Robert Stephen Haskett

Enduring Visions:

Visions of Paradise Robert Stephen Haskett, 2005 Cuernavaca often called the Mexican Paradise or Land of Eternal Spring has a deep rich history Few visitors to this modern resort city near Mexico City would guess from its Spanish architecture and landmarks that it was governed by its Tlalhuican residents until the early nineteenth century Formerly called Cuauhnahuac the city was renamed by the Spanish in the sixteenth century when Hernando Cortés built his stone palace on its main square and thrust Cuernavaca into the colonial age In *Visions of Paradise* Robert Haskett presents a history of Cuernavaca basing his account on an important body of late seventeenth century historical records known as primordial titles written by still unknown members of the Native population Until comparatively recently these indigenous language documents have been dismissed as false or forged land records Haskett however uses these Nahuatl texts to present a colorful portrait of how the Tlalhuicas of Cuernavaca and its environs made intellectual sense of their place in the colonial scheme conceived of their relationship to the sacred worlds of both their native religion and Christianity and defined their own history Surveying the local history of Cuernavaca from precontact observations by the Aztecs through postclassic times to the present with a concentration on early colonial times Haskett finds that the Native authors of the primordial titles crafted a celebratory history proclaiming themselves to be an enduringly autonomous essentially unconquered people who triumphed over the rigors of the Spanish colonial system

The Hanoverian Succession Andreas Gestrich, Michael Schaich, 2016-03-09 The Hanoverian succession of 1714 brought about a 123 year union between Britain and the German electorate of Hanover ushering in a distinct new period in British history Under the four Georges and William IV Britain became arguably the most powerful nation in the world with a growing colonial Empire a muscular economy and an effervescent artistic social and scientific culture And yet history has not tended to be kind to the Hanoverians frequently portraying them as petty minded and boring monarchs presiding over a dull and inconsequential court merely the puppets of parliament and powerful ministers In order both to explain and to challenge such a paradox this collection looks afresh at the Georgian monarchs and their role influence and legacy within Britain Hanover and beyond Concentrating on the self representation and the perception of the Hanoverians in their various dominions each chapter shines new light on important topics from rivaling concepts of monarchical legitimacy and court culture during the eighteenth century to the multi confessional set up of the British composite monarchy and the role of social groups such as the military the Anglican Church and the aristocracy in defining and challenging the political order As a result the volume uncovers a clearly defined new style of Hanoverian kingship one that emphasized the Protestantism of the dynasty laid great store by rational government in close collaboration with traditional political powers embraced army and navy to an unheard of extent and projected this image to audiences on the British Isles in the German territories and in the colonies alike Three hundred years after the succession of the first Hanoverian king an intriguing new perspective of a dynasty emerges challenging long held assumptions and

prejudices **The Allure of Toxic Leaders** Jean Lipman-Blumen, 2006 Toxic leaders both political like Slobodan Milosevic and corporate like Enron's Ken Lay have always been with us and many books have been written to explain what makes them tick Here leadership scholar Jean Lipman Blumen explains what makes the followers tick exploring why people will tolerate and remain loyal to leaders who are destructive to their organizations their employees or their nations Why do we knowingly follow seldom unseat frequently prefer and sometimes even create toxic leaders Lipman Blumen argues that these leaders appeal to our deepest needs playing on our anxieties and fears on our yearnings for security high self esteem and significance and on our desire for noble enterprises and immortality She also explores how followers inadvertently keep themselves in line by a set of insidious control myths that they internalize For example the belief that the leader must necessarily be in a position to know more than the followers often stills their objections In addition outside forces such as economic depressions political upheavals or a crisis in a company can increase our anxiety and our longing for charismatic leaders Lipman Blumen shows how followers can learn critical lessons for the future and survive in the meantime She discusses how to confront reform undermine blow the whistle on or oust a toxic leader And she suggests how we can diminish our need for strong leaders identify reluctant leaders among competent followers and even nurture the leader within ourselves Toxic leaders charm manipulate mistreat weaken and ultimately devastate their followers *The Allure of Toxic Leaders* tells us how to recognize these leaders before it's too late *Constitutive Visions* Christa J. Olson, 2015-06-13 In *Constitutive Visions* Christa Olson presents the rhetorical history of republican Ecuador as punctuated by repeated arguments over national identity Those arguments as they advanced theories of citizenship popular sovereignty and republican modernity struggled to reconcile the presence of Ecuador's large indigenous population with the dominance of a white mestizo minority Even as indigenous people were excluded from civic life images of them proliferated in speeches periodicals and artworks during Ecuador's long process of nation formation Tracing how that contradiction illuminates the textures of national identity formation *Constitutive Visions* places petitions from indigenous laborers alongside oil paintings overlays woodblock illustrations with legislative debates and analyzes Ecuador's nineteen constitutions in light of landscape painting Taken together these juxtapositions make sense of the contradictions that sustained and unsettled the postcolonial nation state **Visions and Revelations** John Taylor Dean, 1911 **Rocket Dreams** Marina Benjamin, 2003-05-25 In 1958 mankind's centuries long flirtation with space flight became a torrid love affair For a decade tens of millions of people were enraptured first by the U S Soviet race to the moon and finally as America outstripped its rival by Project Apollo alone It is now more than three decades since the last man walked on the moon more time than between the first moonwalk and the beginning of World War II Apollo did not as had been promised by a generation of visionaries herald the beginning of the Space Age but its end Or did it Project Apollo like a cannonball reached its apogee and returned to earth but the trajectory of that return was complex America's atmosphere its economic scientific and cultural atmosphere made for a very complicated

reentry that produced many solutions to the trajectory problem Rocket Dreams is about those solutions about the places where the space program landed In Rocket Dreams an extraordinarily talented young writer named Marina Benjamin will take you on a journey to those landing sites A visit with retired astronauts at a celebrity autograph show is a starting point down the divergent paths taken by the pioneers including Edgar Mitchell founder of the church of No tic Sciences Roswell New Mexico is a landing site of a different order the magnetic north of UFO belief in the United States a belief that began its most dramatic growth precisely at the time that the path of the space program began its descent In the vernacular the third law of motion states that what goes up must come down Thus the tremendous motive force that energized the space program didn t just vanish it was conserved and transformed making bestsellers out of fantasy literature spawning Gaia and giving symbolism to the environmental movement Everything from the pop cultural boom in ufology to the worldwide Search for Extra Terrestrial Intelligence SETI feeds on the energy given off by America s leap toward space Rocket Dreams is an eloquent tour of this Apollo scarred landscape It is also an introduction to some of the most fascinating characters imaginable Some long dead like the crackpot visionary Alfred Lawson who saw in space flight a new stage of human evolution Alti Man or Robert Goddard the father of rocketry whose workshop in Roswell stands only half a mile from shops selling posters of alien visitors Others are very much alive like Stewart Brand creator of the Whole Earth Catalog and partner with Gerard O Neill in the drive to build free floating space colonies and SETI astronomer Seth Shostak who has spent decades listening to the skies hoping for the first contact with another intelligent species Perceptive original and wonderfully written informed by history science and an acute knowledge of popular culture Rocket Dreams is a brilliant book by a remarkable talent
