First Jacqueline R. Robertson, 2012-03 This inspiring book is not just another how to book that you will find in the psychology finance business or self help aisles of your local book store nor will it be placed solely on the philosophy or spiritual shelves However the compelling messages in this fascinating book can easily be found in any of these venues The universal messages throughout this groundbreaking book are centered on the mysterious theory of the 80/20 law which approximately 80 percent or more of today's population isn't familiar with In today's society there is an esoteric 20 percent group of successful dreamers and thinkers who understand the workings of this positive spiritual law and use it to manage their personal problems achieving their dreams and goals by using only their own resources You can now step away from the trivial many and become a part of the vital few who have it all You will find the answers you seek in *Dream It First The 80/20 Law to Manifestation of Dreams and Goals* So dreamers let's get started About the Author Jacqueline R Robertson is a motivational and business speaker who writes from Highland California She is an entrepreneur licensed real estate broker paralegal and has worked in the field of occupational therapy for over 25 years Her published author's blog on the affect of the 80/20 law in our lives attracts readers daily from around the world Publisher's website www.SBPRA.com/JacquelineRRobertson **The**

Mammoth Book of Time Travel SF Mike Ashley, 2013-07-04 This thought provoking collection not only takes us into the past and the future but also explores what might happen if we attempt to manipulate time to our own advantage These stories show what happen once you start to meddle with time and the paradoxes that might arise It also raises questions about whether we understand time and how we perceive it Once we move outside the present day can we ever return or do we move into an alternate world What happens if our meddling with Nature leads to time flowing backwards or slowing down or stopping all together Or if we get trapped in a constant loop from which we can never escape Is the past and future immutable or will we ever be able to escape the inevitable These are just some of the questions that are raised in these challenging exciting and sometimes amusing stories by Kage Baker Simon Clark Fritz Leiber Christopher Priest Kristine Kathryn Rusch Robert Silverberg Michael Swanwick John Varley and many others **Sidewise in Time** Murray
