Richard Barnfield's Poetics Fabio Ciambella, Cristiano Ragni, Camilla Caporicci, 2025-06-12 Richard Barnfield is sometimes considered the rival poet in Shakespeare's sonnets but has been relatively neglected in studies of early modern English poetry This edited collection situates Barnfield's position in early modern literature beyond his best known work *The Affectionate Shepherd* exploring his classical education wider homoerotic verse and distinctive aesthetic literary style Making use of different approaches the essays in this volume tackle issues of intertextuality and interdiscursivity through the poet's use of classical sources and poetic genres such as the sonnet and *epyllia* Particular attention is devoted to the relationship between Barnfield's work and that of his contemporaries Traditionally limited to a comparison with Shakespeare's output this volume places Barnfield in the literary panorama of his time giving specific attention to those features which make his work stand out Using

corpus linguistics tools the poet's entire body of work is further elucidated through the structure and meter of his sonnets as well as formal and functional aspects of his use of irony Written by an international group of scholars this collection celebrates the 450th anniversary of Barnfield's birth and makes his poetry essential to the study of early modern literature

Narrative Developments from Chaucer to Defoe Gerd Bayer, Ebbe Klitgard, 2011-02-22 This collection analyzes how narrative technique developed from the late Middle Ages to the beginning of the 18th century Taking Chaucer's influential Middle English works as the starting point the original essays in this volume explore diverse aspects of the formation of early modern prose narratives Essays focus on how a sense of selfness or subjectivity begins to establish itself in various narratives thus providing a necessary requirement for the individuality that dominates later novels Other contributors investigate how forms of intertextuality inscribe early modern prose within previous traditions of literary writing A group of chapters presents the process of genre making as taking place both within the confines of the texts proper but also within paratextual features and through the rationale behind cataloguing systems A final group of essays takes the implicit notion of the growing realism of early modern prose narrative to task by investigating the various social discourses that feature ever more strongly within the social commercial or religious dimensions of those texts The book addresses a wide range of literary figures such as Chaucer Wroth Greene Sidney Deloney Pepys Behn and Defoe Written by an international group of scholars it investigates the transformations of narrative form from medieval times through the Renaissance and the early modern period and into the eighteenth century

Power in Verse Jane Hedley, 2010-11 English lyric poetry from Wyatt to Donne falls into three consecutive stylistic phases Tottel's Miscellany presided over the first making the lyrics of Wyatt and Surrey available for imitation by mid century poets like Barnabe Googe George Turberville and George Gascoigne The Shepheardes Calender and Sidney's *Defense of Poesy* ushered in the second the Elizabethan or Golden phase of the 1580s and 1590s In the third phase Donne and Jonson reacting against the stylistic orientation of the Elizabethan poets reconceived the status of poesy and resituated the lyric for a post Elizabethan audience Chapter 7 is shared between Donne and Jonson post Elizabethan writers who used metonymy to subvert the metaphoric stance of Elizabethan poetry In a Postscript Hedley takes on the metaphysical conceit for a final demonstration of the

explanatory power of Jakobson's theory of language Professor Hedley uses the semiotic theory of Roman Jakobson to create stylistic profiles for each of these three phases of early Renaissance poetry Along with the poetry itself she reexamines contemporary treatises defenses and notes of instruction to highlight key features of poetic practice She proposes that early and mid Tudor poetry is metonymic that the collective orientation of the Elizabethan poets is metaphoric and that Donne and Jonson bring metonymy to the fore once again Chapter 1 sets out the essentials of Jakobson's theory Hedley uses particular poems to show what is involved in claiming that a writer or a piece of writing has metaphoric or a metonymic basis Chapter 2 explains how the metaphoric bias of Elizabethan poetry was produced as poesy became part of England's national identity This chapter broadens out beyond the lyric to include other modes of writing whose emergence belongs to an Elizabethan moment in the history of English literature Beyond chapter 2 each chapter has a double purpose to create stylistic profile for a single poetic generation and to highlight a particular aspect or feature of the poetry as an index of difference from one generation to the next In the third chapter Hedley shows how Wyatt and Surrey used deixis metonymically to give their poems particular occasions Chapter 4 explains how the metonymic bias of the mid Tudor poets affected their use of metaphor and highlights Gascoigne's appreciation of a metaphor as a social gambit or an instrument of moral suasion Chapters 5 and 6 are centered in the Elizabethan period but with perspectives into earlier and subsequent phases of metonymic writing In chapter 5 a comprehensive discussion of the sonnet and the sonnet sequence shows how metaphoric writing cooperates with the poetic function of language Chapter 6 deals with love poetry as a social political activity whose orientation differs radically from one generation of English Petrarchists to the next

Rhetoric Peter Dixon, 2017-07-06 First published in 1971 this book provides a historical account of the fortunes of Rhetoric Beginning with a study of classical rhetorical theory and practice it goes on to explore the impact of rhetoric on English literature and the renunciation of rhetoric from the late 17th century The book concludes with a survey of the ways in which rhetoric was revived and re modelled in the 20th century and its bearings on the practice and theory of literary criticism This book will be of interest to those studying English literature and literary theory

What Is Pastoral? Paul Alpers, 2011-03-15 One of the enduring traditions of Western literary history pastoral is often mischaracterized as a catchall for literature about rural themes and nature in general In *What Is Pastoral* distinguished literary historian Paul Alpers argues that pastoral is based upon a fundamental fiction that the lives of shepherds or other socially humble figures represent the lives of human beings in general Ranging from Virgil's *Eclogues* to Sarah Orne Jewett's *The Country of the Pointed Firs* from Shakespeare and Cervantes to Hardy and Frost this work brings the story of the pastoral tradition previously limited to classical and Renaissance literature into the twentieth century Pastoral reemerges in this account not as a vehicle of nostalgia for some Golden Age nor of escape to idyllic landscapes but as a mode bearing witness to the possibilities and problems of human community and shared experience in the real world A rich and engrossing book *What Is Pastoral* will soon take its place as the definitive study of pastoral literature Alpers

succeeds brilliantly He offers a wealth of new insight into the origins development and flowering of the pastoral Ann Maria Contarino Renaissance Quarterly The Ashgate Research Companion to The Sidneys, 1500-1700 Mary Ellen Lamb, 2017-02-17 Presented in two volumes The Ashgate Research Companion to The Sidneys 1500 1700 assesses the current state of scholarship on members of the Sidney family and their impact as historical and or literary figures in the period 1500 1700 Volume 2 Literature begins with an exploration of the Sidneys books and manuscripts and how they circulated followed by an overview of the contributions of family members Sir Philip Sidney Mary Sidney Herbert Countess of Pembroke Lady Mary Wroth Robert Sidney Earl of Leicester and William Herbert Earl of Pembroke in the genres of prose romance drama poetry psalms and prose These essays outline major controversies and areas for further research as well as conducting literary analysis
