Academic writing in ESL composition classes - Academic discourse community

Achim Zeidler, 2009-03-13 Seminar paper from the year 2005 in the subject English Language and Literature Studies Other grade 1 West Virginia University language English abstract This paper discusses the concept of Academic Writing and the role of the importance in the ESL classroom The different perspectives that have to be considered while teaching writing for an Academic purpose and some teaching approaches will be mentioned and evaluated Thereby the focus will be on the different opinions and methods as well as constraints and problems that scholars investigated about the notion of Academic Writing There are a lot of discussions and some research has recently tried to define how the particular and varied academic discourse communities have to be considered in the curriculum of ESL learners but still there is a lot of uncertainty of how effective classroom teaching in composition or content classes lead to a the demanded knowledge transformation that the ESL students need in order to fit successfully into a special academic field and write with respect to the expectations of that special audience This paper tries to mention the most important articles and findings in order to understand the notion of Academic writing and examines some of the constraints students as well as teachers have to deal with and summarizes also some opportunities of making students aware of specific styles formats and conventions that are needed in their particular discourse communities and that can and should be involved in ESL composition and content classes with English for an academic purpose to achieve a desired participation in the higher educational level through fulfillment of the writing standards of educational and academical conventions and values of a particular discourse community A working definition of Godev explains the notion of Academic writing The term academic writing seems to escape any definition that may try to encompass every writing task likely to be encountered in any of the academic disciplines Godev 2000 636 The reason for this is that the style of a given academic product is defined by conventions that are ultimately discipline specific as Spack pointed out Spack 1988 32 Nevertheless there are four different perspectives that have to be considered to get a wider understanding of the term academic writing The notions of a audience b task c communicative functions and d style are very crucial in order to conceive a working definition of academic writing The four different perspectives have different views of and about academic writing Gajdusek van Dommelen 1993 202 as well as Silva 1991 stated that from the perspective of the audience academic writing is a kind of writing accepted by the faculty of a particular discourse community when discussing a topic in a published material or when the members of the special discourse community address themselves to others of the same one orally Silva explained the notion of audience a little bit more explicit His definition of audience says that academic writing is prose that will be acceptable at an American academic institution Success in Academic Writing Trevor Day, 2023-06-29 Writing essays reports presentations papers or dissertations makes up a substantial element of most undergraduate and taught postgraduate degree courses Anything that makes the process easier and more effective can make a big difference to your success as a student Taking the reader through the writing process from understanding the task through researching reading and planning to drafting and composing reviewing and finalising their copy the book contains

many self study exercises that will help to develop confidence technique and clarity of purpose as a writer whether a first year social science student or a final year scientist or engineer The book adopts an empowering approach encouraging the student to find out what they need to know in order to be a successful writer in their discipline Much more than a set of hints and tips this book provides an all encompassing approach to becoming a confident academic writer New for this edition a new section on managing your physical and mental state advice on a wider range of assignment types including recorded presentations such as vlogs and blogs introduction to a wider range of strategies that students can employ while composing their work including material to help students maintain their focus and concentration
