Engaging Men:

Engaging Men and Boys International Center for Research on Women, Kanpal, Suneha, Kedia, Sapna, Khurana, Nalini, UNESCO Office New Delhi, Verma, Ravi, 2024-12-19 *Engaging Men in Building Gender Equality* Michael Flood, Richard Howson, 2015-06-18 Men's roles in building gender equality are currently on the public agenda. Across the globe, there are growing efforts to engage men and boys in building more equitable relations with women and girls. Programs that engage with men have proliferated in fields such as violence prevention, sexual and reproductive health, parenting education, and work. The last decade has seen the emergence of national and global campaigns, initiatives by international agencies, and scholarly research.

Engaging Men in the Fight against Gender Violence Jane Freedman, 2012-12-05 Gender-based violence is a global phenomenon which affects millions worldwide. However, despite the increasing attention which is now paid to this violence by policy makers, data seem to indicate that these efforts are not having as great an impact as may have been hoped. In all countries of the world, reports of gender-related violence remain elevated, whilst many incidents of such violence probably remain unreported due to fear of stigma or reprisals for those who are victims. One of the problems in tackling gender-based violence has been that for too long men have been ignored as part of the solution. Men are often labelled as perpetrators of violence, but they are perhaps too infrequently considered also as potential victims or as partners and actors in the fight against violence. Constructions of masculinities are not adequately studied to analyse how dominant forms of masculinities may contribute to cycles of violence and may also oppress and traumatise men themselves. This volume aims to address critically the issues of men, masculinity, and gender-based violence, asking how men can be fully engaged in the prevention of gender-based violence and how this engagement can strengthen prevention initiatives.

Engaging Men and Boys in Violence Prevention Michael Flood, 2018-11-07 Across the globe, violence prevention initiatives focused on men and boys are proliferating rapidly. *Engaging Men and Boys in Violence Prevention* highlights effective and innovative strategies for the primary prevention of domestic violence, sexual violence, and other forms of harassment and abuse. It combines research on gender, masculinities, and violence with case studies from a wide variety of countries and settings. Through the cross-disciplinary examination of these varied efforts, this work will enable advocates, educators, and policy makers to understand, assess, and implement programs and strategies which involve men and boys in initiatives to prevent violence against women.
