Islands of Truth Daniel Clayton, 2011-11-01 In *Islands of Truth* Daniel Clayton examines a series of encounters with the Native peoples and territory of Vancouver Island in the late eighteenth and early nineteenth centuries Although he focuses on a particular region and period Clayton also meditates on how representations of land and people and studies of the past serve and shape specific interests and how the dawn of Native Western contact in this part of the world might be studied 200 years later in the light of ongoing struggles between Natives and non Natives over land and cultural status Between the 1770s and 1850s the Native people of Vancouver Island were engaged by three sets of forces that were of general importance in the history of Western overseas expansion the West's scientific exploration of the world in the Age of Enlightenment capitalist practices of exchange and the geopolitics of nation state rivalry *Islands of Truth* discusses these developments the geographies they worked through and the stories about land identity and empire stemming from this period that have shaped understanding of British Columbia's past and present Clayton questions premises underlying much of present B C historical writing arguing that international literature offers more fruitful ways of framing local historical experiences *Islands of Truth* is a timely provocative and vital contribution to post colonial studies

Romantic Localities Christoph Bode, Jacqueline Labbe, 2015-10-06 *Romantic Localities* explores the ways in which Romantic period writers of varying nationalities responded to languages landscapes both geographical and

metaphorical and literatures **Longitude and Empire** Brian W. Richardson, 2010-10-01 Before Captain Cook's three voyages to Europeans the globe was uncertain and dangerous after it was comprehensible and ordered. Written as a conceptual field guide to the voyages, *Longitude and Empire* offers a significant rereading of both the expeditions and modern political philosophy. More than any other work, printed accounts of the voyages marked the shift from early modern to modern ways of looking at the world. The globe was no longer divided between Europeans and savages but populated instead by an almost overwhelming variety of national identities. Cook's voyages took the fragmented and obscure global descriptions available at the time and consolidated them into a single comprehensive textual vision. Locations became fixed on the map and the people, animals, plants, and artifacts associated with them were identified, collected, understood, and assimilated into a world order. This fascinating account offers a new understanding of Captain Cook's voyages and how they affected the European world view.

Georg Forster Todd Kontje, 2022-06-29 Georg Forster 1754-1794 was famous during his lifetime, notorious after his death, and largely forgotten by the later nineteenth century. Remembered today as the young man who sailed around the world with Captain Cook and as one of the leading figures in the revolutionary Republic of Mainz, Forster was also a prolific writer and translator who left behind two travelogues, a series of essays on diverse topics, and numerous letters. This in-depth look at Forster's work and life reveals his importance for other writers of the age. Todd Kontje traces the major intellectual themes and challenges found in Forster's writings, interweaving close textual analysis with his rich but short life. Each chapter engages with themes that reflect the current debates in eighteenth-century literary and cultural studies, including changing notions of authorship, multilingualism, the representation of so-called primitive societies, Enlightenment ideas about race, and early forms of ecological thinking. As Kontje shows, Forster's peripatetic life, malleable sense of national identity, and fluency in multiple languages contrast with the image of the solitary genius in the age of Goethe. In this way, Forster provides a different model of authorship and citizenship, better understood in the context of an increasingly globalized world. Compellingly argued and engagingly written, this book restores Forster to his rightful place within the German literary tradition and, in so doing, it urges us to reconsider the age of Goethe as multilingual and malleable, local and cosmopolitan, dynamic and decentered. It will be welcomed by specialists in German studies and the Enlightenment.

Footnotes to World History Harold S. Sharp, 1979 Bibliographies accompany narrative descriptions of more than three hundred significant events in world history, from the inundation of Atlantis in the tenth millennium B.C. to the Arab oil embargo in 1973.

Strangers in the South Seas Richard Lansdown, 2006-04-30 Long before Magellan entered the Pacific in 1521, Westerners entertained ideas of undiscovered oceans, mighty continents, and paradisaical islands at the far ends of the earth. First set down by Egyptian

storytellers Greek philosophers and Latin poets such ideas would have a long life and a deep impact in both the Pacific and the West With the discovery of Tahiti in 1767 another powerful myth was added to this collection the noble savage For the first time Westerners were confronted by a people who seemed happier than themselves This revolution in the human sciences was accompanied by one in the natural sciences as the region revealed gaps and anomalies in the great chain of being that Charles Darwin would begin to address after his momentous visit to the Galapagos Islands The Pacific produced similar challenges for nineteenth century researchers on race and culture and for those intent on exporting their religions to this immense quarter of the globe Although most missionary efforts ultimately met with success others ended in ignominious retreat As the century wore on the region presented opportunities and dilemmas for the imperial powers leading to a guilty desire on the part of some to pull out along with an equally guilty desire on the part of others to stay and help This process was accelerated by the Pacific War between 1941 and 1945 After more than two millennia of fantasies the story of the West's fascination with the insular Pacific graduated to a marked sense of disillusion that is equally visible in the paintings of Gauguin and the journalism of the nuclear Pacific Strangers in the South Seas recounts and illustrates this story using a wealth of primary texts It includes generous excerpts from the work of explorers soldiers naturalists anthropologists artists and writers some famous some obscure It begins in 1521 with an account of Guam by Antonio Pigafetta one of the few men to survive Magellan's circumnavigation voyage and ends in the late 1980s with the writing of an American woman Joana McIntyre Varawa as she faces the personal and cultural insecurities of marriage and settlement in Fiji It shows how the Great South Sea has been an irreplaceable distant mirror of the West and its intellectual obsessions since the Renaissance Comprehensively illustrated and annotated this anthology will introduce readers to a region central to the development of modern Western ideas This is a carefully conceived anthology covering an excellent range of subjects The selections are well chosen and interesting and the introductory materials are both scholarly and accessible It should be widely used in university courses dealing with almost any aspect of the Pacific Rod Edmond University of Kent at Canterbury

British Travel Writers in Europe 1750-1800 Katherine Turner, 2017-11-01 This title was first published in 2001 Hundreds of European travelogues produced by British travellers between 1750 and 1800 remain out of sight in most libraries and have generally been out of print since the 18th century While many people with a working knowledge of the 18th century are familiar with works including Sterne's *A Sentimental Journey* and Smollett's *Travels through France and Italy* those produced by less literary travellers are largely unknown This study aims to recreate the world of 18th century travel writing in order to illuminate its central role in shaping Britain's emerging sense of national identity an identity which proves to be more complex and less homogeneous than some cultural and historical studies would suggest The author finds that the developing discourse of national character is bound up with questions of gender national and authorial virtue are projected in terms of appropriately gendered behaviour for male and female travel writers alike In turn gender intersects with class most

obviously in the tendency to denigrate aristocratic travellers as effeminate and celebrate the more manly activities of the middle class traveller These then national identity authorship and gender are the central preoccupations of the study

Understanding China Peter Nolan, 2015-10-23 If the West wishes to understand China better it needs to appreciate the depth of thought and range of debate that is taking place within the Chinese political system China is entering a new and complicated phase in its development From a minnow in the 1970s it has become a mighty player on the global stage It is likely that its role in the global economy and international relations will continue to expand Today despite its vast size China is still a developing country The country's leaders in the Communist Party of China face innumerable policy challenges Two key issues facing the Party are its role in the Asia Pacific region and the ideological legacy from Karl Marx The CPC is engaged in deep research debate and reflection on both of these questions This study provides a unique in depth insight into these critically important issues for the evolution of China's political economy

Inventing Australia Richard White, 2020-07-28 White sets himself a most ambitious task and he goes remarkably far to achieving his goals Very few books tell so much about Australia with elegance and concision as does his Professor Michael Roe Stimulating and informative an antidote to the cultural cringe Canberra Times To be Australian what can that mean Inventing Australia sets out to find the answers by tracing the images we have used to describe our land and our people the convict hell the workingman's paradise the Bush legend the typical Australian from the shearer to the Bondi lifesaver the land of opportunity the small rich industrial country the multicultural society The book argues that these images rather than describing an especially Australian reality grow out of assumptions about nature race class democracy sex and empire and are invented to serve the interests of particular groups There have been many books about Australia's national identity this is the first to place the discussion within an historical context to explain how Australians' views of themselves change and why these views change in the way they do

South Sea Maidens Michael Sturma, 2002-03-30 From the first European contact with Tahiti in 1767 the myth of the South Sea maiden has endured through many incarnations Although the maiden frequently provided an idealized antidote to Western women's self assertion the South Pacific also afforded a space where boundaries between the sexes could be relaxed and transgressed From James Cook and Captain Bligh to James Michener and Margaret Mead the Island girl has occupied a special place in the erotic imagination of the West In a sweeping study that embraces history literature visual arts anthropology and film this study gives fresh insight into the myths and reality of a Western icon While women from far off lands have always been presented as exotic and alluring the South Sea maiden has come to symbolize feminine sexuality as an integral part of the adventure sensuality and romance of the South Pacific Everyone from early explorers to 19th century writers and artists to latter day anthropologists film makers and tourism promoters have extolled their virtues and their bodies Sturma looks behind the popular cliché to reveal how the myth making process reflected not only Western desires but the cut and thrust of changing sexual politics The result is an intriguing look at both South Sea image makers and

the women whom they found so seductive **Pacific Performances** C. Balme, 2006-11-14 This new study explores the history of cross cultural performative encounters in the Pacific from the Eighteenth century to the present It examines Western theatrical representations of Pacific cultures and investigates how Pacific Islanders used their own cultural performances to negotiate the colonial situation The Ecologist, 2001 **Antarctica and the Law of the Sea** Christopher C. Joyner, 2021-09-27 Antarctica and the Southern Ocean cover one tenth of the earth's surface In a legal and environmental sense Antarctica represents the geography of hope It is the freshest and most pristine of regions governed by a legal regime that offers Antarctica and its circumpolar water the unique possibility of becoming the world's first global wilderness preserve But in today's age of resource scarcity Antarctica still provokes much political economic and legal debate Over the past decade international attention has increasingly focused on the legal status of the continent the potential for hydrocarbon exploitation offshore and opportunities for harvesting circumpolar living marine resources In this fascinating treatment Christopher C Joyner undertakes the first serious examination of the intimate relationship between Antarctica and the law of the sea Using Antarctica as a case study Joyner probes large conceptual issues of ocean law and politics He uses the intricate details of oceanography and law to unravel the dynamics of the Antarctic Treaty System In doing so he examines how the changing importance of Antarctic issues has affected the development of the law of the sea for the region the ways in which states define their national interests and the accommodation through various negotiations that have contributed to the development of law for governing the Southern Ocean While the study of law for the Antarctic is provocative in itself this work goes much farther The study critically analyzes the region's biogeography the condition of sovereignty on the continent the lawfulness of asserting jurisdictional zones offshore and various legal implications for Antarctica's continental shelf local island groups circumpolar deep seabed and the Southern Ocean's high seas Moreover the special legal efforts by the international community to protect the Antarctic seas from marine pollution and to conserve its living marine resources are comprehensively appraised Thorough authoritative and objectively reasoned Antarctica and the Law of the Sea provides an insightful assessment of how law can progressively develop for a resource rich region of the world's ocean As such it should appeal to a broad range of international lawyers and social scientists who are interested in international relations political economy environmental politics and the law of the sea **Time: A Bibliographic Guide** Samuel L. Macey, 2018-10-10 Originally published in 1991 A multidisciplinary guide in the form of a bibliography of selected time related books and articles divided into 25 existing academic disciplines and about 100 subdisciplines which have a wide application to time studies **Facing the Pacific** Jeffrey A. Geiger, 2007-04-30 The enduring popularity of Polynesia in western literature art and film attests to the pleasures that Pacific islands have over the centuries afforded the consuming gaze of the west connoting solitude release from cares and more recently self renewal away from urbanized modern life Facing the Pacific is the first study to offer a detailed look at the United States intense engagement with the myth of the South Seas just after the

First World War when at home a popular vogue for all things Polynesian seemed to echo the expansion of U S imperialist activities abroad Jeffrey Geiger looks at a variety of texts that helped to invent a vision of Polynesia for U S audiences focusing on a group of writers and filmmakers whose mutual fascination with the South Pacific drew them together and would eventually drive some of them apart Key figures discussed in this volume are Frederick O Brien author of the bestseller *White Shadows in the South Seas* filmmaker Robert Flaherty and his wife Frances Hubbard Flaherty who collaborated on *Moana* director W S Van Dyke who worked with Robert Flaherty on MGM s adaptation of *White Shadows* and Expressionist director F W Murnau whose last film *Tabu* was co directed with Flaherty
