Logic And Language Second Series

James K. Feibleman

Logic And Language Second Series:

Logic and Language (1st & Second Series) Antony Flew, 1965 *Foundations of Logic and Language* Pranab Kumar Sen, 1990 *Logic and Language* Antony Flew, 1961 Logic and Language Antony Flew, 1965 *Logical Positivism* A.J. Ayer, 1966 Edited by a leading exponent of the school this book offers in the words of the movement's founders logical positivism's revolutionary theories on meaning and metaphysics the nature of logic and mathematics the foundations of knowledge the content of psychological propositions ethics sociology and the nature of philosophy itself *Talk and Taxonomy* Peter Eglin, 1980-01-01 The thesis of this essay is that social or cultural competence consists more of an interpretive or methodological ability to use language in the service of interaction than of a substantive knowledge of collections of cultural categories and of the semantic relations between the terms naming those categories Mind, Language, and Metaphilosophy Richard Rorty, 2014-02-13 This volume presents a selection of the philosophical essays which Richard Rorty wrote during the first decade of his career and complements four previous volumes of his papers published by Cambridge University Press In this long neglected body of work which many leading philosophers still consider to be his best Rorty develops his views on the nature and scope of philosophy in a manner which supplements and elucidates his definitive statement on these matters in *Philosophy and the Mirror of Nature* He also develops his groundbreaking version of eliminative materialism a label first coined to describe his position and sets out original views on various central topics in the philosophy of language concerning private language indeterminacy and verificationism A substantial introduction examines Rorty's philosophical development from 1961 to 1972 The volume completes our understanding of Rorty's intellectual trajectory and offers lucid statements of positions which retain their relevance to current debates **Categorical Analysis** E. Maynard Adams, 2018-07-11 The essays in this volume have been selected for their contribution to Everett W Hall's mature philosophical position which was grounded in careful linguistic analysis and directed toward philosophically clarifying the major areas of culture He emerges as skillful meticulous and patient in his exploration of language as a means of interpreting the categorical structure of the world Originally published in 1964 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value Exploring Topics in the History and Philosophy of Logic George Englebretsen, 2015-09-14 While post-Fregean logicians tend to ignore or even denigrate the traditional logic of Aristotle and the Scholastics new work in recent years has shown the viability of a renewed extended and strengthened logic of terms that shares fundamental features of the old syllogistic A number of logicians following the lead of Fred Sommers have built just such a term logic It is a system of formal logic that not only matches the expressive and inferential powers of today's standard logic but surpasses it and is far simpler and more natural This book aims to substantiate this claim by

exhibiting just how the term logic can shed need light on a variety of challenges that face any system of formal logic

Logical Form and Language Gerhard Preyer, Georg Peter, 2002 Seventeen specially written essays by eminent philosophers and linguists appear for the first time in this anthology all with the central theme of logical form a fundamental issue in analytical philosophy and linguistic theory *Logic and Language* Antony Flew, 1953 **Logic Identity and Consistency** Pranab Kumar Sen, 1998 Logic and Language. Second Series. Essays by ... J.L. Austin [and Others]. Edited with an Introduction by A. Flew Antony Garrard Newton FLEW, 1953 **Christian Criticism** Thomas F. Merrill, 2023-12-04 Logic and Language John Langshaw Austin, 1955 Logic and Language... Antony Flew, 1960 **Logic and Language. (Second Series.)** Antony Flew, 1953 *Logic and Language* John Langshaw Austin, Douglas Gasking, 1966 **Inside the Great Mirror** James K. Feibleman, 2013-11-21 **Logic and Language (second Series)** , 1953
