## **Huna Code In Religions:**

*The Huna Code In Religions* Max Freedom Long, 2015-01-09 In the year 1953 the presence of coded Huna information in the Bible was discovered Since that time the research work has progressed with a number of additional pieces of coded information uncovered This book gives not only the later findings but further expands the study to show similar coded information in the religions of the ancient Egyptians Israelites Buddhists and practitioners of Yoga The complete investigation of the Bible and Gnostic literature has not yet been finished and the reader who wishes to do so may carry on for himself without much difficulty once this book has been read and the research method is understood Yesterday the unveiling of the coded knowledge would have been countered by the Church with burnings and any torture needed for the suppression of heresy Today happily even the humblest Galileo is able safely to take up his telescope and peer into the realms of the new and strange and still forbidden From the Forward Get Your Copy Today **The Huna Code in Religions** Max Freedom Long, 1865

**The Synolic Manager**

D. Patrick Georges,1999-03-03 In their 30 year business experience the authors faced a continuous need to develop people They found that managers and training professionals encountered difficulties in efforts to critically examine performance improvement opportunities and in exploring the ingredients of individual performance Traditional approaches such as skills training even when based on the findings of job analyses and job knowledge surveys often failed to significantly affect individual performance Facing questions such as why do competent and motivated managers sometimes fail to achieve certain realistic and well planned objectives the authors felt the need for a more comprehensive approach to human resource development HRD Such an approach would include a set of factors that seen as related to spirituality in the workplace traditionally were largely ignored These were personal factors such as beliefs and self image which did not allow some people to utilize new skills taught at traditional training courses Following academic and field research the authors developed a new HRD model for which they coined the term Synolic from the Greek synolos meaning complete or all together The new model was presented in an article entitled The Synolic Approach to Human Resource Development published in the British management journal Executive Development Vol 8 No 2 1995 This book represents the authors effort to respond to requests for how to techniques for utilizing the Synolic model They opted to write it in allegory form to make it easier to read after a hard day at work It tells the story of a promising and ambitious young human resources professional who is frustrated by the reluctance of a crusty marketing manager to utilize her impeccable HRD services In search of answers our heroine travels from New Jersey to London and returns ready to abandon her traditional HRD role and instead serve as performance consultant to the business units As a narrative nonfiction book The Synolic Manager may be read as an introduction to the concept of a comprehensive approach to development of self or others The Appendix may be used as a workbook for specific performance improvement and for career or retirement planning There Will Be a Thousand Years of Peace and Prosperity, and They Will Be Ushered in by the Women – Version 1 & Version 2 Anne Wilson Schaef PhD DHL,2016-06-29 Anne Wilson Schaef builds on her former bestseller Women s Reality her New York Times bestseller When Society Becomes an Addict and her multi million copy bestseller Meditations for Women Who Do Too Much to bring us all up to date on the Women s Movement She explores the potentially positive impact that women can and must harness to step forward for further development of the human race and for the planet as a whole She explores the history of the waves of the Women s Movement and the personal interpersonal and cultural stoppers that have kept women from reaching their full potential She demonstrates how women s special talents and assets are essential for dealing with the symptoms of what has become a dysfunctional society This book not only offers hope and opportunity for women to step up and shape a society with their unique gifts it offers hope for the planet itself *Waipi'O Valley* Jeffrey L. Gross,2017-02-25 Waipio Valley A Polynesian Journey from Eden to Eden recounts the remarkable migrations of the Polynesians across a third of the circumference of the earth Their amazing journey began from Kalana i Hauola the biblical Garden of Eden located along the shore of the Persian

Gulf extended to the Indus River Valley of ancient Vedic India to Egypt where some ancestors of the Polynesians were on the Israelite Exodus through Island Southeast Asia and across the Pacific Ocean They voyaged thousands of miles in double hull canoes constructed from hollowed out logs built with Stone Age tools and navigated by the stars of the night sky The Polynesians resided on numerous tropical islands before reaching Waipio Valley the last Polynesian Garden of Eden Due to their isolation on the islands of the Pacific Ocean Polynesian religious and cultural beliefs have preserved elements from mankind's past nearer the beginning of human history Polynesian mythology includes genealogical records of their divine ancestors that extends back to Kahiki their mystical land of creation and ancient divine homeland created by the gods epic tales of gods and heroes that preserved records of their ancient voyages oral chants such as the Hawaiian Kumulipo contain evolutionary creation theories that reflect modern scientific thought and the belief in a Supreme Creator God

**Spiritual Mathematics** John Dunne-Brady, 2014-02-13 This book opened an entirely new vista for organizing and using basic numbers It investigated standard linear numbers 1 2 3 4 5 and how they adversely affected our thinking and actions It carefully described a circular number system in which numbers were placed on concentric circles rather than on straight lines This new arrangement might very differently and beneficially affect our daily thought processes and activities The key discovery involved a series of ten mandalas circular patterns made from everyday numbers The book correlated these new breakthroughs with ancient spiritual patterns and practices found in the I Ching Yoga Kabala and in both Pagan and Christian mysteries These older teachings included the chakras tree of life tarot cards and sacraments Spiritual Mathematics gave a scientific explanation for many spiritual values and sacred phenomena It also emphasized the underlying spiritual realities encountered within modern scientific dogmas

**The Kundalini Book of Living & Dying : Gateways to Higher Consciousness** Ravindra Kumar, Jytte Kumar Larsen, 2007 This comprehensive study of Kundalini energy and how to awaken it within oneself includes methods techniques and examples of achieving higher consciousness Kundalini awakening and self realization There is a spiritual energy dormant below the base of the spine In the east it is called the Kundalini but whatever name it is called it is a common denominator in all major religions People with awakened Kundalini experience death before physically dying through visions and out of body experiences ultimately leading to a spiritual rebirth A twice born person simultaneously enjoys the best of this world and the next through an inner journey that conquers fears of death That inner journey travels the world of meditation and unconscious dreams as well as actual near death experience

**Mysteries** Colin Wilson, 2015-05-17 The acclaimed author of The Occult presents a groundbreaking theory of unexplained phenomena from ghosts and magic to the power of the unconscious A renowned expert on the subject of occultism Colin Wilson's sequel to his masterwork The Occult is a major work in its own right In The Mysteries Wilson continues his investigation into magic the paranormal and the supernatural through extensive research as well as his own extraordinary first hand experiences The result is an extraordinary tour de force of scholarship New Science Through a personal mystical experience Wilson

discovered that human beings consist of a ladder or hierarchy of selves whose upper members may be called upon at will for personal transformation and deep knowledge This experience inspired him to apply this insight to all paranormal phenomena from precognition to Uri Geller s spoon bending Wilson presents detailed studies of hauntings possession and demonic hypnosis as well as magic the Kabbalah and astrology At the heart of his work is a fascinating discussion of the Great Secret of the alchemists which he sees as the key to the mystery of the ladder of selves     *The Executive Guru* D. Patrick Georges,2000-01-12 We are all familiar with the glass ceiling blocking womens access to top corporate positions But there is another largely unknown glass ceiling that blocks both womens and mens efforts to achieve optimum results It is made up of invisible factors such as expectations beliefs and the energy needed to carry out ones plans and decisions By now even kids know the habits of highly effective people but what about their secret habits This book is the result of research conducted following the frustration caused by the authors inability to answer certain irritating questions faced during his 30 year career as manager and consultant Why despite conscientious efforts sometimes effective managers fail to achieve certain attainable goals Why do intelligent and educated people sometimes say or do dumb things What is the use of sending people to training courses if they do not expect to derive any benefits or do not believe they are capable of improving performance What is the importance and interrelationship of self image and self esteem in personal development Are there ways of improving managerial performance other than by using conventional management skills Could improved performance perhaps be attained by tapping into the vast resources of the unconscious mind Such questions coupled with the painful shock caused by downsizing and outsourcing organizations and a diminishing sense of job security have also made increasing numbers of people seek answers and comfort within themselves As well an increasing number of people expect work to provide them not only with a paycheck but also with fulfillment And it is not only individuals who seek to access the vast resources that may exist within each one of us Major corporations have begun looking for ways to improve the bottom line through spirituality while the Spirituality in the Workplace theme now appears on business conference agendas But do we need gurus at work Empirical evidence suggests that fulfillment and creativity are related to an energy source commonly referred to as spirit Apparently results of using traditional management tools may be enhanced if we marshal our latent mental energies and incorporate new approaches to performance management focusing on factors that may help us smash the unconscious glass ceiling blocking the achievement of optimum results Businesses training organizations government agencies and the media have been following the movement towards exploration of inner space a topic that regardless of preconceived notions and skeptics reservations merits the attention of business leaders Spirituality is a sensitive issue and some workers already resent such corporate programs because they consider them an intrusion into their private spiritual world The Executive Guru may serve as a down to earth guide for those interested in examining complementary ways of developing their potential or dealing with the rapid changes and stresses of our times It is written in parable form hopefully making it an easier read

than a straight forward management book after a hard day at work The story is that of an effective manager baffled by requests from staff to attend off site training courses with mystifying names Huna Neurolinguistics Reiki Timeline Programming He seeks advice from a guru who surprisingly provides him with businesslike answers backed by scientific evidence The manager is convinced that there is more out there than meets the eye and decides to add the gurus lessons to his arsenal of management tools Reading management books and attending conventional training courses may have helped you to take charge of your work by using more effective managerial skills This book will provide you with businesslike ideas on complementary approaches to increased creativity personal development and fulfillment **Real Energy** Phaedra Bonewits, Isaac Bonewits, 2007-02-09 Energy Psi prana mana chi divine power the tao reiki or vibes every system of magic and mysticism calls the energies that power its practices by different names Whether questioning the power of prayer or a healing session with a Reiki master an underlying question exists of whether this energy is all the same or if they exist as distinctly different wavelengths of some universal power When New Agers occultists spiritual healers metaphysicians artists and Neopagans talk about the energies they use what do they actually mean Now for the first time a single book discusses the vocabulary magic metaphysics art and science of energy from a multi model 21st century perspective Lessons included will cover Physical vocabulary of energy Metaphysical vocabulary of energy How the laws of magic affect energy The Importance of Focus Real Energy will then take these lessons to the next level giving you direction on how to understand and begin working with different energies Half of the book is dedicated to showing you how to work with specific energies including the four elements crystals plants animals your own body nature spirits ancestors and deities to accomplish your goals and enhance life experiences Specific energy work practices are also covered including Reiki The Huna System working with Pure ESP and PK Feng Shui and the Tantra System With tips from scientists artists magicians and spiritual teachers Real Energy will give you a solid introduction to both the theory and practice of energy work
