Christopher Kelen,Bjorn Sundmark,2016-11-18 This book explores representations of child autonomy and self governance in children s literature The idea of child rule and child realms is central to children s literature and childhood is frequently represented as a state of being with children seen as aliens in need of passports to Adultland and vice versa In a sense all children s literature depends on the idea that children are different separate and in command of their own imaginative spaces and places Although the idea of child rule is a persistent theme in discussions of children s literature or about children and childhood the metaphor itself has never been properly unpacked with critical reference to examples from those many texts that are contingent on the authority and or power of children Child governance and autonomy can be seen as natural or perverse it can be displayed as a threat or as a promise Accordingly the child rule motif can be seen in Robinsonades and horror films in philosophical treatises and in series fiction The representations of self ruling children are manifold and ambivalent and range from the idyllic to the nightmarish Contributors to this volume visit a range of texts in which children are in various ways empowered discussing whether childhood itself may be thought of as a nationality and what that may imply This collection shows how representations of child governance have been used for different ideological aesthetic and pedagogical reasons and will appeal to scholars of children s literature childhood studies and cultural studies

Globalizing Seoul Jieheerah Yun,2017-02-17 In the decades following the 1997 Asian economic crisis South Korea sought segyehwa globalization Evidence of this is no more evident than in the country s capital Seoul where urban development has been central to making the city a global hub and not just the centre of the national economy However recent development projects differ from those of the past in that they no longer focus solely on economic efficiency but on the deployment of a new urban aesthetics As Jieheerah Yun reveals in Globalizing Seoul The City s Cultural and Urban Change the pursuit of globalization and the rebranding of Seoul s image from hard industrial city to soft cultural city have shaped the urban development of the city Following a brief urban history of Seoul she focuses on two key themes In the first how globalization has contributed to refashioning Korean traditions she analyzes the policies and actions to preserve Korean folk houses and pre industrial street layouts looking in detail at the Bukchon and Insadong areas of the city Her second theme is an examination of migration and the generation of new minority neighbourhoods amidst the segyehwa policies and the state s efforts to build a multicultural society In detailed case studies of the redevelopment of Dongdaemun Market as part of rebranding Seoul as the world design capital and of the Itaewon area as both a Special Tourist Zone and a Global Cultural Zone she shows how multi ethnic neighbourhoods are threatened by lack of consideration for economic justice and housing provision
