Nodes of Contemporary Finnish Literature Leena Kirstinä, 2012-06-13 This book examines phenomena from Finnish and Finnish Swedish literature written in the years between the 1980s and the first decade of the new millennium Its objective is to study this interesting era of literary history in Finland and to sketch some possible directions for future development by identifying literary turning points which have already occurred *Faith and Violence* Thomas Merton, 1968-10-15 Merton's classic *Faith and Violence* makes a powerful case for a theology of resistance that speaks with enduring urgency Violence in the modern world is a complex matter The majority of the world's most egregious acts of violence are not perpetrated at the level of the individual rather they occur at the hands of systematically organized bureaucracies It is this white collar violence that Merton addresses in *Faith and Violence* Writing at the height of the Vietnam war Merton masterfully illustrates the disastrous consequences of wielding and promoting violence As an alternative he proposes that Christians retrieve and embody a conception of love that seeks to win over one's adversaries as collaborators rather than crushing or humiliating them Merton's poignant reflections deal with issues ranging from the Vietnam War to the civil rights movement and the mid 20th century Death of God movement

refine its practical applications The contributions are divided into four sections theory and method dialogue between psychology and other disciplines applications in different cultures and concrete experiences of applying a psychologically informed Christian anthropology in the educational setting The balanced approach presented in this work makes it both a serious instrument of study and a valuable point of reference for the educator Its constant reference to a Christian conception of the person will help avoid short sighted pragmatism *The Contemporary Relevance of Carl Schmitt* Matilda Arvidsson, Leila Brännström, Panu Minkkinen, 2015-08-20 What does Carl Schmitt have to offer to ongoing debates about sovereignty globalization spatiality the nature of the political and political theology Can Schmitt's positions and concepts offer insights that might help us understand our concrete present day situation Works on Schmitt usually limit themselves to historically isolating Schmitt into his Weimar or post Weimar context to reading him together with classics of political and legal philosophy or to focusing exclusively on a particular aspect of Schmitt's writings Bringing together an international and interdisciplinary range of contributors this book explores the question of Schmitt's relevance for an understanding of the contemporary world Engaging the background and intellectual context in which Schmitt wrote his major works often with reference to both primary and secondary literature unavailable in English this book will be of enormous interest to legal and political theorists *Sartre's Life, Times and Vision du Monde* William L. McBride, 2013-09-13 William L McBride Professor of Philosophy at Purdue University is co founder of the North American Sartre Society and the first chairperson of its executive board His most recent publications include *Social and Political Philosophy* and *Sartre's Political Theory* He was recently named Chevalier dans l'Ordre des Palmes Academiques by the French Government and has served as Chairperson of the Committee on International Cooperation of the American Philosophical Association and as President of the Societe Americaine de Philosophie de Langue Francaise **Fitzroy Dearborn Chronology of Ideas** Melinda Corey, George Ochoa, 2013-07-04 The Code of Hammurabi Martin Luther's Ninety five Theses The radical notions that launched the French Revolution The beliefs that propelled the American Civil Rights movement These are only a few of the thousands of concepts described in this remarkable chronicle of intellectual history Presenting the ideas of philosophers prophets scholars critics educators revolutionaries and reformers the Fitzroy Dearborn Chronology of Ideas concentrates on the famous as well as infamous concepts that have changed the world Here too are the historical turning points that resulted from the application of those ideas the natural flow of the American Revolution from the concept of democratic liberalism for example or the Russian Revolution from Marxism **The Gift of Logos** David Jones, Michael Schwartz, Jason M. Wirth, 2009-12-14 The Continental tradition has always placed great emphasis on the Logos The Gift of Logos Essays in Continental Philosophy celebrates and situates this emphasis in the genre of the gift and its giving The process of receiving or giving of the gift overcomes the existential alienation and separation that is so present in the human condition To ritualize giving and its gifting is to provide a syntax of solidarity that bespeaks our desire for cohesion and need for identities beyond our own To

give a gift is to befriend The gift of logos is more than a gift from the gods and goddesses it is an act of giving for those friends of wisdom for those philosophers who give to each other and to their worlds and receive the blessings of logos from each other The increasing objectification of human being has mobilized a regressive narcissism that shows the ego's reassertion in the light of the meaningless quantifying forces from without By not reflecting deeply enough upon its conditions of existence in the modern world and on its ordinary moments philosophy itself has not been immune from this besotted sense of self Although not an invective against thinking nor against modern and contemporary philosophy's genuine advances The Gift of Logos portends to shed the delusion that theoretical re-description is somehow the same as transforming who we are This transformation is our greatest gift to each other To give it voice is the gift of Logos and what this collection of essays commemorates *Causal Realism* John C. Cahalan, 1985 NOTE Series number is not an integer n a

Translating Simone de Beauvoir's The Second Sex Julia C. Bullock, Pauline Henry-Tierney, 2023-05-19 This collection offers insights into the transnational and translingual implications of Simone de Beauvoir's *Le Deuxième Sexe* The Second Sex a text that has served as foundational for feminisms worldwide since its publication in 1949 Little scholarly attention has been devoted to how the original French language source text made its way into languages other than English This is a shocking omission given that many but by no means all other translations were based on the 1953 English translation by Howard M. Parshley which has been widely criticized by Beauvoir scholars for its omissions and careless attention to its philosophical implications This volume seeks to fill this gap in scholarship with an innovative collection of essays that interrogate the ways that Beauvoir's essay has shifted in meaning and significance as it has travelled across the globe This volume brings together for the first time scholars from Translation Studies Literary Studies and Philosophical Studies and over half of it is dedicated to non-Western European engagements with *Le Deuxième Sexe* including chapters on the Chinese Japanese Arabic Hungarian and Polish translations As such this collection will be essential to any scholar of Beauvoir's philosophy and its contributions to feminist discourses

Sartre's French Contemporaries and Enduring Influences William L. McBride, 2013-09-13 Sartre's French Contemporaries and Enduring Influences This final volume examines Sartre's best known philosophical contemporaries in France Albert Camus Maurice Merleau-Ponty and Simone de Beauvoir in terms of both their own philosophical insights and their relationship to Sartre's thought The articles also offer some suggestive connections between Sartre's thought and subsequent developments in European philosophy notably structuralism poststructuralism and postmodernism The comparatively recent nature of much of this scholarship is solid testimony to the enduring influence of Sartrean existentialism
