Case studies of the superintendency Paula M. Short, Jay Paredes

Scribner, 2002-09-06. Preparing school administrators for the challenges they will face requires materials well informed about the nuts and bolts of education in real life. Only a richly detailed case study book like Short and Scribner's will provide them with the opportunity to analyze current issues. Each narrative chapter concludes with application questions and a list of references. The authors, some of the most respected American scholars on the superintendency, have compiled cases grounded in research and reality. They explore topics such as the politics of education, the debate over merit pay, women in the superintendency, and the role of the superintendent as an instructor.

K-12 Case Studies for School Administrators Marcia

Norton, Paula E. Lester, 2017-09-29. Case studies enable aspiring administrators to refine their reaction skills as well as their critical thinking skills by responding to a multitude of problems in a short time. Originally published in 1998, the case studies in this book provide a broad-based overview of the kinds of real problems that schools were facing at the time. The problems administrators face on a daily basis vary in scope and complexity. Short cases provide opportunities to address, analyze, and resolve problems encountered in the real working environment. Students must actively engage in a process of inquiry and problem solving. This book can be used over several years according to the case studies selected for class use. This is a multicourse, multiyear action case study text.

The Ethical Dimensions of School Leadership P.T. Begley,Olof Johansson,2006-04-11 Among the many significant features of this volume is the dedication to the late Don Willower Professor of Education at Pennsylvania State University It is significant in light of Willower s long record of major contributions to the empirical literature in Educational Administration and his mentorship of many students steeped in the tradition of the so called science of administration These include scholars like Wayne Hoy and Peter Cistone who readily acknowledge their personal and intellectual debt to Willower How is it then that Willower a colleague of the giants of Educational Administration in the 60s and 70s people such as Dan Griffiths Jack Culbertson and Roald Campbell to name just a few came to associate himself with this relatively upstart group of academics and practitioners interested in values of all things As an inheritor of the mantle thrown down by Getzels and Guba all those years ago it might seem strange to see Willower consorting with people who argue about the distinction between fact and value It is true of course that Willower majored in philosophy at the State University of New York at Buffalo as an undergraduate So the language and the ways of thinking among many of those interested in values and ethics were not all that foreign to him He could certainly hold his own in debate with his friend Chris Hodgkinson the foremost philosopher of Educational Administration in the field today and a contributor to this volume
