Kitchenspace Maria Elisa Christie, 2009-08-17 Throughout the world the kitchen is the heart of family and community life Yet while everyone has a

story to tell about their grandmother's kitchen the myriad activities that go on in this usually female world are often devalued and little scholarly attention has been paid to this crucial space in which family gender and community relations are forged and maintained To give the kitchen the prominence and respect it merits Maria Elisa Christie here offers a pioneering ethnography of kitchenspace in three central Mexican communities Xochimilco Ocotepc and Tetecala Christie coined the term kitchenspace to encompass both the inside kitchen area in which everyday meals for the family are made and the larger outside cooking area in which elaborate meals for community fiestas are prepared by many women working together She explores how both kinds of meal preparation create bonds among family and community members In particular she shows how women's work in preparing food for fiestas gives women status in their communities and creates social networks of reciprocal obligation In a culture rigidly stratified by gender Christie concludes kitchenspace gives women a source of power and a place in which to transmit the traditions and beliefs of older generations through quasi sacramental food rites

Adoring the Saints Yolanda Lastra, Joel Sherzer, Dina Sherzer, 2010-01-01 Mexico is famous for spectacular fiestas that embody its heart and soul An expression of the cult of the saint patron saint fiestas are the centerpiece of Mexican popular religion and of great importance to the lives and cultures of people and communities These fiestas have their own language objects belief systems and practices They link Mexico's past and present its indigenous and European populations and its local and global relations This work provides a comprehensive study of two intimately linked patron saint fiestas in the state of Guanajuato near San Miguel de Allende the fiesta of the village of Cruz del Palmar and that of the town of San Luis de la Paz These two fiestas are related to one another in very special ways involving both religious practices and their respective pre Hispanic origins A mixture of secular and sacred patron saint fiestas are multi day affairs that include many events ritual specialists and performers with the participation of the entire community Fiestas take place in order to honor the saints and they are the occasion for religious ceremonies processions musical performances dances and dance dramas They feature spectacular costumes enormous puppets masked and cross dressed individuals dazzling fireworks rodeos food stands competitions and public dances By encompassing all of these events and performances this work displays the essence of Mexico a lens through which this country's complex history religion ethnic mix traditions and magic can be viewed Yaqui Homeland and Homeplace Kirstin C. Erickson, 2016-10-15 In this illuminating book anthropologist Kirstin Erickson explains how members of the Yaqui tribe an indigenous group in northern Mexico construct negotiate and continually reimagine their ethnic identity She examines two interconnected dimensions of the Yaqui ethnic imagination the simultaneous processes of place making and identification and the inseparability of ethnicity from female identified spaces roles and practices Yaquis live in a portion of their ancestral homeland in Sonora about 250 miles south of the Arizona border A long history of displacement and ethnic struggle continues to shape the Yaqui sense of self as Erickson discovered during the sixteen months that she lived in Potam one of the eight historic Yaqui pueblos She found that themes of identity frequently arise in

the stories that Yaquis tell and that geography and location space and place figure prominently in their narratives Revisiting Edward Spicer's groundbreaking anthropological study of the Yaquis of Potam pueblo undertaken more than sixty years ago Erickson pays particular attention to the cultural work performed by Yaqui women today She shows that by reaffirming their gendered identities and creating and occupying female gendered spaces such as kitchens household altars and domestic ceremonial spaces women constitute Yaqui ethnicity in ways that are as significant as actions taken by males in tribal leadership and public ceremony This absorbing study contributes new empirical knowledge about a Native American community as it adds to the growing anthropology of space place and gender By inviting readers into the homes and patios where Yaqui women discuss their lives it offers a highly personalized account of how they construct and reconstruct their identity
