From Union To Commonwealth Nationalism And Separatism In The Soviet Republics:

From Union to Commonwealth Gail Lapidus, Victor Zaslavsky, Philip Goldman, 1992-09-03 This volume examines the rise of national movements which challenged then destroyed the stability and territorial integrity of the former Soviet state

From Union to Commonwealth Gail Lapidus, Victor Zaslavsky, 1992-09-03 The collapse of the Soviet Union and the emergence of fifteen independent states on its former territory is one of the most momentous developments of the twentieth century In *From Union to Commonwealth* five leading international scholars Leokadia Drobizheva and Galina Starovoiteva from Russia and Gail Lapidus Ronald Suny and Victor Zaslavsky from North America team up to examine the forces that lay behind the rise of national movements which challenged then destroyed the stability and territorial integrity of the former Soviet state Writing from their different disciplinary perspectives from political science modern history and from sociology these authors offer unique insights into the links between political structure and nationalism finding that Soviet policies designed to eliminate national distinctiveness frequently had the unintended result of creating powerful new national identities With the pursuit of perestroika and glasnost such identities became potent political forces impelling the Soviet leadership to grapple with the growing tension between demands for regional sovereignty and the preservation of central economic and political control The authors show how in the course of this struggle the international system often played a critical role Non Russian national movements sought to expand their ties to Europe or Asia even as they pursued independence from Moscow In the end it was the transformation of Russian national consciousness and the emergence of a Russian state which disassociated itself from the legacy of empire which played a decisive role in the collapse of the center The progressive weakening of central institutions and the emergence of increasingly assertive sovereign states was accelerated by the failed coup of August 1991 Presenting a broad and timely analysis of the national dimension of politics after perestroika this book is essential reading for all those seeking to understand the complexities underlying the demise of the Soviet state as well as the emergence of new states actively engaged in defining their national identities at home and abroad

Nationalism and Communism in Eastern Europe and the Soviet Union W. Kemp, 1999-02-08 Nationalism and Communism in Eastern Europe and the Soviet Union looks at communism's attempts to come to terms with nationalism between Marx and Yeltsin how the inability of communist theorists and practitioners to achieve an effective synthesis between nationalism and communism contributed to communism's collapse and what lessons that holds for contemporary Europe

The Constitutional Systems of the Independent Central Asian States Scott Newton, 2017-02-23 This book undertakes the first comparative constitutional analysis of the Kyrgyz Republic and Republics of Kazakhstan Turkmenistan Uzbekistan and Tajikistan in their cultural historical political economic and social context The first chapter provides a general overview of the diverse and dynamic constitutional landscape across the region A second chapter examines the Soviet constitutional system in depth as the womb of the Central Asian States A third chapter completes the general picture

by examining the constitutional influences of the new world order of globalisation neoliberalism and good governance into which the five states were thrust The remaining five chapters look in turn at the constitutional context of presidents and governments parliaments and elections courts and rights society and economy and culture and identity The enquiry probes the regional patterns of neo Sovietism plebiscitary elections weak courts and parliaments crony capitalism and constraints on association as well as the counter tendencies that strengthen democracy rights protection and pluralism It reveals the Central Asian experience to be emblematic of the principal issues and tensions facing contemporary constitutional systems everywhere

The Collapse of the Soviet Union, 1985-1991 David R. Marples, 2016-09-17 Why did the Soviet Union collapse in 1991 The collapse of the Soviet Union has widely been seen as the result of the arms race and Cold War and the failure of the Soviet side to keep pace with new technology This book argues that the disintegration was mainly a result of two interrelated factors the rise of the Soviet national republics and the manipulation of the new Russian presidency by Boris Yeltsin in what became a direct power struggle between Yeltsin and the Soviet leader Gorbachev Written in a clear and accessible manner the book provides an explanation of how the national question came to dominate Soviet politics by 1990 1 analysis of the economic crisis that occurred in the late 1980s a chapter devoted to the year 1991 from the referendum to reform the Soviet Union to the unforeseen dissolution of the country by December a discussion of the personalities of and political confrontation between the two key statesman Gorbachev and Yeltsin Also containing a Chronology Glossary and Who's Who of key figures The Collapse of the Soviet Union is essential reading for students of twentieth century European history

Ethnicity, Nationalism and Conflict in and after the Soviet Union Valery Tishkov, 1996-11-28 Valery Tishkov is a well known Russian historian and anthropologist and former Minister of Nationalities in Yeltsin's government This book draws on his inside knowledge of major events and extensive primary research Tishkov argues that ethnicity has a multifaceted role it is the most accessible basis for political mobilization a means of controlling power and resources in a transforming society and therapy for the great trauma suffered by individuals and groups under previous regimes This complexity helps explain the contradictory nature and outcomes of public ethnic policies based on a doctrine of ethno nationalism

Russia Neil Robinson, 2003-09-02 This invaluable text traces Russia's complex historical development in the last century its recent political troubles and economic misfortunes and its place in the contemporary international system

Ethnopolitics and the Transition to Democracy Rasma Karklins, 1994-03 Woodrow Wilson Center Press

Exit from Communism Stephen R. Graubard, 2021-09-28 Since 1989 it has been possible to review what has been published both at home and abroad on the communist states of Central and Eastern Europe and no less importantly on the Soviet Union itself from a new perspective Few have chosen to engage in this Herculean task whether out of a residual civility in not wishing to mock certain aging scholars whose research would appear curiously dated or out of a sense of fatigue with the whole subject of casting aspersions on mistaken views A New Europe for the Old asks whether the master narratives that circulated so

widely in the West in the half century since 1945 remain valid Stephen Graubard's volume raises pertinent questions regarding the current state of the European world as it has evolved since 1989 He includes contributions from important scholars around the world A New Europe for the Old by Martin Malia The Serbs The Sweet and Rotten Smell of History by Tim Judah Illyrianism and the Croatian Quest for Statehood by Marcus Tanner To Be or Not to Be Balkan Romania's Quest for Self Definition by Tom Gallagher Ukraine From an Imperial Periphery to Sovereign State by Roman Szporluk Ethnic Nationalism in the Russian Federation by Anatoly M Khazanov Im Osten viel Neues Plenty of News from the Eastern Lnder by Barbara Ischinger Discourse and Dis Integration in Europe The Cases of France Germany and Great Britain by Vivien A Schmidt The European Debate on Citizenship by Dominique Schnapper Has the Nation Died The Debate Over Italy's Identity and Future by Dario Biocca and Postwar Europe by Arne Roth A New Europe for the Old provides greater sympathy for the complexity of societies and argues for greater tolerance of those that are small and that do not cast a long shadow in the world of today In the twenty first as in the twentieth century they may be engines of change both as a result of the disorder that they produce as well as the ways in which their values however seemingly antiquated survive and prosper and not only in their native lands This volume will intrigue historians and European studies scholars alike *Unity or Separation* Daniel R. Kempton, Terry D. Clark, 2001-11-30 Many analysts initially believed that the process of Soviet disintegration would inevitably open a Pandora's box of ethnic nationalism and regional self determination But despite obvious setbacks such as Chechnya the developments of the last decade have shown that while forces of disintegration remain a very real threat the fifteen successor states have managed to stay largely intact One explanation for this somewhat unexpected success is the varied strategies of center periphery relations adopted by the post Soviet states tailored to meet the unique of circumstances faced by each former republic of the Soviet Union The contributors to this up to date volume examine the specific cases of success and failure in center periphery relations in the former USSR and offer some provocative overall conclusions about the progress made and the impact on the process of democratization The cases examined in this volume are drawn from Russia Lithuania Ukraine Uzbekistan among others These case studies demonstrate that realtions between national and local governments have been evolving differently in each of the successor states in the but in each case there has been a conscious attempt to create stable center periphery relations which give a degree of autonomy to minority groups while still providing for a stable state and democratic development This book will be of interest to scholars and students of the former Soviet Union and those interested in federalization and center periphery *Soviet Politics* Richard Sakwa, 2012-11-12 Soviet Politics in Perspective is a new edition of Richard Sakwa's successful textbook Soviet Politics an introduction Thoroughly revised and updated it builds on the previous editions comprehensive and accessible exploration of the Soviet system from its rise in 1919 to its collapse in 1991 The book is divided into five parts which focus on key aspects of Soviet politics They are historical perspectives beginning with the Tsarist regime on the eve of Revolution the rise and development of Stalinism

through to the decline of the regime under Brezhnev and his successors and Gorbachev's attempts to revive the system institutions of Government such as the Communist Party security apparatus the military the justice system local government and participation theoretical approaches to Soviet politics including class and gender politics the role of ideology and the shift from dissent to pluralism key policy areas the command economy and reform nationality politics and foreign and defence policy an evaluation of Soviet rule and reasons for its collapse Providing key texts and bibliographies this book offers the complete history and politics of the Soviet period in a single volume It will be indispensable to students of Soviet and post Soviet politics as well as the interested general reader Nation-Building and Minority Politics in Post-Socialist States

David Galbreath, 2005-03-05 Despite socialism's best efforts ethnic identity remained a salient feature in Central and Eastern Europe Not only did ethno nationalism help to bring about the fall of the socialist regimes in this region but it also characterized much of the post socialist politics Nation Building and Minority Politics examines the issue of minority politics in post socialist states within this dual structure In particular it offers an in depth analysis of post restoration politics in Estonia and Latvia covering four issues First it looks at the historical context of the current group relations Second the study explores the domestic nature of minority politics in Estonia and Latvia by looking at domestic politics and policies Third it examines the role of the Russian Federation as an external national homeland through illustrating developments within Russian foreign policy Finally the book analyses the role of three significant European organizations namely the OSCE EU and the Council of Europe as agents of conditionality Overall this study combines old and new theoretical approaches to nation building and minority politics to exhibit the changing nature of the relationship between majority minority external national homeland and international organizations in today's Europe *Federalism, Democratization, and the Rule of Law in Russia* Jeffrey Kahn, 2002-06-13 Combining the approaches of three fields of scholarship political science law and Russian area studies the author explores the foundations and future of the Russian Federation Russia's political elite have struggled to build an extraordinarily complex federal system one that incorporates eighty nine different units and scores of different ethnic groups which sometimes harbor long histories of resentment against Russian imperial and Soviet legacies This book examines the public debates official documents and political deals that built Russia's federal house on very unsteady foundations often out of the ideological conceptual and physical rubble of the ancien régime One of the major goals of this book is where appropriate to bring together the insights of comparative law and comparative politics in the study of the development of Russia's attempts to create as its constitution states in the very first article a Democratic federal rule of law state *Perestroika and the Party* Francesco Di Palma, 2019-08-01 Countless studies have assessed the dramatic reforms of Mikhail Gorbachev but their analysis of the impact on European communism has focused overwhelmingly on the Soviet Union and Eastern bloc nations This ambitious collection takes a much broader view reconstructing and evaluating the historical trajectories of glasnost and perestroika on both sides of the Iron Curtain Moving beyond domestic politics and foreign

relations narrowly defined the research gathered here constitutes a transnational survey of these reforms collective impact showing how they were variably received and implemented and how they shaped the prospects for proletarian internationalism in diverse political contexts World Directory of Minorities Bridget Anderson, James Chin, John Connell, Patrick Costello, Lindsey Crickmay, Chris Dammers, James Ferguson, David Hawk, David McDowall, Anna Matveeva, Julia Maxted, Neil Melvin, Peter O'Neill, Suzanne Pattle, Martyn Rady, Javaid Rehman, Alex Roslin, Nikhil Roy, David Sogge, Bogdan Szajkowski, Carl Wilson, Abebe Zegeye, 1997-01-01 This publication is the first version of the World Directory of Minorities and Indigenous Peoples published in 1997 The full Directory is now available and continually updated on our website The large majority of violent conflicts in the world today are conflicts within states with groups polarized across ethnic and religious divides and not across borders Ethnic religious and linguistic minorities are often among the poorest of the poor suffer discrimination and are frequently the victims of human rights abuses Time and time again in the past the United Nations system governments and even non governmental organizations NGOs working in the field of conflict prevention have failed to promote the human rights of minorities or to take early action to promote cooperation between communities Early action may have prevented the loss of millions of lives in many countries ranging from Rwanda to the former Yugoslavia and from Sri Lanka to Guatemala It is also significant that the Nobel Peace Prize was awarded to the Dalai Lama in 1989 and to Jose Ramos Horta and Bishop Carlos Belo in 1996 as a result of their peaceful campaigns to promote the rights of their people The situation of minorities is then a matter of major concern and it is essential that accurate objective and up to date information is made available This Directory contributes to that process It is difficult to assess accurately what proportion of the world s population identify themselves as belonging to minority communities Conservative estimates place this above 10 per cent and some suggest that more than 20 per cent of the world s population belongs to several thousand different minority groups and subgroups National statistics are often skewed for political reasons and there is no universally accepted definition of minorities The word has different interpretations in different societies throughout the world while the United Nations General Assembly has not sought to reach a definition beyond that implied in the title of the UN Declaration on the Rights of Persons belonging to National or Ethnic Religious and Linguistic Minorities adopted in December 1992 Minority Rights Group focuses its work on non dominant ethnic religious and linguistic communities whether or not they are numerical minorities The concept thus relates to any self identified community that is marginalized without power unable to take decisions over its destiny and often experiencing high levels of illiteracy under education and overt or covert discrimination The basic rights of such communities need protection and promotion There is however a danger of generalizing about minorities and forgetting the complexity of their social composition including the rural poor urban migrants older people women and children These groups may be considered as doubly vulnerable What makes their situation particularly problematic is that there is often a deliberate political policy on the part of majorities and states not to give due

regard to the legitimate interests of minorities while members of minorities see their identity as central to their social and economic situation They are often excluded from political power and decision making in the development process without equal opportunities to secure a better quality of life One further danger may lie in regarding ethnicities as fixed rather than as the potentially fluid phenomena that they often are Situational ethnicity does occur and individuals and groups do modify their self identifications depending on circumstances Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

The Baltic States Thomas Lane, Artis Pabriks, Aldis Purs, David J. Smith, 2013-11-05 Since the end of the Cold War there has been an increased interest in the Baltics The Baltic States brings together three titles Estonia Latvia and Lithuania to provide a comprehensive and analytical guide integrating history political science economic development and contemporary events into one account Since gaining their independence each country has developed at its own pace with its own agenda and facing its own obstacles The authors examine the tensions accompanying a post communist return to Europe after the long years of separation and how each country has responded to the demands of becoming a modern European state Estonia was the first of the former Soviet republics to enter membership negotiations with the European Union in 1988 and is a potential candidate for the next round of EU expansion in 2004 Lithuania and Latvia have also expressed their desire for future membership of NATO and the EU
