Hammond, Thomas R. Stewart, 2001-09-20 Egon Brunswik is one of the most brilliant creative and least understood and appreciated psychologists philosophers of the 20th century This book presents a collection of Brunswik s most important papers together with interpretive comments by prominent scholars who explain the intent and development of his thought This collection and the accompanying diverse examples of the application of his ideas will encourage a deeper understanding of Brunswik in the 21st century than was the case in the 20th century The 21st century already shows signs of acceptance of Brunswikian thought with the appearance of psychologists with a different focus emulation of physical science is of less importance and positive contributions toward understanding behavior outside the laboratory without abandoning rigor are claiming more notice As a result Brunswik s theoretical and methodological views are already gaining the attention denied them in the 20th century

The plan of this book is to provide for the first time in one place the articles that show the origins of his thought with all their imaginative and creative spirit as well as thoughtful scholarly interpretations of the development meaning and application of his ideas to modern psychology Thus his views will become more understandable and more widely disseminated as well as advanced through the fresh meaning given to them by the psychologists of the 21st century Social Judgement Theory Michael E. Doherty,1996 This special issue of Thinking and Reasoning is devoted to social judgement theory SJT which has its origins in Egon Brunswik s probabilistic functionalism The first paper discusses the history and theory of SJT and explores Hammond s distinction between coherence and correspondence criteria The next paper presents the major methodological approaches of SJT with a focus on the Lens Model Four applications follow including an exploration of the medical applications of SJT *Studying Judgement* Nigel Harvey,2001 The papers in this Special Issue are derived from presentations at the 17th Conference on Subjective Probability Utility and Decision Making Human Judgment and Decision Making Kenneth R. Hammond,Gary H. McClelland,Jeryl Mumpower,1980 **Organization and Decision Theory** Ira Horowitz,1990 Ira Horowitz Depending upon one s perspective the need to choose among alternatives can be an unwelcome but unavoidable responsibility an exciting and challenging opportunity a run of the mill activity that one performs seemingly without thinking very much about it or perhaps something in between Your most recent selections from a restaurant menu from a set of jobs or job candidates or from a rent or buy or sell or lease option are cases in point Oftentimes we are involved in group decision processes such as the choice of a president wherein one group member s unwelcome responsibility is another s exciting opportunity Many of us that voted in the presidential elections of both 1956 and 1984 irrespective of political affiliation experienced both emotions others just pulled the lever or punched the card without thinking very much about it Arriving at either an individual or a group decision can sometimes be a time consuming torturous and traumatic process that results in a long regretted choice that could have been reached right off the bat On other occasions the just let s get it over with and get out of here solution to a long festering problem can yield rewards that are reaped for many 1 ORGANIZATION AND DECISION THEORY 2 years to come One way or another however individuals and organizations somehow manage to get the decision making job done even if they don t quite understand and often question just how this was accomplished **Technical Report** ,1987 **Decision Making in the U.S. Department of Energy's Environmental Management Office of Science and Technology** National Research Council,Division on Earth and Life Studies,Commission on Geosciences, Environment and Resources,Committee on Prioritization and Decision Making in the Department of Energy Office of Science and Technology,1999-08-12 Printbegr nsninger Der kan printes 10 sider adgangen og max 40 sider pr session *Human Judgment and Decision Processes in Applied Settings* Martin F.
