War Representation in British Cinema and Television Kevin M. Flanagan,2019-10-25 This book explores alternatives to realist triumphalist and heroic representations of war in British film and television Focusing on the period between the Suez Crisis of 1956 and the Falkland War but offering connections to the moment of Brexit it argues that the lost continent of existential satirical simulated and abstractly traumatic war stories is as central to understanding Britain s martial history as the mainstream inheritance The book features case studies that stress

the contribution of exiled or expatriate directors and outsider sensibilities with particular emphasis on Peter Watkins Joseph Losey and Richard Lester At the same time it demonstrates concerns and stylistic emphases that continue to the present in television series and films by directors such as Lone Scherfig and Christopher Nolan Encompassing everything from features to government information films the book explores related trends in the British film industry popular culture and film criticism while offering a sense of how these contexts contribute to historical memory The Legacy of the Great War Jay Winter, 2009-10-26 In late 2007 and early 2008 world renowned historians gathered in Kansas City for a series of public forums on World War I Each of the five events focused on a particular topic and featured spirited dialogue between its prominent participants In spontaneous exchanges the eminent scholars probed each other's arguments learned from each other and provided insights not just into history but also into the way scholars think about their subject alongside and at times in conflict with their colleagues Representing a fourth generation of writers on the Great War and a transnational rather than an international approach prominent historians Niall Ferguson and Paul Kennedy Holger Afflerbach and Gary Sheffield John Horne and Len Smith John Milton Cooper and Margaret MacMillan and Jay Winter and Robert Wohl brought to the proceedings an exciting clash of ideas The forums addressed topics about the Great War that have long fascinated both scholars and the educated public the origins of the war and the question of who was responsible for the escalation of the July Crisis the nature of generalship and military command seen here from the perspectives of a German and a British scholar the private soldiers experiences of combat revealing their strategies of survival and negotiation the peace making process and the overwhelming pressures under which statesmen worked and the long term cultural consequences of the war showing that the Great War was great not merely because of its magnitude but also because of its revolutionary effects These topics continue to reverberate and in addition to shedding new light on the subjects these forums constitute a glimpse at how historical writing happens American society did not suffer the consequences of the Great War that virtually all European countries knew a lack of perspective that the National World War I Museum seeks to correct This book celebrates that effort helping readers feel the excitement and the moral seriousness of historical scholarship in this field and drawing more Americans into considering how their own history is part of this story **War, Demobilization and Memory** Alan Forrest, Michael Rowe, 2016-04-08 This volume examines the impact of the wars in the Atlantic world between 1770 and 1830 focusing both on the military economic political social and cultural demobilization that occurred immediately at their end and their long term legacy and memory **The Accountant**, 1918 **Vietnam and the United States** Gary R. Hess, 1990 If there is an overall theme to this study it relates to the American response to the Vietnamese Communist revolution or more specifically to the August Revolution which in 1945 brought Ho Chi Minh and his movement to prominence and power Throughout the several phases of U S involvement the support of the French war effort the fostering of an independent South Vietnam the years of intense warfare and the postwar hostility the American opposition to the Vietnamese revolution has

been unrelenting How a Communist revolution in such a relatively obscure and economically backward county came to be perceived as a challenge to U S national security can be answered in part but enough uncertainty remains that it continues to be an intriguing question and one with long range implications for U S foreign policy Preface The Pacific Reporter ,1926
