*Starting the Twenty-first Century* Gitta Tulea, 2018-04-17 Jürgen Habermas speaking of postmodern society remarked that extension of the means of communication not only allows a wide range of information but it also encourages permanent connections between different peoples cultures and social discourses It thus facilitates better general understanding a clarifying of real or apparent contradictions But this process becomes truly positive only when it is performed between equal members Globalization of information does not minimize the possibility of conflict or terrorism if fundamental social problems are not resolved or at least approached in an active way This volume examines the major upheavals of the twentieth century and views within the framework of these events and challenges implications for the future

*Values and Cultural Changes in the Postmodern World* by Zygmunt Bauman explores the changing meaning of space in the globalizing environment S N Eisenstadt analyzes the destructive components of modernity and Irving Louis Horowitz draws attention to the classical values of the common universal culture *Social Development and Policies in Contemporary Society* by Michael M Cernea examines the importance of the applied and policy orientated research especially in the developing countries and David Marsland stresses the positive role of sociology in pointing to the possibilities of improving healthcare in modern society *Societies in Transition Eastern Europe* emphasizes transitions that have occurred in Eastern Europe Rozalina Rjyvkina and Leonid Kosals provide an incisive study of the situation in Russia while Jerzy J Wiatr presents a comparative analysis of postcommunist societies with special reference to Poland *The Jewish World Pre and Post Holocaust* by Regina Azria discusses the identity problems in the Diaspora confronting modernity Eva Etzioni Halevi considers the newly developed Israeli society from the point of view of the exercise and distribution of power and a most interesting contribution by Annette Wieviorka concerns the material and spiritual effects of the Holocaust on the Jews of France Social historians and students of Judaica as well as a general public interested in cultural pluralism will find this well developed volume essential

reading **Making is Connecting** David Gauntlett, 2013-04-29 In *Making is Connecting* David Gauntlett argues that through making things people engage with the world and create connections with each other Both online and offline we see that people want to make their mark on the world and to make connections During the previous century the production of culture became dominated by professional elite producers But today a vast array of people are making and sharing their own ideas videos and other creative material online as well as engaging in real world crafts art projects and hands on experiences Gauntlett argues that we are seeing a shift from a sit back and be told culture to a making and doing culture People are rejecting traditional teaching and television and making their own learning and entertainment instead Drawing on evidence from psychology politics philosophy and economics he shows how this shift is necessary and essential for the happiness and survival of modern societies

**Jewish Survival** Ernest Krausz, 2023-04-14 These essays address Jewish identity Jewish survival and Jewish continuity The authors account for and analyze trends in Jewish identification and the reciprocal effects of the relationship between the Diaspora and Israel at the end of the twentieth century Jewish identification in contemporary society is a complex phenomenon Since the emancipation of Jews in Europe and the major historic events of the Holocaust and the establishment of the State of Israel there have been substantial changes in the collective Jewish identity As a result Jewish identity and the Jewish process of identification had to confront the new realities of an open society its economic globalization and the impacts of cultural pluralism The trends in Jewish identification are toward fewer and weaker points of attachment fewer Jews who hold religious beliefs with such beliefs held less strongly less religious ritual observance attachment to Zionism and Israel becoming diluted and ethnic communal bonds weakening Jews are also more involved in the wider society in the Diaspora due to fewer barriers and less overt anti-Semitism This opens up possibilities for cultural integration and assimilation In Israel too there are signs of greater interest in the modern world culture The major questions addressed by this volume is whether Jewish civilization will continue to provide the basic social framework and values that will lead Jews into the twenty first century and ensure their survival as a specific social entity The book contains special contributions by Professor Julius Gould and Professor Irving Louis Horowitz and chapters on Sociological Analysis of Jewish Identity Jewish Community Boundaries and Factual Accounts from the Diaspora and Israel

**The Palestinian National Movement** Amal Jamal, 2005-06-08 A comprehensive up to date account of the dynamics in the Palestinian political arena Ann M Lesch Villanova University This innovative study examines the internal dynamics of the Palestinian political elite and their impact on the struggle to establish a Palestinian state The PLO leadership has sought to prevent the rise of any alternative in the West Bank and Gaza Strip that can challenge its authority to represent Palestinian aspirations for self determination Drawing on Palestinian sources and interviews with Palestinian political leaders Jamal argues that the Fatah leadership has

attempted to mobilize new social forces local secular nationalist and Islamist movements while undermining their ability to develop independent power structures This policy has served to radicalize the younger local elites contributing to the tensions that precipitated the first and second intifadas Israel s policies have undermined the legitimacy of the national elite while enhancing the Islamist opposition s ideological legitimacy In this way internal elite disunity and growing political differentiation have worked against development of a common Palestinian strategy of state building **The**

**Internationalization of Palace Wars** Yves Dezalay, Bryant G. Garth, 2010-02-15 How does globalization work Focusing on Latin America Yves Dezalay and Bryant G Garth show that exports of expertise and ideals from the United States to Argentina Brazil Chile and Mexico have played a crucial role in transforming their state forms and economies since World War II Based on more than 300 extensive interviews with major players in governments foundations law firms universities and think tanks Dezalay and Garth examine both the production of northern exports such as neoliberal economics and international human rights law and the ways they are received south of the United States They find that the content of what is exported and how it fares are profoundly shaped by domestic struggles for power and influence palace wars in the nations involved For instance challenges to the eastern intellectual establishment influenced the Reagan era export of University of Chicago style neoliberal economics to Chile where it enjoyed a warm reception from Pinochet and his allies because they could use it to discredit the previous regime Innovative and sophisticated The Internationalization of Palace Wars offers much needed concrete information about the transnational processes that shape our world *Violence and Social Orders* Douglass C. North, John Joseph Wallis, Barry R. Weingast, 2009-02-26 All societies must deal with the possibility of violence and they do so in different ways This book integrates the problem of violence into a larger social science and historical framework showing how economic and political behavior are closely linked Most societies which we call natural states limit violence by political manipulation of the economy to create privileged interests These privileges limit the use of violence by powerful individuals but doing so hinders both economic and political development In contrast modern societies create open access to economic and political organizations fostering political and economic competition The book provides a framework for understanding the two types of social orders why open access societies are both politically and economically more developed and how some 25 countries have made the transition between the two types *Legal Culture in the Age of Globalization* Lawrence Friedman, Rogelio Perez-Perdomo, 2003-09-09 This volume of essays examines how the legal systems of the chief countries of Latin America and Mediterranean Europe Argentina Brazil Chile Colombia Mexico Puerto Rico Venezuela France Italy and Spain changed in the last quarter of the 20th century Through essays that provide a wealth of data on the courts and the legal profession in these countries the book attempts to relate changes in the operation of the legal systems to changes in the political and social history of the societies in which they are embedded The details vary in accordance with the particular history and structure of the countries but there are also key commonalities that run through

American Educational History Journal Paul J. Ramsey,2012-10-01 The American Educational History Journal is a peer reviewed national research journal devoted to the examination of educational topics using perspectives from a variety of disciplines The editors of AEHJ encourage communication between scholars from numerous disciplines nationalities institutions and backgrounds Authors come from a variety of disciplines including political science curriculum history philosophy teacher education and educational leadership Acceptance for publication in AEHJ requires that each author present a well articulated argument that deals substantively with questions of educational history     **Lightning Gods and Feathered Serpents** Rex Koontz,2010-01-01 El Taj n an ancient Mesoamerican capital in Veracruz Mexico has long been admired for its stunning pyramids and ballcourts decorated with extensive sculptural programs Yet the city s singularity as the only center in the region with such a wealth of sculpture and fine architecture has hindered attempts to place it more firmly in the context of Mesoamerican history In Lightning Gods and Feathered Serpents Rex Koontz undertakes the first extensive treatment of El Taj n s iconography in over thirty years allowing us to view its imagery in the broader Mesoamerican context of rising capitals and new elites during a period of fundamental historical transformations Koontz focuses on three major architectural features the Pyramid of the Niches Central Plaza ensemble the South Ballcourt and the Mound of the Building Columns complex and investigates the meanings of their sculpture and how these meanings would have been experienced by specific audiences Koontz finds that the iconography of El Taj n reveals much about how motifs and elite rites growing out of the Classic period were transmitted to later Mesoamerican peoples as the cultures centered on

Teotihuacan and the Maya became the myriad city states of the Early Postclassic period By reexamining the iconography of sculptures long in the record as well as introducing important new monuments and contexts Lightning Gods and Feathered Serpents clearly demonstrates El Tajín's numerous iconographic connections with other areas of Mesoamerica while also exploring its roots in an indigenous Gulf lowlands culture whose outlines are only now emerging At the same time it begins to uncover a largely ignored regional artistic culture of which Tajín is the crowning achievement

*A Connected Metropolis* Maxwell Johnson, 2023-07 In *A Connected Metropolis* Maxwell Johnson describes Los Angeles's rise in the early twentieth century as catalyzed by a series of upper class debates about the city's connections to the outside world By focusing on specific moments in the city's development when tensions over Los Angeles's connections or lack thereof emerged Johnson ties each movement to two or three contemporary figures who influenced the debates at hand The elites' previous efforts to secure nationwide and global connections for Los Angeles were wildly successful following World War II As a result the city became a landing spot for African American migrants Cambodian and Laotian refugees and Mexican and Central American immigrants Johnson argues that the city's history is more defined by external relationships than previously understood and those relationships have given the history of the city more continuity than originally recognized At the turn of the twentieth century the politics of connection revolved around initiatives to tie Los Angeles to other places both tangibly and metaphorically Elites built tangible connections to secure among other things the water that irrigated the citrus farms of Los Angeles the capital that propelled its businesses and the people who migrated from the Midwest to buy its houses To build metaphorical connections that located the city amid transcontinental and trans-Pacific movements elites themselves often transcended nearby borders and pursued connections at will Los Angeles stood as a focal point for elite ambitions a place with a more ambivalent relationship to external connections The true story of Los Angeles's rise lies in the spectacular visions and rambunctious activism of a group of elite men dedicated to transforming a remote frontier town into a global metropolis

**The Japanese Connection** N. K. Meaney, Trevor Matthews, Sol Encel, 1988

**National Political Elites, European Integration and the Eurozone Crisis** Nicolò Conti, Borbála Göncz, José Real-Dato, 2018-06-18 The global financial economic and sovereign debt crisis since 2008 has led to increases in political disaffection among citizens a loss of

legitimacy of political institutions the discredit of mainstream parties and the rise of extremist or anti system political alternatives This comparative volume sheds greater light on this critical juncture in the recent history of the European Union EU by focusing on the evolution of attitudes of national political elites It examines whether the crisis has affected the legitimacy of the EU integration project as perceived by national political elites and consequently if the elite consensus that constituted one of the most solid fundamentals supporting that project has been eroded Analysing these changes across the different dimensions in which support for the EU is organized and its relationship with the evolution of support towards European integration among citizens in member states the book addresses a basic question How have these events affected the perceptions of the EU of national political elites Ultimately it sheds light on the evolution of the relationship between the perception of the EU and the national contexts as well as the likely evolution of the project of European integration in the near future This book will be of key interest to scholars and students of political elites EU politics European integration political parties and more broadly to comparative politics European studies and sociology
