Impulsive Client:

The Impulsive Client William George McCown, Judith Johnson, 1993 The primary purpose of this edited volume is to present various theories regarding the etiology and clinical implications of impulsive behaviors Although this is not a comprehensive anthology we hope to depict enough diverse theories within one volume to enable readers from dissimilar theoretical perspectives to obtain otherwise inaccessible information We believe a cross fertilization of disparate facets of psychology to be critical in maintaining the vibrancy of our discipline through our next centennial We hope that this volume can provide at least a small dose of cross specialization exposure for a variety of psychologists and other mental health professionals
