

Jesus Died for All... for All to Live for Him

And that he died for all, that they which live should not henceforth live unto themselves, but unto him which died for them, and rose again.

2 Corinthians 5:15

We should not make ourselves,
but Christ, the end of our living and actions.
A Christian's life should be devoted to Christ.

letter **Speaking of Forms of Life** Claudio Campagna, Daniel Guevara, 2023-11-26 Humans pose an unprecedented threat to life in all its great diversity of forms The human induced extinction rate has been compared to mass extinctions of the past But this language masks the fact that the crisis is due to voluntary and thus avoidable choices and actions Speaking of Forms of Life shows that at the root of this crisis is the tragic inadequacy of the language predominantly used to represent and address what we are doing including the language of sustainable development rights for animals and the rest of nature their intrinsic value and conservation of species as populations This talk alienates us from the other living things from what they actually are have and do and it perpetuates the harm and loss Campagna and Guevara compellingly argue on rigorous but accessible grounds that there is an alternative language to guide conservation in confronting the radically urgent ethical issues it faces This is a language with which we are all familiar mastered by naturalists from Aristotle to Audubon It articulates the primary value in life and the standard that must guide how human beings should live as one form of life among countless others This book is a homecoming for those who practice conservation to above all else secure a creature's ability to satisfy the necessities of its form of life This is an essential book for anyone who cares about conservation and is concerned about the frightening pace of extinctions The great theme of the book is the importance of the language in which we think and talk about living beings Daniel Guevara and Claudio Campagna make available for conservationists the ground breaking work of Philippa Foot and Michael Thompson on natural goodness and on our thought about living beings They show how it can be brought to bear on the threats that confront conservation and on disputes that may seem irresolvable I recommend Speaking of Forms of Life as strongly as I can Cora Diamond William R Kenan Jr Professor Emerita of Philosophy Professor of Law and University Professor University of Virginia Our current conservation language is shot through with economic platitudes that don't explain anyone's real motives for conserving biodiversity Campagna and Guevara's new book lays out a convincing alternative grounding conservation goals in the objective goodness of life's many ways of flourishing Speaking of Forms of Life is inspiring informative well grounded in the relevant philosophy and conservation literatures but never pedantic Both activists and thinkers will find much of value in Speaking of Forms of Life Philip Cafaro Professor of Philosophy Colorado State University Speaking of Forms of Life helps us confront the fact that language often obscures rather than facilitates our understanding of living things Our language reflects past misperceptions current ignorance and our shockingly limited intellectual ability to comprehend where we are in space and time and who we are with on this strange planet with its soap bubble coating of life The language in use has abetted and accelerated the catastrophic course we daily continue to choose Speaking of Forms of Life shows us why and how this must change It's a crucial revelation that we must heed because our species alone can consider changing course and our species alone must do so Carl Safina MacArthur Fellow Carl Safina Research Chair for Nature and Humanity Stony Brook University Our biosphere is a miracle Communicating the sense of awe and wonder that it instills in many of us is essential to shift from wanton destruction of our
