

The background of the cover features a warm, golden-brown photograph of Istanbul's skyline. Two tall, slender minarets with tiered balconies rise vertically, flanking a central area. In the lower foreground, the dark, ribbed dome of a mosque is visible, topped with a finial. The overall atmosphere is serene and evokes the historic architecture of the city.

Constantinople Ken Dark, Ferudun Özgümüş, 2013-11-29 Istanbul Europe's largest city became an urban centre of exceptional size when it was chosen by Constantine the Great as a new Roman capital city Named Constantinople after him the city has been studied through its rich textual sources and surviving buildings but its archaeology remains relatively little known compared to other great urban centres of the ancient and medieval worlds Constantinople Archaeology of a Byzantine Megapolis is a major archaeological assessment of a key period in the development of this historic city It uses material evidence contemporary developments in urban archaeology and archaeological theory to explore over a thousand years of the city's development Moving away from the scholarly emphasis on the monumental core or city defences the volume investigates the inter mural area between the fifth century land walls and the Constantinian city wall a zone which encompasses half of the walled area but which has received little archaeological attention Utilizing data from a variety of sources including the Istanbul Rescue Archaeology Project created to record material threatened with destruction the analysis proposes a new model of Byzantine Constantinople A range of themes are explored including the social economic and cognitive development Byzantine perceptions of the city the consequences of imperial ideology and the impact of self

organization brought about by many minor decisions Constantinople casts new light on the transformation of an ancient Roman capital to an Orthodox Christian holy city and will be of great importance to archaeologists and historians **The Grand Turk** John Freely, 2009-10-01 The historian and author of *Strolling Through Istanbul* presents a detailed portrait of the fifteenth century Ottoman sultan revealing the man behind the myths Sultan Mehmet II known to his countrymen as The Conqueror and to much of Europe as The Terror of the World was once Europe's most feared and powerful ruler Now John Freely the noted scholar of Turkish history brings this charismatic hero to life in evocative and authoritative biography Mehmet was barely twenty one when he conquered Byzantine Constantinople which became Istanbul and the capital of his mighty empire He reigned for thirty years during which time his armies extended the borders of his empire halfway across Asia Minor and as far into Europe as Hungary and Italy Three popes called for crusades against him as Christian Europe came face to face with a new Muslim empire Revered by the Turks and seen as a brutal tyrant by the West Mehmet was a brilliant military leader as well as a renaissance prince His court housed Persian and Turkish poets Arab and Greek astronomers and Italian scholars and artists In *The Grand Turk* Freely sheds vital new light on this enigmatic ruler *A Day at the Beach* Geoffrey Wolff, 2013-03-06 With these interwoven autobiographical essays Geoffrey Wolff author of the acclaimed *The Duke of Deception* recounts the moral and immoral education of a writer friend husband and father as he offers his spirited elegant and deeply felt observations on an extraordinary life from wildly dysfunctional childhood Christmases to a concupiscent career teaching literature in Istanbul from a victory over the chaos of drink to a life affirming surrender to the majesty of the Matterhorn and from a foundering friendship to the transcending love of family He shares with us then the wisdom of an alert man learning through the unsettling collisions of time place and local custom and through the force of hardship and hazard to bring his many disparate selves together with astonishing high stakes candor and dazzling literary agility **Monuments and Memory, Made and Unmade** Robert S. Nelson, Margaret Olin, 2003 Examining how monuments preserve memory these essays demonstrate how phenomena as diverse as ancient drum towers in China and ritual whale killings in the Pacific Northwest serve to represent and negotiate time *The Rough Guide to First-Time Europe* Doug Lansky, 2013-10-10 The Rough Guide to First Time Europe tells you everything you need to know before you go from information about visas and insurance to budgets and packing This book will help you plan the best possible trip with tips on using your phone abroad and guidance on which websites apps and travel agencies to use to get the best deals and advice You'll find insightful information on when to go and what not to miss how to stay safe and perhaps most importantly how to get under the skin of a place and meet the locals in a natural way As well as an inspirational full colour things not to miss section the guide includes overviews and maps of each European country to help you plan your route The Rough Guide to First Time Europe has everything you need to make your trip as enriching and memorable as it should be Make the most of your time with The Rough Guide to First Time Europe Now available in ePub format **Constructing**

Ottoman Beneficence Amy Singer,2012-02-01 Ottoman charitable endowments waqf constituted an enduring monument to imperial beneficence and were important instruments of policy One type of endowment the public soup kitchen imaret served travelers scholars pious mystics and local indigents alike Constructing Ottoman Beneficence examines the political social and cultural context for founding these public kitchens It challenges long held notions about the nature of endowments and explores for the first time how Ottoman modes of beneficence provide an important paradigm for understanding universal questions about the nature of charitable giving A typical and well documented example was the imaret of Hasseki Hurrem Sultan wife of Sultan S leyman I in Jerusalem The imaret operated at the confluence of imperial endowment practices and Ottoman food supply policies while also exemplifying the role of imperial women as benefactors Through its operations the imaret linked imperial Ottoman and local Palestinian interests integrating urban and rural economies **Johann Michael**

Wansleben's Travels in Turkey, 1673-1676 Alastair Hamilton,Maurits Van den Boogert,2023-02-27 Johann Michael Wansleben s Travels in Turkey 1673 1676 is a hitherto unpublished version of a remarkable description of Istanbul Izmir and Bursa by the German scholar traveller Wansleben Wansleben was in the Ottoman Empire to buy manuscripts statuary and curios for the French king but it is his off hand observations about Ottoman society that often make Wansleben s account such a valuable historical source His experiences add to our knowledge of such diverse topics as prostitution in the Ottoman Empire taxation and the French consular system His visit to Bursa is also noteworthy because few Western travellers included the first Ottoman capital in their tours of the East or described it at such length **Looking East G.**

Maclean,2007-09-05 Looking East examines how English encounters with the Ottoman Empire helped shape national identities and imperial ambitions Engagingly written in an accessible style this book demonstrates how the so called conflict of civilizations separating the Muslim East from the Christian West is a false and dangerous myth **Poverty and Charity**

in Middle Eastern Contexts Michael Bonner,Mine Ener,Amy Singer,2012-02-01 Offering insights and analysis in a field that has only recently come into existence this book explores the ideals and institutions through which Middle Eastern societies from the rise of Islam in the seventh century C E to the present day have confronted poverty and the poor By introducing new sources and presenting familiar ones with new questions the contributors examine ideas about poverty and the poor ideals and practices of charity and state and private initiatives of poor relief over this extensive time span They avoid easy generalizations about Islam and the Middle East as they seek to set the ideals and practices in comparative perspective
