Two Charlestonians at War Barbara L. Bellows, 2018-02-21 Tracing the intersecting lives of a Confederate plantation owner and a free black Union soldier Barbara L. Bellows *Two Charlestonians at War* offers a poignant allegory of the fraught interdependent relationship between wartime enemies in the Civil War South Through the eyes of these very different soldiers Bellows brings a remarkable new perspective to the oft told saga of the Civil War Recounted in alternating chapters the lives of Charleston natives born a mile apart Captain Thomas Pinckney and Sergeant Joseph Humphries Barquet illuminate one another s motives for joining the war as well as the experiences that shaped their worldviews Pinckney a rice planter and scion of one of America s founding families joined the Confederacy in hope of reclaiming an idealized agrarian past and Barquet a free man of color and brick mason fought with the Union to claim his rights as an American citizen Their circumstances set the two men on seemingly divergent paths that nonetheless crossed on the embattled coast of South Carolina Born free in 1823 Barquet grew up among Charleston s tight knit community of the colored elite During his twenties he joined the northward exodus of free blacks leaving the city and began his nomadic career as a tireless campaigner for black rights and abolition In 1863 at age forty he enlisted in the 54th Massachusetts Volunteer Infantry the renowned Glory regiment of northern black men His varied challenges and struggles including his later frustrated attempts to play a role in postwar Republican politics in Illinois provide a panoramic view of the free black experience in nineteenth century America In contrast to the questing Barquet Thomas Pinckney remained deeply connected to the rice fields and maritime forests of South Carolina He greeted the arrival of war by establishing a home guard to protect his family s Santee River plantations that would later integrate into the 4th South Carolina Cavalry After the war Pinckney distanced himself from the racist violence of Reconstruction politics and focused on the daunting task of restoring his ruined plantations with newly freed laborers The two Charlestonians chance encounter on Morris Island where in 1864 Sergeant Barquet stood guard over the captured Captain Pinckney inspired

Bellows compelling narrative Her extensive research adds rich detail to our knowledge of the dynamics between whites and free blacks during this tumultuous era Two Charlestonians at War gives readers an intimate depiction of the ideological distance that might separate American citizens even as their shared history unites them **A History of US** Joy Hakim,2002-09-15 Covers American history from the French and Indian War to the Constitutional Convention **The Biographical Dictionary of Women in Science** Marilyn Ogilvie,Joy Harvey,2003-12-16 Edited by two of the most respected scholars in the field this milestone reference combines facts fronted fast access to biographical details with highly readable accounts and analyses of nearly 3000 scientists lives works and accomplishments For all academic and public libraries science and women s studies collections The Materiality of Color Andrea Feese,2017-07-05 Although much has been written on the aesthetic value of color there are other values that adhere to it with economic and social values among them Through case studies of particular colors and colored objects this volume demonstrates just how complex the history of color is by focusing on the diverse social and cultural meanings of color the trouble pain and suffering behind the production and application of these colors the difficult technical processes for making and applying color and the intricacy of commercial exchanges and knowledge transfers as commodities and techniques moved from one region to another By emphasizing color s materiality the way in which it was produced exchanged and used by artisans artists and craftspersons contributors draw attention to the disjuncture between the beauty of color and the blood sweat and tears that went into its production circulation and application as well as to the complicated and varied social meanings attached to color within specific historical and social contexts This book captures color s global history with chapters on indigo plantations in India and the American South cochineal production in colonial Oaxaca the taste for brightly colored Chinese objects in Europe and the thriving trade in vermilion between Europeans and Native Americans To underscore the complexity of the technical knowledge behind color production there are chapters on the discovery of Prussian blue Brazilian feather techn and wallpaper production To sound the depths of color s capacity for social and cultural meaning making there are chapters that explore the significance of black ink in Shakespeare s sonnets red threads in women s needlework samplers blues in Mayan sacred statuary and greens and yellows in colored glass bracelets that were traded across the Arabian desert in the late Middle Ages The purpose of this book is to recover color s complex and sometimes morally troubling past and in doing so

The Interbellum Constitution Alison L. LaCroix,2024-05-28 A synthesis of legal political and social history to show how the post founding generations were forced to rethink and substantially revise the U S constitutional vision Between 1815 and 1861 American constitutional law and politics underwent a profound transformation These decades of the Interbellum Constitution were a foundational period of both constitutional crisis and creativity The Interbellum Constitution was a set of widely shared legal and political principles combined with a thoroughgoing commitment to investing those principles with meaning through debate Each of these shared principles commerce concurrent power and jurisdictional multiplicity

concerned what we now call federalism meaning that they pertain to the relationships among multiple levels of government with varying degrees of autonomy Alison L LaCroix argues however that there existed many more federalisms in the early nineteenth century than today s constitutional debates admit As LaCroix shows this was a period of intense rethinking of the very basis of the U S national model a problem debated everywhere from newspapers and statehouses to local pubs and pulpits ultimately leading both to civil war and to a new more unified constitutional vision This book is the first that synthesizes the legal political and social history of the early nineteenth century to show how deeply these constitutional questions dominated the discourse of the time
