Susan V. Poats

Gender Issues In Farming Systems Research And Extension:

Gender Issues In Farming Systems Research And Extension Susan V. Poats, 2019-04-08 This book is the product of an international conference hosted by the Women in Agricultural Development WIAD Program at the University of Florida in 1986 The purpose of WIAD program is to promote an understanding of gender and its relevance for agricultural development processes

Gender Issues in Farming Systems Research and Extension Susan V. Poats, Jean Gearing, Sandra Russo, 1989 Women in Agriculture at the University of Florida, 1986 *Farming Systems Research* Jayne T.

MacLean, 1989 Gender Issues in Agriculture and Natural Resources Management Bruce Horwith, 1989 **Executive**

Summary of Gender Issues in Farming Systems Research and Extension Susan V. Poats, J. Gearing, S. Russo, Bruce Horwith, 1989 **A History of Farming Systems Research** Michael P. Collinson, 2000 This book provides a detailed

history of farming systems research FSR While it includes the application of FSR to developed country agriculture its main focus is on FSR in its original role with small scale resource poor farmers in less developed countries There are some 40 contributions from nearly 50 contributors from 20 countries illustrating both the diversity and yet the coherence of FSR The five parts of the book cover 1 FSR understanding farmers and their farming FSR origins and perspectives understanding farming systems 2 the applications of farming systems research FSR in technology choice and development FSR in extension and policy formulation 3 institutional commitment to FSR FSR some institutional experiences in national agricultural research dimensions of the organization of FSR training for FSR 4 FSR the professional dimension regional and international associations FSR and the professional disciplines and 5 cutting edge methods abiding issues and the future for FSR Quick Bibliography Series, 1976 **Women in Agriculture, January 1979-October 1988** Jerry Rafats, 1989 **Women in**

Agriculture Ranajit Kumar Samanta, 1995 The volume consists of nine chapters covering relevant issues on women in farming and its allied disciplines projecting multifaceted experiences authored by several experts academics and practitioners on the field from the countries like Australia Bangladesh Indonesia Malaysia Netherlands and India *The Women And International Development Annual, Volume 1* Rita S Gallin, Marilyn Aronoff, Anne Ferguson, 2019-06-26 This annual series published in cooperation with the Women and International Development Program at Michigan State University uses a multi disciplinary approach to explore women s experiences across a wide range of geographical areas economic sectors and social institutions The articles presented in each volume synthesize a growing body of literature on key issues suggest priorities for research and propose changes in development policy and programming Each volume is divided into three major sections In the first contributors distill and interpret research in review articles in the second a trend report they provide original analyses of existing data sets and in the final section they analyze a specific research concern from varying perspectives **African Food Systems in Crisis** Rebecca Huss-Ashmore, Solomon H. Katz, 2016-05-13 First Published in

1991 Routledge is an imprint of Taylor Francis an informa company **African Food Systems in Crisis: Contending with**

change Rebecca Huss-Ashmore, Solomon H. Katz, 1989 First Published in 1991 Routledge is an imprint of Taylor Francis an informa company Managing Development Kathleen Staudt, 1991-04-01 The text is illustrated with many development cases hypothetical situations examples and role playing exercises The book is well researched and well written It will be useful to students and teachers of development administration RISA Staudt s very readable text is peppered with numerous illustrative examples from throughout the world including the United States and other developed countries that bring potentially esoteric issues to life Also included are brief case studies role playing exercises and staggered assignments for individual projects that can be used by imaginative instructors to promote hands on involvement An appendix lists other useful sources for case materials and the book contains numerous valuable references to the recent literature on development Gregory D Schmidt Northern Illinois University This book offers interesting features at both the pedagogical and analytical levels The author s interdisciplinary approach as well as her macro and micro perspectives give valuable insight into the highly complex world of the management of development International Review of Administrative Sciences This is a superb text one that will be required reading by all scholars in the field of development It is particularly important for its contribution to recent scholarship and its use of new innovative approaches to development This book is a breath of fresh air in a field full of platitudes and old ideas It will improve both thinking and teaching about development management Jane L Parpart Dalhousie University Nova Scotia Canada Long overdue This text is not only gender sensitive but interdisciplinary theoretically grounded policy relevant and best of all interesting to read Sue Ellen Charlton Colorado State University While theoretically aware and non aligned to any official agency Staudt s approach to development management is essentially practical and pragmatic Her concern for grassroots participation is combined with a full appreciation of the significance of national and international levels of decision making and implementation and of the roles of both governmental and non governmental organizations In a style that is both direct and clear she informs but does not prescribe about the contexts the techniques the institutions and the sectors in which and with which management operates providing in the process a variety of challenging and realistic case studies She also succeeds admirably in integrating gender as a matter of common sense into the mainstream of international development management concerns David Hirschmann The American University Washington D C This text provides a brilliant juxtaposition of interrelated but hitherto isolated fields in the complex and controversial political economy of development The author brings unique timely insights and formats to bear especially from indigenous Third World activists authors and scholars as well as practitioners She bridges the local and global the political and the technical Her book is particularly welcome at the start of the 1990s as a truly radical departure from the diversions and disappointments of orthodox development administration and structural adjustment Hopefully public policy will not be the same once this text is distributed digested and debated Timothy W Shaw Dalhousie University Nova Scotia Canada Staudt presents a multifaceted comprehensive analysis with illustrative examples drawn from a wide range of

countries a worthwhile contribution to recent literature reporting on and assessing the record of governmentally sponsored developmental efforts with a focus on issues of management and administration Woven throughout the text are commendable references to persistent deficiencies such as the dearth of participation by women in development activities and the frequency of a feeling of alienation and distance between institutional staff members and the people they should be serving Another praiseworthy feature is inclusion of many teaching aids such as cases role playing sessions and staggered assignments related to the preparation of individual projects outstanding source for bibliographical information about recent literature on development Public Administration Review A useful book for those involved in development work it moves beyond politics and policy making into organization for action and studies political relationships between people their organizations and the state in development projects Case studies examples and role play exercises are used to build analytic skills Intermediate Technology Bookshop The complexities facing development managers are vast The enormous challenges to understanding the breadth and depth of development transformation are apparent in each level of this process and demand attention Answering the need for a comprehensive introductory resource is Managing Development This fresh perspective on development management analyzes both international and national development agencies and shows the widely differing cultural contexts in which to plan manage and evaluate development programs Stressing political context and process throughout the focus nevertheless in Managing Development is on bureaucratic politics and political relationships between people their organizations and the state in development programs and projects The chapters examine development programs in agriculture and health particularly reproductive health and provide hypothetical situations examples and roleplay exercises A well integrated treatment of development teaching learning and applications this volume shows that much can be learned from the analysis of both successful and unsuccessful development programs Managing Development is the essential resource for courses in development studies political science comparative politics urban studies and policy studies as well as for planners and researchers in development management Farming Systems Research, January 1979 - December 1991 Jane Potter Gates, 1992 **Women in Jamaica**, 1997 The first detailed bibliography of books unpublished reports theses and articles written on women in Jamaica up to 1994 There is no limitation in scope except that newspaper articles are excluded as is material published after 1994 Most of the works identified were written after 1970 as the bulk of the research on women in Jamaica really had its genesis with the declaration of International Women s Year in 1975 Prior to that research seems to have been concentrated on the twin subjects of family and fertility Certain areas are yet to be tapped and recorded but the bibliography by identifying what already exists points to areas where material is lacking Introduction Women in Jamaica is intended for the practitioner the researcher and the tertiary level student and lecturer It cites over 600 works under topical headings such as Arts and Literature Biography Education Economic Conditions and Employment Family and Fertility Health Legal Issues Politics and Social Conditions This volume includes short listings of
