Comparative Politics

Judith Bara, Mark Pennington, 2009-03-19 Bara and Pennington's edited volume successfully fills a huge void in the market for introductory textbooks to comparative politics which previously offered either descriptions of political processes and systems or overviews of the methodology of comparative analysis By applying major political science theories to overviews of the core elements of political systems the authors both enhance our understanding of these elements and provide readers an excellent introduction to comparative explanation Dr David Howarth University of Edinburgh What is distinctive about this authoritative and comprehensive book on comparative politics is the way in which it is underpinned throughout by a theoretical analysis centred on a new institutionalist approach Professor Wyn Grant University of Warwick Comparative Politics takes a fresh and original approach to the field it examines the role of structures rules and norms in regulating the individual and collective behaviour of political actors Each chapter provides a critical bibliography and key questions which will be particularly useful for students approaching Comparative Politics for the first time Altogether this is a comprehensive and useful read which I warmly recommend Ian Budge Professor Emeritus Professor of Government University of Essex This is a most useful book Teachers of comparative politics often scramble around with out of date textbooks and photocopies of more or less compatible articles Here is a new book that gives an up to date comprehensive and systematic introduction to the major strands of institutional thought and applies these to the major institutions processes and policy areas It will be a great help for many of us academics and students alike Peter Kurrild Klitgaard Professor of Comparative Politics University of Copenhagen This book provides a distinctive new introduction to the study of comparative politics at undergraduate level Rich in case study material and global in coverage Comparative Politics sets out the basic theoretical and methodological foundations for studying different political systems as well as the key structures and actors of which they are comprised Part One explores the nature of comparative methodology and introduces students to the major theoretical paradigms that seek to explain the operation of institutions in democratic states and facilitate comparison across

different political systems Part Two examines the institutional structures of the modern state outlining the key features such as the electoral systems and territorial and functional divisions of government across a range of modern states Part Three analyzes the role of key actors such as voters and parties interest groups and social movements the bureaucracy and the judiciary This book will be an essential primer for students on first year courses in comparative government and politics as well as introductory courses in political science concepts and methods Judith Bara is Senior Lecturer in Politics at Queen Mary University of London and Research Fellow in Government University of Essex David S Bell is Professor of French Government and Politics and Head of Social Studies and Law at the University of Leeds Jocelyn Evans is Reader in Politics at the European Studies Research Institute University of Salford Catherine Needham is Lecturer in Politics at Queen Mary University of London Brendan O Duffy is Senior Lecturer in Politics at Queen Mary University of London Mark Pennington is Senior Lecturer in Politics at Queen Mary University of London David Robertson is Professor of Politics University of Oxford and Vice Principal St Hugh s College Oxford

The SAGE Handbook of Human Rights Anja Mihr, Mark Gibney, 2014-07-21 The SAGE Handbook of Human Rights will comprise a two volume set consisting of more than 50 original chapters that clarify and analyze human rights issues of both contemporary and future importance The Handbook will take an interdisciplinary approach combining work in such traditional fields as law political science and philosophy with such non traditional subjects as climate change demography economics geography urban studies mass communication and business and marketing In addition one of the aspects of mainstreaming is the manner in which human rights has come to play a prominent role in popular culture and there will be a section on human rights in art film music and literature Not only will the Handbook provide a state of the art analysis of the discipline that addresses the history and development of human rights standards and its movements mechanisms and institutions but it will seek to go beyond this and produce a book that will help lead to prospective thinking

Methods and Approaches in Comparative Political Analysis Pushpa Singh, Chetna Sharma, 2024-12-18 This book focuses on the methods and approaches in comparative politics while tracing the evolution of the discipline Exploring its historical legacy through a comparative perspective it uses research methods and methodologies to critically analyse the approaches discussed in the book This unique volume provides an exclusive reading on the dimension of gender in comparative politics It also investigates the foundational approaches and insights from the perspective of postcolonial societies and diverse regions of the world Lucidly written to serve a diversity of readership this book is an invaluable resource for students researchers and teachers from the departments of political science public administration history and journalism Owing to its detailed diverse and rich discussions on the different aspects of these themes it will be equally useful to researchers in the field of gender studies and comparative politics

The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies Martin Thomas, Gareth Curless, 2023-10-10 The lethality of conflicts between insurgent groups and counter insurgent security forces has risen markedly since the Second World War just as

those of conventional or inter state wars have declined For several decades conflicts within states rather than between them have been the prevalent form of organised political violence worldwide Recent conflicts in Afghanistan Iraq and Syria have fired interest in colonial experiences of rebellion while current western interventions in sub Saharan Africa have prompted accusations of militarist humanitarianism Yet despite mounting interest in counter insurgency and empire comparative investigation of colonial responses to insurrection and civil disorder is sparse Some scholars have written of a golden age of counter insurgency which began with Britain s declaration of a Malayan Emergency in 1948 and ended with the withdrawal of US ground troops from Vietnam in 1973 It is with this period if not with any presumed golden age that this volume is concerned This Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires It attempts a systematic study of the global effects of organized anti colonial violence in Asia and Africa The objective is to reconceptualize late colonial violence in the European overseas empires by exploring its distinctive character and the globalizing processes underpinning it
