Fundamentals of Dialectics Юрий Андреевич Харин,1981 *Fundamentals of Dialectics* Yu A. Kharin,1981

Fundamentals of Dialectical Materialism G. A. Kursanov,1967 **Fundamentals of Argumentation Theory** Frans H. van Eemeren,Rob Grootendorst,Ralph H. Johnson,Christian Plantin,Charles A. Willard,2013-11-05 Argumentation theory is a distinctly multidisciplinary field of inquiry It draws its data assumptions and methods from disciplines as disparate as formal logic and discourse analysis linguistics and forensic science philosophy and psychology political science and education sociology and law and rhetoric and artificial intelligence This presents the growing group of interested scholars and students with a problem of access since it is even for those active in the field not common to have acquired a familiarity with relevant aspects of each discipline that enters into this multidisciplinary matrix This book offers its readers a unique comprehensive survey of the various theoretical contributions which have been made to the study of argumentation It discusses the historical works that provide the background to the field and all major approaches and trends in contemporary research Argument has been the subject of systematic inquiry for twenty five hundred years It has been graced with theories such as formal logic or the legal theory of evidence that have acquired a more or less settled provenance with regard to specific issues But there has been nothing to date that qualifies as a unified general theory of argumentation in all its richness and complexity This being so the argumentation theorist must have access to materials and methods that lie beyond his or her home subject It is precisely on this account that this volume is offered to all the constituent research communities and their students Apart from the historical sections each chapter provides an economical introduction to the problems and methods that characterize a given part of the contemporary research program Because the chapters are self contained they can be consulted in the order of a reader s interests or research requirements But there is value in reading the work in its entirety Jointly authored by the very people whose research has done much to define the current state of argumentation theory and to point the way toward more general and unified future treatments this book is an impressively authoritative contribution to the field *Fundamentals of Dialectics* Jurij A. Charin,1981 **Fundamentals of Historical Materialism** Doug

Lorimer,1999 **The Palgrave Handbook of Leninist Political Philosophy** Tom Rockmore,Norman Levine,2018-12-19 This intellectually discomfiting disturbingly provocative yet still thoroughly scholarly Handbook reproduces the intellectual ferment that accompanied the Russian Revolution including the wholly polarising effect at that time of Vladimir Ilyich Lenin The Palgrave Handbook of Leninist Political Philosophy does not settle for one safe interpretation of the thought of this world historic figure but rather revels in a clash of viewpoints Most interestingly it presents a contrast between the Western editors who emphasise pure democracy and Marxian humanism with many of the contributing scholars who take a more sanguine view of the Leninist political project Perhaps reflecting the current Western political crisis some of the volume s other European and North American scholars more closely align with their colleagues from the Global South Key Features Places

particular emphasis on the key elements of Lenin's thought the dictatorship of the proletariat which is trenchantly defended the nature of the dialectic and the New Economic Policy Additional comprehensive coverage includes the theory of the party Bolshevism imperialism and the class struggle in the countryside Examines the relation of Lenin's thought to the ideas of his most influential contemporaries including Luxemburg Stalin and Trotsky as well as the most eminent thinker to interpret Lenin since his death Gyrgy Lukacs This Handbook is essential reading for scholars researchers and advanced students in political philosophy political theory the history of political ideas economics international relations and world history It is also ideal for the general reader who wishes to understand some of the most powerful ideas that have shaped the modern world and that may yet shake the world again The Principles of Religion by Rabban Daniel Ibn al-Hattāb: A 13th-Century Synopsis of Syriac Orthodox Belief Simon Burke, 2024-06-17

The Fundamentals of Marxist-Leninist Philosophy Fedor Vasil'evich Konstantinov, 1982 Dialectics Nicholas Rescher, 2013-05-02 Few ideas have played a more continuously prominent role throughout the history of philosophy than that of dialectic which has figured on the philosophical agenda from the time of the Presocratics The present book explores

Fundamentals of Philosophy Aleksandr Georgievich Spirkin, 1990 *The Fundamentals for a Marxist Orientation* Amadeo Bordiga, 2020-11-30 Amadeo Bordiga 1889 1970 was the founder of the Communist Party of Italy and was one of the leading voices against the Stalinist hegemony of the 20th century left Bordiga saw the Soviet Union as state capitalist and sought to rebuild a true Leninism as the basis for a revolutionary party The Fundamentals for a Marxist Orientation and Other Writings on Marxist Theory are the essential pieces of Bordiga's writing that demonstrate his strain of Marxism This collection includes 1 The Fundamentals for a Marxist Orientation 2 Characteristic Theses of the Party 3 The Fundamentals for a Revolutionary Communism 4 The Original Content of the Communist Program

Digital Capitalism Martin Papapol, 2005 The windy rhetoric of politics Bullshit considerably endangers the western democracies This claptrap occurs because most politicians don't have an idea about the question What kind of capitalism we are living in today With the description of the structural change since the 1990s including the undetected structural features and functions of digital capitalism this book gives an answer to the question The New Left has to carry out a metamorphosis and not an abolishment of current capitalism Contrary to a red regression of the old left the New Left has the chance to successfully conduct the struggle and conversion of the destructive neo liberal tendencies in our time This also requires to argue about the dominance of the one sided intellectual economic and political science intellectualism In this sense this book is to be considered as a contribution to the manifesto of the New Left

The New Dialectic Douglas N. Walton, 1998-01-01 Because developments in informal logic have been based for the most part on idealized and abstract models the tools available for argument analysis are not easily adapted to the needs of everyday argumentation In this book Douglas Walton proposes a new and practical approach to argument analysis based on his theory that different standards for argument must apply in the case of different types of dialogue By refining and extending the existing formal classifications of dialogue Walton shows that each dialogue type be it inquiry negotiation or critical discussion has its own set of goals He goes on to demonstrate that an argument can best be evaluated in terms of its contribution positive or negative to the goals of the particular dialogue it is meant to further In this way he illustrates how argument can be brought into the service of many types of dialogue and thus has valuable uses that go well beyond the mere settling of disputes and differences By reaching back to the Aristotelian roots of logic as an applied practical discipline and by formulating a new framework of rationality for evaluating arguments Douglas Walton restores a much needed balance to argument analysis This book complements and extends his *Argument Structure A Pragmatic Theory* University of Toronto Press 1996
