

The image shows the front cover of a book. The cover is a solid green color with a fine, woven texture. At the top and bottom, there are decorative borders. The top border consists of a single row of interlocking diamond shapes, each containing a small cross-like pattern. The bottom border is more complex, featuring three rows: the top and bottom rows are composed of repeating semi-circular or scalloped patterns, while the middle row contains a series of small, stylized floral or star-like motifs. The title is printed in gold. The main title, 'EMINENT DOCTORS', is in a large, bold, serif font. Below it, the subtitle, 'THEIR LIVES AND THEIR WORK', is in a smaller, italicized serif font. The spine of the book is visible on the left edge, showing the same green texture and some wear.

kingdom have contributed to make the medicine and surgery of today what they are. It is the aim of the present book to occupy this vacant place. It is hoped that this has been done in a form neither too technical for the general reader nor unsuitable for the busy practitioner who has very little time to read elaborate biographies but would fain store his mind with the principal facts and lessons of the lives of his great predecessors and teachers. The collection demonstrates not only that hysteria was an important cultural metaphor for the Enlightenment, a fact sometimes obscured by scholarly emphasis on the study of hysteria as a nineteenth and early twentieth century phenomenon, but also that the period's writers sometimes considered hysteria a blessing as well as a curse. Implicit in the various arguments of this collection is the suggestion that hysteria might be considered an expression of early modern ambivalence about the emergence of modernity.
