Blase,1991-05-29 *The Instrumental University* Ethan Schrum,2019-06-15 In *The Instrumental University* Ethan Schrum provides an illuminating genealogy of the educational environment in which administrators professors and students live and work today After World War II research universities in the United States underwent a profound mission change The Instrumental University combines intellectual institutional and political history to reinterpret postwar American life through the changes in higher education Acknowledging but rejecting the prevailing conception of the Cold War university largely dedicated to supporting national security Schrum provides a more complete and contextualized account of the American research university between 1945 and 1970 Uncovering a pervasive instrumental understanding of higher education during that era The Instrumental University shows that universities framed their mission around solving social problems and promoting economic development as central institutions in what would soon be called the knowledge economy In so doing these institutions took on more capitalistic and managerial tendencies and as a result marginalized founding ideals such as pursuit of knowledge in academic disciplines and freedom of individual investigators The technocratic turn eroded some practices that made the American university special Yet as Schrum suggests the instrumental university was not yet the neoliberal university of the 1970s and onwards in which market considerations trumped all others University of California president Clark Kerr and other innovators in higher education were driven by a progressive impulse that drew on an earlier tradition grounded in a concern for the common good and social welfare **Innovations for Community Services** Michal Hodoň,Gerald Eichler,Christian Erfurth,Günter Fahrnberger,2018-06-05 This book constitutes the refereed proceedings of the 18th International Conference on Innovations for Community Services I4CS 2018 held in ilina Slovakia in June 2018 The 14 revised full papers and the three revised short papers presented in this volume were carefully reviewed and selected from 38 submissions The papers are organized in topical sections on architectures and management data analytics and models community and public collaboration innovations and digital transformation **BIFAD Briefs** United States. Institution Building in Weak States Andrew Radin,2020-07-01 The effort to improve state institutions in post conflict societies is a complicated business Even when foreign intervention is carried out with the best of intentions and the greatest resources it often fails What can account for this failure In *Institution Building in Weak States* Andrew Radin argues that the international community s approach to building state institutions needs its own reform This innovative book proposes a new strategy rooted in a rigorous analysis of recent missions In contrast to the common strategy of foreign interveners imposing models drawn from Western countries Radin shows how pursuing incremental change that accommodates local political interests is more likely to produce effective accountable and law abiding institutions Drawing on extensive field research and original interviews Radin examines efforts to reform the central government military and police in post conflict Bosnia and Herzegovina Kosovo Iraq and Timor Leste Based on his own experience in defense reform in Ukraine after 2014 Radin also draws parallels with efforts to improve state institutions outside of post conflict societies *Institution Building in Weak States* introduces a domestic opposition theory that better explains why institution building fails and what is required to make it work With actionable recommendations for smarter policy the book offers an important corrective for scholars and practitioners of post conflict missions international development peacebuilding and security cooperation *Smithsonian Institution* Mark L. Goldstein,2010-06 The Smithsonian Institution is the world s largest museum complex Its funding comes from its own private trust fund assets and federal appropriations The Smithsonian Board of Regents the Smithsonian s governing body is responsible for the long term stewardship of the Smithsonian In recent years there have been significant governance and accountability breakdowns at the Smithsonian which could ultimately put funding and the organization s credibility at risk In 2007 the Board of Regents Governance Comm released a report recommending 42 governance reforms This report provides an update on the status of the Smithsonian s implementation of governance reforms recommended by
