Fear And Envy:

Fear and Envy Rita Ransohoff, Rita M. Ransohoff, 2001 This book is an exploration of man's fear and deeply repressed envy of woman's power and sexuality. By examining the subordination of women in the United States and three developing areas, conflicting attitudes of purity and pollution are evident. The struggle to be a man and the favoritism of boys are taken into account. The triumphs and surrenders of gender battles around the world are given a new insightful look. A thoughtful and provocative book that questions many assumptions. Fear and Envy is a deeply scholarly and insightful book. Dr. Ransohoff has marshaled an immense amount of data in support of her arguments and she demonstrates with compelling persuasiveness just how envious, resentful, and fearful men are of women's ability to create life of her body and of her sexuality. The fact that this is researched and confirmed across cultures is a vastly important psychological finding. We are not just dealing with anomalous cases. Female procreative dynamism has an ineluctable and unavoidable psychological impact on the human male. Men may differ significantly, but whether we are talking about patients, politicians, or executives, whether dealing with religions, cultures, and popular fantasies, Dr. Ransohoff demonstrates how entrenched and disturbing is this masculine problematic. No longer can machismo, patriarchalism, and Don Juanism be seen as signs of strength or confidence. They reveal our weakness, envy, and fear of the feminine, our needs to disparage what terrifies us, to rationalize and disguise our jealousy and anxiety. Dr. Ransohoff is no male basher, nor is her tendentious ideological or hostile. She has shed light on a ubiquitous and cross-cultural human problem.

Mind Transformation Erkin Dzhamanbaev, 2020-04-06 The book contains a variety of worldviews on the possibility of consciousness transformation and changes in the individual's future events. Modern psychophysiology practices of ancient civilizations: the tools of big sport and other practices are aimed for developing of brain capabilities and abilities to control it. The book is an applied guide and a brief theoretical analysis of different practices. It is recommended to anyone who is interested in issues of self-development, achievement of their dreams, self-realization for those who are experiencing difficulties in life, need specific and applied techniques to break the deadlock.

A Tear Is an Intellectual Thing Jerome Neu, 2000-02-10 Is jealousy eliminable? If so, at what cost? What are the connections between pride, the sin, and the pride insisted on by identity politics? How can one question an individual's understanding of their own happiness or override a society's account of its own rituals? What makes a sexual desire perverse or particular sexual relations such as incestuous ones undesirable or even unthinkable? These and other questions about what sustains and threatens our identity are pursued using the resources of philosophy, psychoanalysis, and other disciplines. The discussion throughout is informed and motivated by the Spinozist hope that understanding our lives can help change them, can help make us more free.

The Philosophy of Envy Sara Protasi, 2021-07-15 Envy is almost universally condemned and feared. But is its bad reputation always warranted? In this book, Sara Protasi argues that envy is more multifaceted than it seems and that some varieties of it can be productive and even virtuous. Protasi brings together empirical evidence and philosophical

research to generate a novel view according to which there are four kinds of envy emulative inert aggressive and spiteful For each kind she individuates different situational antecedents phenomenological expressions motivational tendencies and behavioral outputs She then develops the normative implications of this taxonomy from a moral and prudential perspective in the domain of personal loving relationships and in the political sphere A historical appendix completes the book Through a careful and comprehensive investigation of envy s complexity and its multifarious implications for human relations and human value The Philosophy of Envy surprisingly reveals that envy plays a crucial role in safeguarding our happiness

The Soul Display'd Theodosia Whitfeild,1727 *Explaining Emotions* Amélie Rorty,1980-05-09 The challenge of explaining the emotions has engaged the attention of the best minds in philosophy and science throughout history Part of the fascination has been that the emotions resist classification As adequate account therefore requires receptivity to knowledge from a variety of sources The philosopher must inform himself of the relevant empirical investigation to arrive at a definition and the scientist cannot afford to be naive about the assumptions built into his conceptual apparatus The contributors to this volume have approached the problem of characterizing and classifying emotions from the perspectives of neurophysiology psychology and social psychology as well as that of philosophical psychology They discuss the difficulties that arise in classifying the emotions assessing their appropriateness and rationality and determining their function in motivating moral action

Bernard Carl Rosen, Estudio que aborda el tema de como la industrializacion en los paises en desarrollo afecta al ambito de la familia La industrializacion refuerza el grupo de parientes en una sociedad en desarrollo que valora una familia extensa ademas la relacion entre maridos y esposas se vuelve mas comunicativa demostrativa e igualitaria las actitudes del rol sexual liberal aumentan el poder de la esposa dentro de la familia pero disminuye la fertilidad en la ciudad industrial Por otra parte la industrializacion democratiza las relaciones entre padres e hijos y aumenta la motivacion para lograr el exito en los chicos aunque como se lleve este a cabo depende de la cultura y la estructura social de cada uno *Racial Justice, Policies and Courts' Legal Reasoning in Europe* María Elósegui,Cristina Hermida,2017-04-08

This volume looks at how courts and the police handle racial discrimination in Europe The chapters show that beyond legal technique neither the legislators nor the judges escape from their own emotions when responding to racial discrimination But as the authors point out emotions are not always negative They can also help in a positive way in judicial interpretation The study profiles five countries Germany UK Estonia Portugal and Spain Each of these belong both to the European Union and to the Council of Europe Coverage examines the responsibility of the public powers more specifically of the legislative and judicial power both of the police and of the judiciary in persecuting racist behavior In addition the authors also consider the increase in racism in groups of citizens The authors argue that racial justice is a proactive reinforcement of policies practices attitudes and actions that lead to equal access to opportunities for all After reading this book readers will gain a better understanding of the reasoning of legislators police and judges when dealing with racial discrimination in Europe today **The Bricklayer, Mason and Plasterer** ,1915
