This book will help you decide if you really want a snake and if you do, to convince your parents that you can be a responsible caretaker for this terrific pet.

USS Monitor John D. Broadwater, 2012-02-27 A hundred and fifty years ago naval warfare entered a new phase with the introduction of ironclad vessels On March 9 1862 the USS Monitor prototype of this new class of warships fought the Confederate ironclad CSS Virginia at Hampton Roads Virginia after the Virginia had ravaged the Union fleet blockading the James River sinking larger seemingly more powerful wooden warships in a potent demonstration of the power of an armored heavily gunned steam powered warship In the world's first clash between iron armored warships Monitor and Virginia exchanged gunfire at close range for nearly four hours Neither inflicted serious damage on the other

While a technical stalemate the events at Hampton Roads changed naval warfare forever In the United States and abroad iron and steam would soon replace wood and sail for warship construction Less than nine months later the now famous Monitor was under tow heading south to Beaufort North Carolina when she sank in heavy seas with substantial loss of life Monitor was a total and irretrievable loss even the location of her final resting place became a mystery Not until 1973 was the inverted hull located and in 1974 excavation of the wreck began under the auspices of the National Oceanic and Atmospheric Administration in partnership with the US Navy The decision to place the Monitor in a protected zone a national marine sanctuary marked another historic first for the vessel The story of this decision the raising of the turret and the subsequent management of the historic resource adds another layer of history to the Monitor s fascinating story Sidebars in the book flesh out details and add anecdotal color to the story of Monitor and of the efforts to preserve and interpret the site Lavish illustrations photographs site drawings and artifact sketches complement the informative and highly readable account by the archaeologist who planned and directed the major expeditions that resulted in recovery of many of the Monitor s most significant objects as well as the remains of two Union soldiers who were only recently interred in Arlington National Cemetery more than 150 years after their deaths
