The Future of Long-Term Care Robert H. Binstock, Leighton E. Cluff, Otto Von Mering (Ph. D), 1996 Binstock Ethical Issues in Long Term Care Nancy Neveloff Dubler American Culture and Long Term Care Otto von Mering Forecasting the Future of Long Term Care Dennis L Kodner *Long-term Care* John R. Pratt, 2004 Now in its second edition Long Term Care Managing Across the Continuum has been thoroughly revised and updated to provide you with a solid foundation on which to build your management expertise The text provides a comprehensive overview of the current state of long term care the changes that are taking place and of the skills managers need to be successful Handbook of Long-Term Care Administration and Policy Cynthia Massie Mara, Laura Olson, 2008-03-27 Attitudes toward long term care contain a strong residue of negativity in today's society and current problems with the system augment such perceptions Unless dealt with now this will only get worse as the 85 and older crowd is the fastest growing part of the population and the first wave of Baby Boomers is approaching 60 Exploring and delineating **Long-Term Care: Managing Across the Continuum** John Pratt, 2009-07-02 This book is intended as both a college text and a reference source for professionals policy makers and regulators The text provides a sound reference source for anyone wishing to gain a better understanding of the long term care system It is concise but complete defining the various segments of the system It also describes how the system developed to its current state compares it to an ideal system and projects future trends likely to impact the system The earlier editions have been used by multiple colleges and universities for their long term care administration courses It has also been adopted as a cited reference for the national licensing examination prepared by the National Association of Long Term Care Administrator Boards NAB which is used by all fifty state licensing boards and the District of Columbia and for the Certification examination of the American College of Health Care Administrators ACHCA It covers the full continuum of long term care in enough detail to develop a sound understanding of the system yet does not get bogged down in overly specific detail as some texts do Features 1 Explains how the long term care system developed and compares it to an ideal system 2 Describes the primary types of long term care providers nursing facilities assisted living subacute care senior housing community based care presenting each in a similar manner making it easy to compare and contrast them 3 Covers how the providers interact with each other and with consumers and regulators focusing specifically on how they compete cooperate and integrate how they are regulated financing quality ethical issues 4 Discusses how long term care providers are governed and managed with chapters also devoted to leadership and culture change technology and marketing 5 Outlines future trends and their projected impact on long term care and discusses how managers should act for success in the future Students will find 1 Case studies with each of the provider chapters showing how they serve specific consumers 2 Discussion questions and vocab terms at the end of each chapter 3 Online supplemental materials with both chapter based interactive flash cards and an overall Glossary on line **The Young, the Old, and the State** Anneli Anttonen, John Baldock, Jorma Sipilä, 2003-01-01

This book edited by three well known and widely respected academics reflects the diversity of social care while simultaneously striving to identify common patterns trends and underpinning philosophies It makes an important new contribution to understanding why patterns of social care differ between and within countries and the consequences of these variations In explaining contemporary patterns of social care for children and older people in the countries studied the contributors turn to historical accounts to explain the current apparent lack of coherence Underpinning the diverse patterns of social care development are the transformation of social care from a private good to a public commodity tensions between universality and selectivity and new tensions between individual rights and family responses As well as providing detailed and up to the minute accounts of the different care systems in the countries studied this book makes a major new contribution to our understanding of the complex and conflicting pressures underlying post industrial welfare states Caroline Glendinning University of Manchester UK This is a comparative account of social care services for children and older people in five key industrial nations Finland Germany Japan the United Kingdom and the United States The authors break new ground by moving beyond institutional description and seeking to understand the normative and moral qualities of welfare systems The book builds on existing theories of welfare state regimes by extending the analysis to the arena of social care A full and fascinating account is provided of the historical economic and political origins of childcare and care for older people in each of the five countries These analyses are then used as the basis for a theoretical account of the developmental trajectories of social care systems The book proposes that there are common pressures at work in all industrial nations driving their welfare systems to similar forms of organisation and structure However these trends are mediated by important differences in culture and history The Young the Old and the State is an eminently readable and accessible book and will be warmly welcomed by academics and researchers in social and public policy health and social care and welfare economics It will also be of interest to policymakers and NGOs involved in welfare and social care provision and provide a useful source for students on undergraduate and graduate programmes OECD Health Policy Studies A Good Life in Old Age?

The Lost Art of Caring Leighton E. Cluff, Robert H. Binstock, 2003-05-01 In *The Lost Art of Caring* Leighton E Cluff M D and Robert H Binstock Ph D bring together experts to address the importance of caring the reasons why it has eroded and measures that can strengthen caring as provided by health professionals families communities and society

Families and Work Karen I. Fredriksen-Goldsen, Andrew E. Scharlach, 2001 This book is intended for use in upper level undergraduate and graduate courses in social work with the family social work with the elderly and social work with children *Long-term Care, Globalization, and Justice* Lisa A. Eckenwiler, 2012-06-04 Long term care can be vexing on a personal as well as social level and it will only grow more so as individuals continue to live longer and the population of aged persons increases in the United States and around the world This volume explores the ethical issues surrounding elder care from an ecological perspective to propose a new theory of global justice for long term care Care work is organized not just nationally as much current debate suggests but also transnationally through economic labor immigration and health policies established by governments international lending bodies and for profit entities Taking an epistemological approach termed ecological knowing Lisa A Eckenwiler examines this organizational structure to show how it creates and sustains injustice against the dependent elderly and those who care for them including a growing number of migrant care workers and how it weakens the capacities of so called source countries and their health care systems By focusing on the fact that a range of policies people and places are interrelated and mutually dependent Eckenwiler is able not only to provide a holistic understanding of the way long term care works to generate injustice but also to find ethical and practicable policy solutions for caring for aging populations in the United States and in less well off parts of the world Deeply considered and empirically informed this examination of the troubles in transnational long term care is the first to probe the issue from a perspective

that reckons with the interdependence of policies people and places and the first to recommend ways policymakers planners and families can together develop cohesive coherent long term care policies around the ideal of justice *Regulating Long-Term Care Quality* Vincent Mor,Tiziana Leone,Anna Maresso,2014-02-06 An international survey of different approaches to the provision and regulation of long term care for the elderly **Family and Aging Policy** Francis G. Caro,2014-05-01 Learn how public policies can help families provide the care their elderly relatives need Family and Aging Policy examines how public initiatives to assist the elderly in the United States Canada Singapore Denmark and Sweden can impact families who provide them with long term care For the majority of older people the aging experience involves their families directly and indirectly affecting income security housing and health care This unique book addresses the aging issues that matter most to families struggling to deal with the demands of care giving and provides answers on how the public sector can help As the traditional nuclear family becomes a memory and the notion of extended family disappears the need for public interventions to help the elderly increases A significant number of people grow old without families they can depend on Others have families who want to help but lack the financial means or the housing needed to provide care Family and Aging Policy offers options on how families and formal services can share responsibilities including how families can juggle jobs and care giving the effects of the Family and Medical Leave Act consumer directed service options community based care programs accessory dwelling units and zoning ordinances and provisions for caregiver support in each of the 50 United States and the District of Columbia Family and Aging Policy examines extensive welfare programs in Sweden publicly funded home care programs in Denmark family oriented social policies in Singapore shared responsibilities of families and formal services in Canada the Administration on Aging s National Family Caregiver Support program in the United States California Caregiver Resource Centers and much more Family and Aging Policy is an invaluable tool for researchers and policy analysts working in family policy issues and as an essential supplemental text for course work in gerontology sociology family relations and social work **Social Integration in the Second Half of Life** Karl Pillemer,Phyllis Moen,Elaine Wethington,Nina Glasgow,2003-05-01 Social scientists use the term social integration to refer to individuals connections with others in their environments The concept and its consequences have been the subject of considerable study Many researchers have asserted that meaningful and enduring ties to other persons serve as a buffer against stress and thereby promote physical and mental health The results are especially pronounced for older persons Social Integration in the Second Half of Life presents integrative reviews of theory and research on this topic The editors and contributors all currently or previously affiliated with the Cornell Gerontology Research Institute also present new empirical findings of research done at their center The first section of the book discusses basic theory and principles of social integration in later life and its implications for health The second largest section examines specific issues retirement driving family support housing neighbors The third section addresses interventions to promote social integration transportation volunteering and peer

support for dementia caregivers Throughout the authors focus on the diverging influences of social integration and its converse social isolation in later life

Caregiving Contexts Maximiliane E. Szinovacz,Adam Davey,2007-08-13 This volume represents a major step forward in the literature by placing its focus squarely on the caregiving context its dimensions and how it shapes the process and outcomes of family care The chapters locate care within the family rather than a single individual The family in turn is embedded within a larger cultural community and social context These explorations of context will give us a broader view of how caregiving occurs It will help us improve our theories about care and about the family's role in contemporary society Care of our elders is an enduring and yet evolving part of life The focus on context will help us understand support and learn from the ways that families meet the challenges involved from the foreword by Steve H Zarit PhD Professor and Head Department of Human Development and Family Studies Pennsylvania State University Here in Caregiving Contexts the editors and their chapter authors explore the ways in which demographic change will influence the availability of caregivers and how divergent welfare and ideological systems will affect care among family members and between family and formal care systems They also discuss the differences in experience between spousal and adult child caregivers special circumstances such as child or adolescent caregivers and government and workplace policies that are available to support caregivers in the United States and in some European countries No other volume is available on caregiving which explores the sociocultural familial and sociopolitical contexts that effect both care decisions and outcomes
