**Sitting with the Within Masters** Kris A. Kramer, 2019-12-31 No one said spiritual studies and awakening and personal evolution couldn't be enjoyable or fun Becoming better acquainted with the Beings who are here to teach guide and serve one will allow one to truly know they have never not even once been alone Masters within are purely waiting to be asked and accessed This book does not explain how to receive messages from Masters or inner resources instead it constructs and structures experiences by which the phenomenon occurs Instead of stark information this book works its magic by experiential activity the effective ingredient for long lasting and impactful changes Enjoy the succinct yet powerful narratives concepts to comprehend and collect metaphors to imagine what if scenarios to try on and mental processes to walk one's Self through Engage your heart and gut by calling up emotions stepping into states of being being suddenly attentive to what's happening internally tuning into your physical body searching for answers to open ended questions recalling past experiences and resolving recurring memories

*Beyond Transcendence in Law and Philosophy* Louis E. Wolcher, 2023-03-31 What is the law of the law What produces our craven subservience to linguistic norms and our shocking indifference to the phenomenon of universal suffering In a path breaking new work of philosophy Louis Wolcher seeks to answer these questions from the standpoint of Zen Buddhism Bringing an Eastern sensibility into contact with three of the most important themes in Western philosophy Beyond Transcendence in Law and Philosophy meticulously investigates three of the twentieth century's most important philosophers Martin Heidegger on being Emmanuel Levinas on ethics and Ludwig Wittgenstein on language In the context of the larger Western obsession with transcending the ordinary Louis Wolcher argues that the yearning for transcendence is born of the illusion that there is a fundamental difference between the ordinary and the profound Employing Zen koans and stories to advance a deflationary view of language and knowledge he goes on to argue that the norms of transcendence to which we cling are not eternal truths but artefacts of desperate minds adrift on a sea of impermanence What used to seem so majestically True Right and Just thus shows itself to be utterly mundane as merely true right and just What is left however is not nihilism for clinging to a view of nothingness is just as deluded as clinging to a view of somethingness but rather a new beginning of compassionate concern for the suffering of others Beyond Transcendence in Law and Philosophy is a strikingly original synthesis of Eastern and Western thought It will enlighten philosophers and legal theorists as well as those who are interested in or open to the insights of Zen Buddhism
