Plunkett,2020-12-08 From baby pictures in the cloud to a high school s digital surveillance system how adults unwittingly compromise children s privacy online Our children s first digital footprints are made before they can walk even before they are born as parents use fertility apps to aid conception post ultrasound images and share their baby s hospital mug shot Then in rapid succession come terabytes of baby pictures stored in the cloud digital baby monitors with built in artificial intelligence and real time updates from daycare When school starts there are cafeteria cards that catalog food purchases bus passes that track when kids are

on and off the bus electronic health records in the nurse's office and a school surveillance system that has eyes everywhere. Unwittingly, parents, teachers, and other trusted adults are compiling digital dossiers for children that could be available to everyone: friends, employers, law enforcement, forever. In this incisive book, Leah Plunkett examines the implications of sharethood: adults' excessive digital sharing of children's data. She outlines the mistakes adults make with kids' private information, the risks that result, and the legal system that enables sharenting. Plunkett describes various modes of sharenting, including commercial sharenting efforts by parents to use their families' private experiences to make money, and unpacks the faulty assumptions made by our legal system about children, parents, and privacy. She proposes a thought compass to guide adults in their decision making about children's digital data: play, forget, connect, and respect. Enshrining every false step and bad choice, Plunkett argues, can rob children of their chance to explore and learn lessons. The Internet needs to forget. We need to remember.

A Job You Mostly Won't Know How to Do Pete Fromm, 2020-05-05 A big-hearted novel about the grace of friends and family, the true depth and patience of love, and the impossible privilege of what it means to be a father. Caroline Leavitt, New York Times bestselling author of *Pictures of You*. For young couple Taz and Marnie, their fixer-upper is the symbol of their new life together, a work in progress, the beginning of something grand, all the more so when they learn a baby is on her way. But the blueprint for the perfect life eludes Taz when Marnie dies in childbirth, plummeting the taciturn carpenter headfirst into the new, strange world of fatherhood alone, a landscape of contradictions of great joy and sorrow. With a supporting cast as rich and compelling as the wild Montana landscape, the novel follows Taz's first two years as a father, a job no one can be fully prepared for. The five-time winner of the Pacific Northwest Bookseller Award, with more than eleven books in over twenty years, Pete Fromm has become one of the West's best literary legends. *A Job You Mostly Won't Know How to Do* beautifully captures people who end up building a life that is both unexpected and brave.

Sea Change in Crimson Ray Pace, Did Christopher Columbus carve his name into the skull of a Taino sex slave? Did someone find emeralds on an out-of-the-way Florida Key? Or was that a scam to sell the run-down Sea Change Motel at an inflated price? Look at it: Jimmy Cox says, "We work for a rich egomaniac with a whacked-out sense of the real world. Why are we surprised when a simple real estate deal turns into thirteen people dead and another ten in jail? We arrive for a fishing trip and we end up at a shark attack."

people view the South through myth and stereotype It s not surprising If they turn to newspapers to television and radio to popular films and literature to most history books and folklore they encounter these distortions They find insulting portraits of Southerners whitewashed presentations of southern economics and politics selective visions of history misunderstandings of relationships between people and between people and their land and work Many trivial qualities are romanticized other important ones are totally ignored Blacks are presented only as victims of racism and labor struggles are completely forgotten This view is inevitable when people simply treat the South as an aberration of mainstream America or a remnant of some past culture We at Southern Exposure look at the South from another perspective This is our home we are of it and examine it that we may know more of ourselves and our neighbors These are the politics and culture that surround us and affect us daily that we must analyze praise and attack so our lives can grow and prosper And this is the ground from which we must view the larger world By listening to local tobacco farmers discuss the pressures on them to expand or die we can better understand Earl Butz s plan for US agribusiness By hearing a bluesman s story we come to appreciate how a particular culture evolves from material hardship and inspires immense creativity Victorious Vice Helen
