FACS, 2020-11-09 After arrival I visited museums and monuments in Washington D C I had a peak experience reading Thomas Jefferson's writing in the dome of the monument I have sworn upon the altar of God eternal hostility against every form of tyranny over the mind of man Ever since my faith in democracy has become unshakable I dedicate this book to the people of America to relit the torch of democracy for its revival and survival In the course of history humanity has struggled to survive to live with less threats exercising its free will for comfort and safety The book is based on all sources of knowledge to find out the probability of victory of constructive forces for peace vs destructive forces to allow the realization of World Peace Professor Audrey Cronin discovered the criteria of permanent neutrality's success for Switzerland Comparing it with Afghanistan she found that there is a good probability for Afghanistan to become a permanently neutral PN nation The author extended the same logic for achieving sustainable World Peace Of 193 member states of United Nation 170 meek nations demanding PN eventually others finding it to their interest also would guarantee their right for permanent neutrality by the Security Council of the United Nations **Apocalypse without God** Ben Jones, 2022-04-21 Apocalypse it seems is

everywhere Preachers with vast followings proclaim the world's end Apocalyptic fears grip even the nonreligious amid climate change pandemics and threats of nuclear war As these ideas pervade popular discourse grasping their logic remains elusive Ben Jones argues that we can gain insight into apocalyptic thought through secular thinkers He starts with a puzzle Why would secular thinkers draw on Christian apocalyptic beliefs often dismissed as bizarre to interpret politics The apocalyptic tradition proves appealing in part because it theorizes a relation between crisis and utopia Apocalyptic thought points to crisis as the vehicle to bring the previously impossible within reach offering resources for navigating challenges in ideal theory which involves imagining the best most just society By examining apocalyptic thought's appeal and risks this study arrives at new insights on the limits of utopian hope This title is available as open access on Cambridge Core

Rooted and Grounded Ryan D. Harker, Janeen Bertsche Johnson, 2016-01-28 For many of us the connection between the ecological crisis and humanity's detachment from the land is becoming increasingly clear In biblical terms Adam's humanity has severed itself from the Adamah soil and we creation are reaping the consequences This collection of essays and the conference from which it took shape calls the church to root itself more deeply in the agrarian biblical text and ecclesial tradition in order to remember and freshly imagine ways of living on and with the land that are restorative reconciling and faithful to the triune God's invitation to new life in Christ When we listen attentively to and patiently learn from the biblical text church history and theology the land itself can become a conversation partner and we are summoned to recognize that the gospel is reserved not simply for humanity but for the whole of creation

Divine Providence: A History Brenda Deen Schildgen, 2012-07-26 Holding divine intervention responsible for political and military success and failure has a long history in western thought This book explores the idea of providential history as an organizing principle for understanding the divine purpose for humans in texts that may be literary historical philosophical and theological Providential History shows that with Virgil and the Bible as authoritative precursors to late antique views on history the two most important political thinkers of the late antique Christian world Orosius and Augustine produced the theories of Christian politics and history that were carried over into the first and second millennium of Christianity Likewise their understanding of how the history of the late Roman Empire connects to God's plan for humankind became the background for understanding Dante's own positions in the Monarchia and the Commedia Brenda Deen Schildgen examines Dante's engagement with these authoritative sources whether in biblical ancient Roman writers or the specific legacy of Orosius and Augustine

Divine Action and Providence Zondervan, 2019-11-26 Thinking Clearly and Deeply about the Theology of God's Intervention in the World The claim that God acts in the world is surely a basic theological claim but it's one that has been understood in a wide variety of ways in the Christian theological tradition In some accounts God appears as the largest first and most powerful agent In others God is portrayed as the transcendent ground of all finite agency while never acting on the same plane as other agents Divine Action and Providence represents the proceedings of the seventh annual Los Angeles Theology Conference which invited

theologians across Christian traditions to contribute their constructive accounts and proposals to the theology of God's relation to and intervention in the world. The eleven diverse essays in this collection include discussions on The particularity and detail of divine action Recovering the identity of the God of providence The theological meaning of the course of history The nature of omnipotence Each of the essays collected in this volume engage with Scripture as well as with others in the field theologians both past and present from different confessions in order to provide constructive resources for contemporary systematic theology and to forge a theology for the future

Possession Erin Thompson, 2016-05-28 Whether it's the discovery of 1.6 billion in Nazi looted art or the news that Syrian rebels are looting UNESCO archaeological sites to buy arms art crime commands headlines Erin Thompson America's only professor of art crime explores the dark history of looting smuggling and forgery that lies at the heart of many private art collections and many of the world's most renowned museums Enlivened by fascinating personalities and scandalous events Possession shows how collecting antiquities has been a way of creating identity informed by a desire to annex the past while providing an illicit thrill along the way Thompson's accounts of history's most infamous collectors from the Roman Emperor Tiberius who stole a life-sized nude Greek statue for his bedroom to Queen Christina of Sweden who habitually pilfered small antiquities from her fellow aristocrats to Sir William Hamilton who forced his mistress to enact poses from his collection of Greek vases are as mesmerizing as they are revealing

The Innocence of Pontius Pilate David Lloyd Dusenbury, 2021-12-01 The gospels and ancient historians agree Jesus was sentenced to death by Pontius Pilate the Roman imperial prefect in Jerusalem To this day Christians of all churches confess that Jesus died under Pontius Pilate But what exactly does that mean Within decades of Jesus' death Christians began suggesting that it was the Judean authorities who had crucified Jesus a notion later echoed in the Quran In the third century one philosopher raised the notion that although Pilate had condemned Jesus he'd done so justly this idea survives in one of the main strands of modern New Testament criticism So what is the truth of the matter And what is the history of that truth David Lloyd Dusenbury reveals Pilate's innocence as not only a neglected theological question but a recurring theme in the history of European political thought He argues that Jesus' interrogation by Pilate and Augustine of Hippo's North African sermon on that trial led to the concept of secularity and the logic of tolerance emerging in early modern Europe Without the Roman trial of Jesus and the arguments over Pilate's innocence the history of empire from the first century to the twenty-first would have been radically different

The Politics of Inheritance in Romans Mark Forman, 2011-04-21 Mark Forman explores the extent to which Paul's concept of inheritance in Romans and its associated imagery logic and arguments served to evoke socio-political expectations that were different to those which prevailed in contemporary Roman imperial discourse Forman explores how Paul deploys the idea of inheritance in Romans and analyses the sources which inform and overlap with this concept Coins literature and architecture are all examined in order to understand the purpose hopes and expectations of first-century society This book contributes to recent studies covering Paul and politics by arguing that Paul's concept of

inheritance subverts and challenges first century Roman ideologies *The Renaissance Battle for Rome* Susanna de Beer,2024 *The Renaissance Battle for Rome* examines a rhetorical battle fought simultaneously between many parties seeking prestige or legitimacy through the legacy of ancient Rome It traces the contours of this battle across Renaissance Europe waged by humanist Latin poets negotiating different claims on behalf of others and themselves in their work

Apostle to the Conquered, paperback edition Davina C. Lopez,2010-10-01 *Apostle to the Conquered* reveals the subversive heart of Paul s theology reframing his conversion in terms of consciousness and his exhortations as a politics of the new creation **The Works of Charlotte Smith, Part II vol 8** Stuart Curran,2020-03-24 Charlotte Turner Smith held a central position during the formative years of the British Romantic period Smith s work includes eleven novels and two fictional adaptations from the French This edition reveals the extent to which Smith s work in this form constitutes as significant an achievement as her poetry Pliny the Elder: Themes and Contexts Roy Gibson,Ruth Morello,2011-04-11

Pliny s *Naturalis Historia* is a sophisticated encyclopaedia of the riches of the ancient world The contributors to the present volume represent and join a new generation of critics who have begun to examine the dominant motifs which give shape to the work Authority Frank Furedi,2013-09-12 Who is in authority is a question we can no longer answer with confidence This history of authority explains why Fantasies of Troy Alan Shepard,Stephen David Powell Powell,2004 For medieval and early modern Europeans contemporary culture was often refracted through the legend of Troy arguably the most important set of stories outside the Bible for centuries of western European history These stories were transmitted in dozens of competing versions and contemporary local events were habitually understood in the context of a pagan legend whose origins were remote and whose mandate was ambiguous The fifteen essays in this volume offer compelling new treatments of these now evaporated fantasies of Troy which were central to the European social imaginary The essays consider texts and performances of Troy across a wide generic range from learned court poetry to burlesque from treatises on linguistic history to public spectacles

Subversive Wisdom Elbert W. Newton,2012-05-11 *Subversive Wisdom* makes the case that in the Gospel of John Jesus walks and talks like Lady Wisdom of the Hebrew Scriptures In John Jesus is Wisdom incarnate speaking and demonstrating the subversive wisdom of the way of the cross he is a sort of trickster confusing and frustrating his enemies acting in ways counter to convention and driving out the ruler of this world through the upside down logic that comes from above *Subversive Wisdom* explores literary themes in the Gospel of John such as Jesus as Torah the heavenly perspective of the narrator and Jesus political terminology used throughout the Gospel and the New Exodus **The Contest for Time and Space in the Roman Imperial Cults and 1 Peter** Wei Hsien Wan,2019-10-17 Wei Hsien Wan builds on the work of David Horrell and Travis Williams for his argument that the letter of 1 Peter engages in a subtle calculated form of resistance to Rome that has often gone undetected Whilst previous discussion of the topic has remained largely focused on the letter s stance toward specific Roman institutions such as the emperor household structures and the imperial cults Wan

takes the conversation beyond these confines and examines 1 Peter's critique of the Roman Empire in terms of its ideology or worldview. Using the work of James Scott to conceptualize ideological resistance against domination, Wan considers how the imperial cults of Anatolia and 1 Peter offered distinct constructions of time and space that is how they envisioned reality differently. Insofar as these differences led to divergent ways of conceiving the social order, they acquired political power and generated potential for conflict. Wan thus argues that 1 Peter confronts Rome on a cosmic scale with its alternative construal of time and space and examines the evidence that the Petrine author consciously if cautiously interrogated the imperial imagination at its most foundational levels and set forth in its place a theocentric Christological understanding of the world.

Reading Paul in Context: Explorations in Identity Formation Kathy Ehrensperger, J. Brian Tucker, 2010-09-30. This new collection celebrates the distinguished contribution of William S. Campbell to a renewed understanding of Paul's theologizing and its influence on the shaping of early Christian identity. The essays are clustered around two closely related topics: Paul's theologizing and the way it influenced Christian identity within the context of the Roman Empire. The essays consider the continued relevance of previous identities in Christ, the importance of the context of the Roman Empire and the significance of the Jewishness of Paul and the Pauline movement in the shaping of identity. The political context is discussed by Neil Elliott, Ekkehard Stegemann, Daniel Patte, and Ian Rock, whilst the Jewish roots of Paul and the Christ movement are addressed in essays by Robert Jewett, Mark Nanos, Calvin Roetzel, and Kathy Ehrensperger. Paul's specific influence in shaping the identity of the early Christ movement is the concern of essays by Robert Brawley, Jerry Sumney, Kar Yong Lim, and J. Brian Tucker. Finally, methodological reflection on Paul's theologizing within Pauline studies is the concern of essays by Terrence Donaldson and Magnus Zetterholm.
