Linguistic Analyses of Aphasic Language Wolfgang U. Dressler,Jaqueline A. Stark,2012-12-06 Linguistic Analyses of Aphasic Language represents results from linguistic and neurolinguistic research on aphasic language performance The contributions encompass all linguistic levels ranging from phonetics to discourse and present results on languages other than English The findings and applied methods are both relevant to the study of aphasia in general and to cross linguistic analyses Furthermore they have clear implications for language and speech therapy and thus show the importance of linguistic concepts for language testing and therapeutic intervention

Temporal Variables in Speech Hans W. Dechert,Manfred Raupach,2011-05-02 No detailed description available for Temporal Variables in Speech

Errors and Disfluencies in Spoken Corpora Gaëtanelle Gilquin,Sylvie De Cock,2013-05-29 The papers brought together in this volume illustrate how spoken corpora be they native or learner corpora can provide insights into various aspects of errors and disfluencies such as pauses and discourse markers They show among others that such phenomena can be influenced by factors like gender age or genre and that they can correlate with e g informativeness and syntactic complexity Crucially they also demonstrate that items which are often dismissed as mere disfluencies can fulfil important functions and thus play an essential role in the management of spoken discourse The book should appeal to linguists who are interested in spoken language in general and in errors and disfluencies in speech in particular as well as to specialists in second language acquisition and language testing who want to know more about the nature of fluency and accuracy Originally published in International Journal of Corpus Linguistics 16 2 2011

Computers in Language Research 2 Walter A. Sedelow,Sally Yeates Sedelow,1983 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by approaching language from an interdisciplinary perspective TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints High quality standards are ensured through anonymous reviewing

Advances in Natural Language Processing Hrafn Loftsson,Eiríkur Rögnvaldsson,Sigrún Helgadóttir,2010-07-30 This book constitutes the proceedings of the 7th International Conference on

Advances in Natural Language Processing held in Reykjavik Iceland in August 2010 *Language, Speech and Mind* Larry M. Hyman, Charles N. Li, 2025-06-02 First published in 1988 *Language Speech and Mind* consists of 18 specially invited contributions to mark Professor Fromkin's 65th birthday in 1988 It reflects her very special interdisciplinary interests and flair thereby celebrating her own important contributions in the areas of phonetics phonology neurolinguistics psycholinguistics and the philosophy of science National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1972 First multi year cumulation covers six years 1965-70 Multiculturalism and Integration Michael Clyne, James Jupp, 2011-07-01 Multiculturalism has been the official policy of all Australian governments Commonwealth and State since the 1970s It has recently been criticised both in Australia and elsewhere Integration has been suggested as a better term and policy Critics suggest it is a reversion to assimilation However integration has not been rigorously defined and may simply be another form of multiculturalism which the authors believe to have been vital in sustaining social harmony

Linguostylistics Olga Akhmanova, 2019-05-20 No detailed description available for Linguostylistics *The methodology of field investigations in linguistics* A. E. Kibrik, 2017-09-25 No detailed description available for The methodology of field investigations in linguistics *Discourse Ability and Brain Damage* Yves Joanette, Hiram Brownell, 2012-12-06 Nonspecialists are often surprised by the issues studied and the perspectives assumed by basic scientific researchers Nowhere has the surprise traditionally been greater than in the field of psychology College students anticipate that their psychology courses will illuminate their personal problems and their friends personalities they are nonplussed to discover that the perception of geometric forms and the running of T mazes dominates the textbooks The situation is comparable in the domain of linguistics Nonprofessional observers assume that linguists study exotic languages that when they choose to focus on their own language they will examine the meanings of utterances and the uses to which language is put Such onlookers are taken aback to learn that the learning of remote languages is a marginal activity for most linguists they are equally amazed to discover that the lion's share of work in the discipline focuses on issues of syntax and phonology which are virtually invisible to the speaker of a language Science moves in its own often mysterious ways and there are perfectly good reasons why experimental psychologists prefer to look at mazes rather than at madness and why linguists study syntax rather than Sanskrit Nonetheless it is a happy event for all concerned when the interests of professionals and non specialists begin to move toward one another and a field of study comes to address the big questions as well as the experimentally most tractable ones *Discourse Ability and Brain Damage* reflects this trend in scientific research Linguistics, 1976 DSH Abstracts, 1978 Towards a Cross-linguistic Assessment of Speech Production Hans-Wilhelm Dechert, Manfred Raupach, 1980 The contributions to this volume by H W Dechert A K Fathman F Grosjean D C O Connell M Raupach K Sajavaara J Lehtonen H W Seliger and R Wiese all deal with speech data from native speakers of different languages or native speakers and language learners of the same language or speakers in their native and their second languages They are the results of various

methodological attempts to assess speech using a cross linguistic approach and represent an area of research which may be called Contrastive Psycholinguistics The South African Journal of Communication Disorders ,1983 **MLA**

International Bibliography of Books and Articles on the Modern Languages and Literatures ,1989 Vols for 1969 include ACTFL annual bibliography of books and articles on pedagogy in foreign languages 1969 *Hesitation* Leonard W. Doob,1990-08-27 This book provides an analysis of the human phenomenon of hesitation the time elapsing between the stimulation of a person and that person s response The views of disciplines as diverse as physiology and philosophy are examined with special emphasis placed on psychology and the social sciences Leonard Doob seeks to determine when and why human beings are impulsive or reflective and whether from their standpoint and that of others their own hesitation should be extremely brief long or protractive The volume also cites and summarizes relevant studies and derives guidelines related to subjective and objective hesitation Although partially treated in other books and articles this work represents the first book length study of hesitation The volume covers a full range of explanations for hesitation starting with reflex actions the central nervous system and moving out to encompass an individual s culture and society his personality development and the influence that others may have over him The study is divided into three main parts An introduction serves to clarify the starting point for analysis addressing the explanation and morality of hesitation and the questions of judgment that affect it The next part Section 2 analyzes hesitation in terms of culture and society personality traits and interrelations other persons and situations The final section is devoted to selection discussing the value of three degrees of hesitation and the techniques that can be employed to modify impulsivity and reflection The book concludes with a list of recommended readings and a comprehensive index This important study will be a valuable resource for psychologists psychiatrists and social scientists and for courses in psychology sociology and anthropology It will also be a significant addition to both public and academic libraries Grundbegriffe und Hauptströmungen der Linguistik Christoph Gutknecht,1977
