**Improving Agricultural Structure in Asia and the Pacific** ,1990      **Toward Improved Multilevel Planning for Agricultural and Rural Development in Asia and the Pacific** ,1985-01-01      *Systems approaches for agricultural development* Frits Penning de Vries,Paul Teng,Klaas Metselaar,2012-12-06 The symposium In the next decades agriculture will have to cope with an ever increasing demand for food and raw basic materials on the one hand and with the necessity to use resources without further degrading or exhausting the environment on the other hand and all this within a dynamic framework of social and economic conditions Intensification sustainability optimizing scarce resources and climate change are among the key issues Organized thinking about future farming requires forecasting of consequences of alternative ways to farm and to develop agriculture The complexity of the problems calls for a systematic approach in which many disciplines are integrated Systems thinking and systems simulation are therefore indispensable tools for such endeavours About 150 scientists and senior research leaders participated in the symposium Systems Approaches for Agricultural Development SAAD at the Asian Institute of Technology AIT Bangkok Thailand in December 1991 The symposium had the following objectives to review the status of systems research and modeling in agriculture with special reference to evaluating their efficacy and efficiency in achieving research goals and to their application in developing countries to promote international cooperation in modeling and increase awareness of systems research and simulation The symposium consisted of plenary sessions with reviews of major areas in systems approaches in agriculture plus presentations in two concurrent sessions on technical topics of systems research Subjects of studies were from tropical and temperate countries      **Improving Quality of Life in Rural Areas in Asia and the Pacific** ,1991      *Bibliography of Agriculture* ,1991-04      *Small Farmer Development in Asia and the Pacific* N. S. Randhawa,K. V. Sundaram,1990-01-01      *Abstracts on Rural Development in the Tropics* ,1991      **The Water, Energy, and Food Security Nexus in Asia and the Pacific** Zafar Adeel,Benno Böer,2024-08-03 This open access book considers that the Central and South Asian region sits at the middle of geographical geopolitical economic and historical cross roads Since the independence of the Central Asian states in the 1990s following the demise of the Soviet Union and emergence of regional trade and political ties means that the region s evolution has also been subject to common drivers external and internal opening up some new opportunities The long term social and economic success of the region depends on how water energy and food security is achieved at a regional scale that combines Central Asia and South Asia which are typically treated separately in policy and scholarly works This book considers how securing the Nexus of water energy and food resources serves as a starting point for utilizing emerging region wide opportunities It does so by identifying the present state of play deeply analyzing cross cutting drivers e g climate change poverty environmentalcrises and urbanization and offering insights into possible solutions The book offers an in depth rationale for why dealing with this region as a whole makes sense it is then divided into four sections The first section entitled A Regional

Overview establishes the basic facts around the state of water energy and food resources this section is meant to serve as the foundation upon which further exploration and analysis is built The second section turns its attention to Regional Issues and unpacks the Nexus into water energy and water food relationships It also investigates how regional trade and coping mechanisms for environmental crises might inform the policies on the Nexus The section includes a sampling of success and failure stories around implementation of the Nexus policies and strategies in the Central and South Asian region The third section undertakes an analysis of the Cross Cutting Themes for Nexus Security by investigating all the major drivers of policy and development strategies in the region climate change urbanization poverty sharing of resources across borders and gender based disparities The fourth and final section uses the discussion throughout the book to formulate An Integrated Narrative around the Nexus It explores how the new global development framework in the form of Sustainable Development Goals might offer a new perspective for achieving the Nexus security in the region There is an argument that the Nexus security ties in with achievement of long term peace and security A final wrap up chapter gazes into the crystal ball to test out some future scenarios both positive and negative
