State Department of Education,1921 *El-Hi Textbooks & Serials in Print, 2000 ,2000 Representing Children in Chinese and U.S. Children's Literature* Claudia Nelson,Rebecca Morris,2016-04-08 Bringing together children s literature scholars from China and the United States this collection provides an introduction to the scope and goals of a field characterized by active but also distinctive scholarship in two countries with very different rhetorical traditions The volume s five sections highlight the differences between and overlapping concerns of Chinese and American scholars as they examine children s literature with respect to cultural metaphors and motifs historical movements authorship didacticism important themes and the current status of and future directions for literature and criticism Wide ranging and admirably ambitious in its encouragement of communication between scholars from two major nations Representing Children in Chinese and U S Children s Literature serves as a model for examining how and why children s literature more than many literary forms circulates internationally *Representing Place in British Literature and Culture, 1660-1830* Evan Gottlieb,2016-04-08 Revising traditional rise of the nation state narratives this collection explores the development of and interactions among various forms of local national and transnational identities and affiliations during the long eighteenth century By treating place as historically contingent and socially constructed this volume examines how Britons experienced and related to a landscape altered by agricultural and industrial modernization political and religious reform migration and the building of nascent overseas empires In mapping the literary and cultural geographies of the long eighteenth century the volume poses three challenges to common critical assumptions about the relationships among genre place and periodization First it questions the novel s exclusive hold on the imagining of national communities by examining how poetry drama travel writing and various forms of prose fiction each negotiated the relationships between the local national and global in distinct ways Second it demonstrates how viewing the literature and culture of the long eighteenth century through a broadly conceived lens of place brings to the foreground authors typically considered minor when seen through more traditional aesthetic cultural or theoretical optics Finally it contextualizes Romanticism s long standing associations with the local and the particular suggesting that literary localism did not originate in the Romantic era but instead emerged from previous literary and cultural explorations of space and place Taken together the essays work to displace the nation state as a central category of literary and cultural analysis in eighteenth century studies *The Representation Gap* Brian Towers,1997 This comparative study shows how since the early 1980s British and American employees have experienced a critical weakening of their defenses against the growing managerial prerogative and have borne a greater part of the business and organizational risk The author explains the growth in this representation gap primarily through the withdrawal of public

policy support for collective bargaining He argues that this development has serious implications for economic efficiency and competitiveness but above all for the health of the democratic process

Representation and Democratic Theory David Laycock, 2011-11-01 With public confidence in representative institutions dropping to distressing levels it is time for political theorists to reconnect issues of representation to considerations of justice rights citizenship pluralism and community Representation and Democratic Theory investigates theoretical and practical aspects of innovative political representation in the early twenty first century It reveals the complexity of contemporary political representation and the importance of reinvigorating public life outside legislatures political parties and competitive elections A crucial supplement to empirical studies of conventional political representation this book offers a timely and thought provoking contribution to contemporary democratic theory It will be a necessary and welcome addition to the libraries of many political and social scientists

The Elements in the Medieval World, 2024-08-19 The thirteen essays and the final poem contained in this volume reflect the fundamental importance of water across the whole breadth of medieval endeavour and understanding as both source of life and object of scholarly fascination whose manifestations were the source of rich symbolism and imaginings Ranging geographically from Ireland to the Arab world and from Iceland to Byzantium and chronologically from the fourth century CE to the sixteenth the essays explore perceptions and theories of water through a wide range of approaches Contributors are Michael Bintley Tom Birkett Laura Borghetti Rafa Borys awski Marilina Cesario Marusca Francini Kelly Grovier Deborah Hayden Simon Karstens Andreas Lammer David Livingstone Luca Loschiavo Hugh Magennis Colin Fitzpatrick Murtha Francois Quiviger Elisa Ramazzina and Karl Whittington

Greeks and Barbarians Kostas Vlassopoulos, 2013-08-01 This book is an ambitious synthesis of the social economic political and cultural interactions between Greeks and non Greeks in the Mediterranean world during the Archaic Classical and Hellenistic periods Instead of traditional and static distinctions between Greeks and Others Professor Vlassopoulos explores the diversity of interactions between Greeks and non Greeks in four parallel but interconnected worlds the world of networks the world of apoikiai colonies the Panhellenic world and the world of empires These diverse interactions set into motion processes of globalisation but the emergence of a shared material and cultural koine across the Mediterranean was accompanied by the diverse ways in which Greek and non Greek cultures adopted and adapted elements of this global koine The book explores the paradoxical role of Greek culture in the processes of ancient globalisation as well as the peculiar way in which Greek culture was shaped by its interaction with non Greek cultures
