J A M U Magic:

Malay Magic Walter William Skeat, 1900 **Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures** Helaine Selin, 2013-11-11 The Encyclopaedia fills a gap in both the history of science and in cultural studies Reference works on other cultures tend either to omit science completely or pay little attention to it and those on the history of science almost always start with the Greeks with perhaps a mention of the Islamic world as a translator of Greek scientific works The purpose of the Encyclopaedia is to bring together knowledge of many disparate fields in one place and to legitimize the study of other cultures science Our aim is not to claim the superiority of other cultures but to engage in a mutual exchange of ideas The Western academic divisions of science technology and medicine have been united in the Encyclopaedia because in ancient cultures these disciplines were connected This work contributes to redressing the balance in the number of reference works devoted to the study of Western science and encourages awareness of cultural diversity The Encyclopaedia is the first compilation of this sort and it is testimony both to the earlier Eurocentric view of academia as well as to the widened vision of today There is nothing that crosses disciplinary and geographic boundaries dealing with both scientific and philosophical issues to the extent that this work does xi PERSONAL NOTE FROM THE EDITOR Many years ago I taught African history at a secondary school in Central Africa **Natural Products in Beverages** Jean-Michel Mérillon, Céline Rivière, Gabriel Lefèvre, 2024-11-01 This reference book provides an overview of the active ingredients of selected plants present in beverages The book aims to highlight according to the chapters the botanical ethnobotanical ecological or agronomic aspects of these botanical species used in some well known or rarer beverages by linking them to their phytochemistry This book also covers the manufacturing techniques as well as the quality control of these products of natural origin in beverages The content is divided into five main sections containing chapters written by valuable experts in their field 1 beverages plants with caffeine and other methylxanthines 2 beverage plants without caffeine 3 fruits juices 4 alcoholic beverage plants non distilled beverages and 5 alcoholic beverage plants distilled beverages The book is a useful resource for graduate students academics and researchers in the field of botany agriculture food chemistry nutrition as well as for industrial scientists and those involved in the commercialization of phytochemicals plants and their extracts *Asian Secrets of Health, Beauty and Relaxation* Sophie Bengé, 2014-01-21 Unwind with calming spa treatments from across Asia For centuries people in Asia have relaxed and beautified themselves with natural therapies derived from plants herbs minerals clays and flowers Rather than taking an expensive trip to a professional spa readers can experience luxurious Asian beauty treatments at home In *Asian Secrets of Health Beauty and Relaxation* Sophie Bengé an Asian beauty expert supplies inexpensive easy to follow recipes for soothing facials relaxing aromatherapy baths invigorating body scrubs healthy food and drink recipes remedies for specific ailments and more All the treatments in *Asian Secrets of Health Beauty and Relaxation* are natural and gentle to the body Lie back and enjoy the benefits of a spa in your own home Tropical Spa

Cowan, 2019-01-29 Magic Monsters and Make Believe Heroes looks at fantasy film television and participative culture as evidence of our ongoing need for a mythic vision for stories larger than ourselves into which we write ourselves and through which we can become the heroes of our own story Why do we tell and retell the same stories over and over when we know they can't possibly be true Contrary to popular belief it's not because pop culture has run out of good ideas Rather it is precisely because these stories are so fantastic some resonating so deeply that we elevate them to the status of religion Illuminating everything from Buffy the Vampire Slayer to Dungeons and Dragons and from Drunken Master to Mad Max Douglas E Cowan offers a modern manifesto for why and how mythology remains a vital force today **Celebrating Life**

From Syncretism to Orthodoxy? Sven Cederroth,1991 Geography, Culture and Education Rod Gerber,M. Williams,2013-04-17 An important challenge for our world is to understand how cultural understanding and geographical education can be linked and used to improve the global society We readily accept that our world is constituted by numerous groups of people who are organised by committees tribes regions nations or continental entities How these groups interact show concern for each others well being and progress is still an unpredictable activity Intercultural tensions racial conflicts and religious clashes have all led to the challenges for enacting a constructive world Fundamental perspectives challenge moderate ones and the resulting tensions produce elements of fear doubt and distrust The extremist views of terrorist groups exaggerate these tensions to the extent that some different cultural groups do not prefer to live in peace with their neighbours Deep seated intercultural tensions predominate over peaceful co existence Such challenges may easily dominate the interaction between racial groups tribes indigenous peoples and colonisers However we know that through the sound practice of intercultural understanding cultural groups in different contexts around the world can interact and co exist successfully and productively In fact they can work together to seek to improve their society This does not mean that one group will dominate the other Rather it means that both groups work together to improve their collective lives Education has played an important role in the long term achievement of such harmony This volume has been developed to demonstrate that geographical education can be a potent force in the development of cultural understanding in different societies
