it with humor and learning new things Well that s the main goal of this book Laughing giggling or just smiling at these jokes and puns Most kids don t understand these kinds of jokes and they can even tell you there are not funny at all Try a pun on a toddler and you re likely to draw a blankstare It s totally normal Don t forget that kids are intelligent even if they don t understand jokes the firsttime the idea is to take time to explain what the joke is about and what makes it funny children learn by copying adults so they will only be as funny as their parents are The main element needed to develop a sense of humor in children is socialization they must understand that they are sharing an experience with you by laughing and having reactions together before they can begin to establish their own sense of humor This book is a great way to connect sharing jokes is proven to make kids smarter healthier and better able to cope with challenges Learning Combining humor with learning definitely creates a positive learning environment and increases attention and interest In this book humor is relevant to the lessons your kid will be able to learn about Fruits and vegetables by coloring them and reading their corresponding joke your kid will learn new things and become curious to taste them How to differentiate between a vegetable and a fruit Introduce your kid to colors and hues with good practice on real things we use in daily life Color by numbers exercises encourage creativity and focus it will give your kid achance to solve a mystery by matching the number on the color key Coloring by numbers The act of coloring can help to improve motor skills in young children by controlling the pencil and trying to stay in the lines Color Awareness Recognition and Discernment Your kids will be able to recognize the names and hues of colors see color palettes on the back of the cover Before begin coloring your kid has to swatch coloring pencils on page 6 Therapy and Stress Relief Coloring is also calming and therapeutic for kids they can benefit from processing their feelings frustrations and emotions through the simple but profound act of coloring
