The Story of the Australian Bushrangers George Boxall, 1902 **The Anglo American**, 1843 *History of the Australian Bushrangers* George Eedes Boxall, 1916 **Sacred Places** K. S. Inglis, Jan Brazier, 2008 Memorials to Australian participation in wars abound in our landscape From Melbourne's huge Shrine of Remembrance to the modest marble soldier obelisk or memorial hall in suburb and country town they mourn and honour Australians who have served and died for their country Surprisingly they have largely escaped scrutiny Ken Inglis argues that the imagery rituals and rhetoric generated around memorials constitute a civil religion a cult of ANZAC Sacred Places traces three elements which converged to create the cult the special place of war in the European mind when nationalism was at its zenith the colonial condition and the death of so many young men in distant battle which impelled the bereaved to make substitutes for the graves of which history had deprived them The war memorial movement attracted conflict as well as commitment Inglis looks at uneasy acceptance even rejection of the cult by socialists pacifists feminists and some Christians and at its virtual exclusion of Aborigines He suggests that between 1918 and 1939 the making dedication and use of memorials enhanced the power of the right in Australian public life Finally he examines a paradox Why as Australia's wars recede in public and private memory and as a once British Australia becomes multicultural have the memorials and what they stand for become more cherished than ever Sacred Places spans war religion politics language and the visual arts Ken Inglis has distilled new cultural understandings from a familiar landscape *Northmost Australia* Robert Logan Jack, 2021-11-09 In *Northmost Australia* Robert Logan Jack deftly immerses readers in an exploration of the Australian northern landscape characterized by its vibrant flora fauna and indigenous cultures Written in a narrative style that seamlessly blends scientific observation with lyrical prose the book captures the essence of the region's natural beauty and the intricacies of its ecosystems Set against the backdrop of the late 19th century Jack's work reflects the burgeoning interest in natural history and geographical exploration providing a rich account amidst the colonial context of Australia's expansion and study Robert Logan Jack was a prominent geologist and explorer whose travels throughout Australia deeply influenced his scientific pursuits and creative expressions His extensive fieldwork and keen observations of the North Australian region fueled his passion for studying its geology and wildlife while highlighting the importance of engaging with the land and its diverse cultures Jack's experiences as both a scientist and a writer allow him to provide not merely a guide to the landscapes he traversed but a profound commentary on the relationship between

beginning to end Nick Earls *Queensland's Frontier Wars* Jack Drake, 2021-06-11 Queensland's Frontier Wars is an attempt to document the known confrontations between either white settlers or white and native police and First Nations people where deaths were reported. It is now an accepted premise that these confrontations were wars to gain access to the land because if not wars then it was mass murder. No one in Queensland was charged with the murder of First Nations during these confrontations. The book shows the invasion from New South Wales into southern Queensland and the advances from the sea in central and north Queensland. The dispersement of the First Nations people from their land was violent and efficient using far superior weaponry. This book adds significantly to the true and uncomfortable history of Queensland.

Unwritten Histories Craig Cormick, 1998 Witty and satirical this account of Australia's heroic past rediscovers the contributions of Indigenous Australians that have since remained unrecorded and unacknowledged. Drawing on original records of the time it moves the spotlight away from its traditional focus to illuminate those whom history had forgotten.

Under the Broad Arrow George Forbes, 2021-11-09 George Forbes novel *Under the Broad Arrow* is a gripping historical fiction set during the Victorian era exploring themes of power, corruption and societal inequalities. The narrative follows the journey of a young woman who defies societal norms to seek justice in a world dominated by powerful men. Forbes' writing style is rich in detail, painting a vivid picture of the setting and characters while also incorporating elements of suspense and intrigue to keep the reader engaged. The book is a reflection of the author's deep understanding of the historical context and his ability to blend facts with fiction seamlessly. Through this compelling story, Forbes sheds light on the challenges faced by individuals who dare to challenge the status quo and fight for what is right. *Under the Broad Arrow* is a thought-provoking read that will resonate with readers interested in history, social justice and the power of courage in the face of adversity.

The Time of the Ghosts Gillian Polack, 2021-12-19 Ghosts trail after us. They are our fears and the shape of our hates. We bring them into our lives and into our homes. Poltergeists and the spirits of drowned girls, malicious presences and portents, cat vampires and roaming bushrangers. These ghosts haunt Canberra. These ghosts can kill. Lil is elegant and troubled. Ann has just retired and is about to divorce; she sees vistas of nothingness in her future. Mabel is wedded to her garden. Kat is fifteen and has tried hard to drop out of life. It takes these four women, one cup of tea at a time, to face the ghosts and other supernatural beings in Canberra. But can they face down the darkness and keep Canberra's streets clear of danger?

The Australian Frontier Wars, 1788-1838 John Connor, 2002 This text is a comprehensive military history of frontier conflict in Australia. Covering the first 50 years of British occupation in Australia, the book examines in detail how both sides fought on the frontier and examines how Aborigines developed a form of warfare differing from tradition.

Settler Sovereignty Lisa Ford, 2010 In a brilliant comparative study of law and imperialism, Lisa Ford argues that modern settler sovereignty emerged when settlers in North America and Australia defined indigenous theft and violence as crime. This occurred not at the moment of settlement or federation but in the second quarter of the nineteenth century when

notions of statehood sovereignty empire and civilization were in rapid global flux Ford traces the emergence of modern settler sovereignty in everyday contests between settlers and indigenous people in early national Georgia and the colony of New South Wales In both places before 1820 most settlers and indigenous people understood their conflicts as war resolved disputes with diplomacy and relied on shared notions like reciprocity and retaliation to address frontier theft and violence This legal pluralism however was under stress as new global statecraft linked sovereignty to the exercise of perfect territorial jurisdiction In Georgia New South Wales and elsewhere settler sovereignty emerged when at the same time in history settlers rejected legal pluralism and moved to control or remove indigenous peoples **King Plates** Jakelin Troy,1993
