**Reflective Discipline** Martha R. Bireda, 2019-08-14 Why does racism conscious and unconscious remain a persistent issue in American society From blackface worn by public officials to a school district s forcing of the removal of a Black History Month display Beliefs and opinions related to racism are pervasive and widespread in the collective American mind America s racist legacy cannot and will not be changed until historically entrenched beliefs are confronted challenged and changed While focusing on the specific issues that educators face in addressing and eliminating racial disparity in disciplinary perceptions and referrals the reflective exercises provided in this book are valuable to any reader who wishes to examine programmed unconscious beliefs that can lead to racist behaviors This is a book that helps the reader to understand the source purpose and ways in which stereotypical beliefs and images have been and continue to be reinforced in our present society Reflective Discipline is a timely and especially significant book for this time in American life The exercises can be utilized not only in educational but in other environments i e law enforcement social service etc in which understanding the forces that perpetuate racist beliefs in our society are important to ensuring fair and equitable treatment of all

**Cultures in Conflict** Martha R. Bireda, 2010 The suspension and expulsion of ethnic minority students especially African American males remains a critical issue in schools today This book addresses the root causes of racial disparity in discipline Dr Bireda shows how culturally conditioned beliefs and cultural misunderstanding negatively impact teacher student relationships and interactions in the classroom

**The Pursuit of Racial and Ethnic Equality in American Public Schools** Kristi L. Bowman, 2014-12-19 In 1954 the Supreme Court decided Brown v Board of Education ten years later Congress enacted the Civil Rights Act These monumental changes in American law dramatically expanded educational opportunities for racial and ethnic minority children across the country They also changed the experiences of white children who have learned in increasingly diverse classrooms The authors of this commemorative volume include leading scholars in law education and public policy as well as important historical figures Taken together the chapters trace the narrative arc of school desegregation in the United States beginning in California in the 1940s continuing through Brown v Board the Civil Rights Act and three important Supreme Court decisions about school desegregation and voluntary integration in 1974 1995 and 2007 The authors also assess the status of racial and ethnic equality in education today and consider the viability of

future legal and policy reform in pursuit of the goals of Brown v Board This remarkable collection of voices in conversation with one another lays the groundwork for future discussions about the relationship between law and educational equality and ultimately for the creation of new public policy A valuable reference for scholars and students alike this dynamic text is an important contribution to the literature by an outstanding group of authors

**School Counseling for Black Male Student Success in 21st Century Urban Schools** Malik S. Henfield,Ahmad R. Washington,2015-11-01 Discussions and research related to the salience of Black male student needs and development in relation to their general success and well being is well documented in many fields Indeed many studies have found that healthy masculine identity development is associated with a number of positive outcomes for males in general including Black males In school counseling literature however this discussion has been relatively absent particularly regarding those students living in urban contexts Indeed research devoted to the study of Black males in the school counseling literature focuses almost exclusively on race and issues associated with its social construction with only cursory if any attention given to their masculine identity development as a function of living in urban communities and attending urban schools Based on this lack of information it is probably a safe assumption that intentional systematic culturally relevant efforts to assist Black males in developing healthy achievement and masculine identities based on their unique personal social academic experiences and future career goals are not being applied by school counselors concerned with meeting students needs School counselors are in a unique position nonetheless to lend their considerable expertise insights training and skills to improving life outcomes among Black males a population who are consistently in positions of risk according to a number of quality of life indicators Without knowledge and awareness of Black males masculine identity development in urban areas coupled with the requisite skills to influence the myriad factors that enhance and impede healthy development in such environments they are missing out on tremendous opportunities which other professions appear to understand and quite frankly seem to take more seriously As such this book proposes to accomplish two specific goals 1 Highlight the plight of Black males with specific emphasis on the ecological components of their lives in relation to current school culture and trends 2 Encourage school counselors to give more thought to Black male identity development that takes into consideration differential experiences in society as a whole and schools in particular as a function of the intersection of their race as well as their gender The first rationale for this book then is to highlight the plight of Black males with specific emphasis on the ecological components of their lives in relation to current school culture and trends e g standards based accountability practices in urban environments However I recognize the role of school counselors has never been fully integrated into educational reform programs As such their positions are often unregulated and determined by people in positions of power who do not understand their training job specific standards and thus potential impact on the lives of Black male students As a result their vast potential to develop strong interventions designed to address the myriad racial and masculine factors that serve to enhance and impede Black males academic achievement is often

unrealized Therefore the second reason for this special issue is to include the scholarship of professional school counselors and counselor educators with policy change in mind Scholars will be invited to contribute manuscripts that explore race masculinity and academic achievement in relation to the role of school counselors This is designed to encourage school counselors and counselor educators to give more thought to Black male identity development that takes into consideration differential experiences in society as a whole and schools in particular as a function of the intersection of their race as well as their gender

Exposing the deeply harmful impact of street style policing on urban high school students **Common Threads** Anthony P. Barber, Jeffrey Ulmer, 2013-10-16 School safety is paramount in today's educational system. Now more than ever, the need to be proactive and systematic when it comes to handling even the most minor infractions in schools must be required, as demonstrated by the tragic events of recent school violence. An administrator's work revolves around investigating whether it involves issues with parents or students, disciplinary incidents, or teacher situations, being able to investigate in a non-biased and systematic manner is paramount for success. Yet despite this premise, guidance for new and experienced administrators concerning how to investigate an incident is limited at best. **Common Threads** is a straightforward practical guide for administrators in the job or professors to use as a guide for principal preparatory training.

**Reflective Discipline** Martha R. Bireda, 2019-08-14 Why does racism, conscious and unconscious, remain a persistent issue in American society? From blackface worn by public officials to a school district's forcing of the removal of a Black History Month display, beliefs and opinions related to racism are pervasive and widespread in the collective American mind. America's racist legacy cannot and will not be changed until historically entrenched beliefs are confronted, challenged, and changed. While focusing on the specific issues that educators face in addressing and eliminating racial disparity in disciplinary perceptions and referrals, the reflective exercises provided in this book are valuable to any reader who wishes to examine programmed unconscious beliefs that can lead to racist behaviors. This is a book that helps the reader to understand the source, purpose, and ways in which stereotypical beliefs and images have been and continue to be reinforced in our present society. **Reflective Discipline** is a timely and especially significant book for this time in American life. The exercises can be utilized not only in educational but in other environments, i.e., law enforcement, social service, etc., in which understanding the forces that perpetuate racist beliefs in our society are important to ensuring fair and equitable treatment of all.
