Practical Guide to Psychic Powers Melita Denning, Osborne Phillips, 1981 ESP Divination Psychometry Telekinesis Astral vision You've heard of all these talents The amazing truth is that you can have all of these abilities when you practice the simple but powerfully effective exercises in Melita Denning and Osborne Phillips Practical Guide to Psychic Powers World famous experts Denning and Phillips explain exactly what you need to develop your own innate abilities including advice on diet rest and exercise They advise you to meditate daily and give instructions how you can bring this wonderful skill into your life They also reveal how you can make your own tools for psychic development such as a pendulum ESP cards and a Vision Mirror Practical Guide to Psychic Powers explains that your attitude is important in establishing these abilities in your life You'll discover how to eliminate boredom and stress practice mental concentration for long periods and have foreknowledge of the future Many of the exercises to help you to develop psychic abilities are in the form of games making them fun

preventing boredom and creating faster success For example you ll learn a game of guessing dice one with ESP cards and another that uses the vision mirror to predict your future The book teaches you how to become aware of the impressions a material object has gathered the art of psychometry You ll learn about contacting spiritual entities the way Spiritualists do You ll also discover the secrets of dowsing and how to develop and use this ability Denning and Phillips are known for their clarity of thought and for having effective techniques as demonstrated in *Practical Guide to Psychic Powers* *How to Develop your Occult Powers* Swami Panchadasi,2021-08-24 In preparing this series of lessons for students of Western lands I have been compelled to proceed along lines exactly opposite to those which I would have chosen had these lessons been for students in India This because of the diametrically opposite mental attitudes of the students of these two several lands The student in India expects the teacher to state positively the principles involved and the methods whereby these principles may be manifested together with frequent illustrations generally in the nature of fables or parables serving to link the new knowledge to some already known thing The Hindu student never expects or demands anything in the nature of proof of the teachers statements of principle or method in fact he would regard it as an insult to the teacher to ask for the same Consequently he does not look for or ask specific instances or illustrations in the nature of scientific evidence or proof of the principles taught He may ask for more information but solely for the purpose of bringing out some point which he has not grasped but he avoids as a pestilence any question seeming to indicate argument doubt of what is being taught him or of the nature of a demand for proof or evidence The Western student on the other hand is accustomed to maintaining the skeptical attitude of mindthe scientific attitude of doubt and demand for proofand the teacher so understands it Both are accustomed to illustrations bringing out the principles involved but these illustrations must not be fanciful or figurativethey must be actual cases well authenticated and vouched for as evidence In short the Western teacher is expected to actually prove to his students his principles and methods before he may expect them to be accepted This of course not from any real doubt or suspicion of the veracity or ability of the teacher but merely because the Western mind expects to question and be questioned in this way in the process of teaching and learning Consequently in this series of lessons I have sought to follow the Western method rather than the Hindu So far as is possible I have avoided the flat positive statement of principles and methods and have sought to prove each step of the teaching Of course I have been compelled to assume the existence of certain fundamental principles in order to avoid long and technical metaphysical and philosophical discussions I have also had to content myself with the positive flat assertion of the existence of the Astral Plane Akashic Records Prana etc which are fundamental postulates of Hindu philosophy and occult sciencefor these are established solely by the experience of those who are able to function on the higher planes themselves But beyond this I have sought to prove by direct and positive evidence adapted to the Western mind every step of my teaching and methods *How to Develop Psychic Power* F.
