes that have defined the American novel from its very beginning The themes that feature in this study include the role of the novel in American society the individual and urban society the journey from innocence to awareness of masculinity the archetypal image of the absent and or patriarchal father the impact of homosocial relations on the everyday

performance of masculinity male sexuality and the male individual and globalization What connects these contemporary New York writers is their employment of the one of the great figures in the history of literature the fl neur These authors take the fl neur from the shadows of the Manhattan streets and elevate this figure to the role of self reflexive agent of male subjectivity through which they write counter hegemonic narratives of masculinity This book is an essential reference for those with an interest in gender studies and contemporary American fiction Muse in the Machine Mark Conroy, 2004 A writer who simply panders to the public is seldom taken for an artist An artist who cannot publish is seldom granted a career This dilemma the subject of Muse in the Machine has been home to many authors of serious fiction since the eighteenth century But it is especially pointed for American writers since the United States never fostered a sustainable elite culture readership Its writers have always been reliant on mass publicity s machinery to survive and when they depict that machinery they also depict that reliance and the desire to transcend its banal formulas This book looks at artist tales from Henry James to don DeLillo s *Mao II* but also engages more indirect expressions of this tension between Romantic individualism and commercial requirements in Nathanael West Vladimir Nabokov and Thomas Pynchon It covers the twentieth century but its focus is not another rehearsal of media theory or word versus image Rather it aims to show how various novels about publicity culture also enact their authors own dramas how they both need and try to critique the machine In subject as well as approach this study questions the current impasse between those who say that the aesthetic aspires to its own pure realm and those who insist that it partakes of everyday practicality Both sides are right this book examines the consequences of that reality BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
