Transactional Perspectives on Occupation Malcolm P. Cutchin, Virginia A. Dickie, 2012-07-26 An occupation is most simply put any activity we participate in that engages occupies our attention interests and or expectations at any point throughout the life course. This book offers an emerging and innovative perspective on occupation based in the work of American philosopher John Dewey and other pragmatists that challenges accepted ideas. Each chapter presents a lively and multifaceted dialogue on transactional perspectives on occupation. Scholars from Europe North America and Australasia have written a diverse set of arguments and case studies about occupation covering theoretical methodological and applied issues relevant to the topic. In addition contributors make connections with significant authors from various disciplines that make clearer the roles of occupation and occupational science across many cultures and contexts. The transactional perspectives articulated in this book both implicitly and explicitly suggest that occupations are forms of activity that create and re create a multitude of our relationships with the world. Often taken for granted by some academic disciplines occupation is a core element of human life. This book is a provocative and critical analysis of the focal concept for occupational therapy and science.

Dewey, Education, and the Mediterranean, 2022-10-24 There are few if any other educational philosophers that have left their mark internationally as John Dewey has. Author of 40 books and no less than 700 articles that appeared in over 140 journals Dewey's work has been translated into at least 35 languages. His landmark *Democracy and Education* published over a century ago in 1916 is one of the most cited educational texts ever. Dewey has inspired educators and provoked controversies in his day and still does so today. This volume sets out to engage with Dewey's educational thought especially as it relates to its circulation in the countries bordering on the Mediterranean. Authors consider his enduring influence and reflect on the push and pull forces that served to anchor progressivism in its multiple manifestations in the region. The notion of a unidirectional force personified by Dewey that is somehow absorbed by the receiving country is problematised by most if not all chapters in this volume. Rather contributors carefully show how
