Judo & Life Brian N. Watson,2019-01-22 The three body mind relationship goals that Jigoro Kano advised his judo students to aspire to namely to perfect themselves physically intellectually and morally are all aimed at the same objective self improvement The first goal is perhaps the easiest and the one that many judokas achieve by gaining a dan grade after a few years training and perhaps by winning a few medals along the way The next two goals are psychological in nature and usually take longer to attain The intellectual goal is focused on educating oneself for what one wishes to become in life whether it be an engineer a teacher an accountant or whatever one s desire These goals however often require much book learning Because time and tide wait for no man one must read read and read some more in order to expand one s vocabulary and acquire the necessary knowledge The third goal is mainly focused on the moral lessons that one should have learnt after completion of the previous two These teachings should prove useful in helping one to succeed in one s endeavors and enable one to impart proper moral guidance to others especially the young when teaching judo
