Improving Literacy In The Primary School:

Improving Literacy in the Primary School R. P. Chamberlin, G. S. Haynes, E. C. Wragg, Prof E C Wragg, 2005-07-28

One of the most important challenges teachers face is making sure children can read. It is an absolutely crucial skill and current educational policy is giving it a very high priority. Based on one of the largest studies ever undertaken of what primary schools do to improve literacy, this book reports what Professor Ted Wragg and his research team found. The importance placed on literacy has never been greater. When children learn to read, they are laying the foundations for their entire educational future. Effective teachers can make a huge difference as a poor start can hinder children throughout their schooling and beyond. By looking at what actually goes on in classrooms, this volume provides an invaluable insight into what happens to children and how their reading progresses. It shows how particular teachers manage the improvement of their pupils' reading levels and also follows individual pupils through a school year. This is a very readable account of a fascinating and crucial area of research that is highly topical. Every class teacher should read it. *Improving Literacy in the Primary School*, 1998

Literacy Achievement Carolyn E. Haley, 2007 Billions of dollars are spent searching for programs and strategic plans that will prove to be the panacea for improving literacy achievement. With all of the experimental and researched programs implemented in school districts, the overall results are still at a minimum and many improvement gains have been short term. *Improving Literacy Achievement* focuses on literacy achievement through a Continuous Progress conceptual approach. This book features detailed steps for developing and implementing a literacy program for primary students in grades K-3 and includes chapters on looping or continuous progress at higher levels, grades 4-5. Carolyn E. Haley shows how looping at these levels proves to be an effective practice in increasing student achievement in all subject areas as evidenced in her research and extensive work. *Improving Literacy Achievement in a Disadvantaged Primary School* Eithne Kennedy, 2008
