Edouard Glissant And Postcolonial Theory Strategies Of Language And Resistance:

Edouard Glissant and Postcolonial Theory Celia Britton, 1999 Edouard Glissant has written extensively in French about the colonial experience in the Caribbean Since he is known primarily as a novelist and poet his theoretical essays have so far remained largely unread by the English language theorists in this field This book situates Glissant within ongoing debates in postcolonial theory making illuminating connections between his work and that of Frantz Fanon Gayatri Spivak Homi Bhabha and Henry Louis Gates Jr Focusing on language and subjectivity Edouard Glissant and Postcolonial Theory moves between an analysis of Glissant's theoretical work and detailed readings of his novels to elucidate a network of related issues Celia Britton addresses the major themes central to his writing the reappropriation of history standard and vernacular language hybridity subalternity the problematizing of identity and the colonial construction of the Other and asks provocative questions relating to each How does the colonized subject relate to a language initially imposed by the colonizer but subsequently to some extent subverted and reappropriated How does this strategic use of language come to function as a crucial mode of cultural resistance What role can fictional representation play in this process This book represents the first presentation of Glissant's incisive theoretical work and analysis of his immensely powerful and subtle novels in the context of postcolonial studies By juxtaposing them Britton illuminates the significant contribution Glissant has made to this theoretical endeavor

Between Languages and Cultures Rosemary Chapman, 2009-04-01 Gabrielle Roy is one of the best known figures of Quebec literature yet she spent much of the first thirty years of her life studying working and living in English For Roy as a member of Manitoba's francophone minority bilingualism was a necessary strategy for survival and success How did this bilingual and bicultural background help shape her work as a writer in French The implications of her linguistic and cultural identity are explored in chapters looking at education language translation and the representation of Canada's other minorities from the immigrants in Western Canada to the Inuit of Ungava What emerges is a new reading of Roy's work Drawing on archival material postcolonial theory and translation studies *Between Languages and Cultures* explores the traces and effects of Roy's intimate knowledge of English language and culture challenging and augmenting the established view that her work is distinctly French Canadian or Québécois

Absolutely Postcolonial Peter Hallward, 2001 This innovative book provides an incisive critique of well established positions in postcolonial theory and a dramatic expansion in the range of interpretative tools available Peter Hallward gives substantial readings of four significant writers whose work invites to varying degrees a singular interpretation of postcolonialism Edouard Glissant Charles Johnson Mohammed Dib and Severo Sarduy Using a singular interpretation of postcolonialism is central to the argument this book makes and to understanding the postcolonial paradigm

Encyclopedia of Postcolonial Studies John Charles Hawley, 2001-09-30 The collapse of empires has resulted in a remarkable flourishing of indigenous cultures in former colonies The end of the colonial era has also witnessed a renaissance of creativity in the postcolonial world as modern writers embrace their heritage The

experience of postcoloniality has also drawn the attention of academics from various disciplines and has given rise to a growing body of scholarship This reference work overviews the present state of postcolonial studies and offers a refreshingly polyphonic treatment of the effects of globalization on literary studies in the 21st century The volume includes more than 150 alphabetically arranged entries on postcolonial studies around the world Entries on individual authors provide brief biographical details but primarily examine the author's handling of postcolonial themes So too entries on theoreticians offer background information and summarize the person's contributions to critical thought Entries on national literatures explore the history of postcoloniality and the ways in which writers have broadly engaged their legacy while those on important topics discuss the theoretical origin and current ramifications of key concepts in postcolonial studies Cross references and cited works for further reading are included while a comprehensive bibliography concludes the volume

Queer Postcolonial Narratives and the Ethics of Witnessing Donna McCormack, 2015-07-30 *Queer Postcolonial Narratives and the Ethics of Witnessing* is a critically engaged exploration of power and its relation to ethics and bodies By revisiting and revising Judith Butler's and Homi Bhabha's queer and postcolonial theories of literary performance McCormack expands current understandings of the performative workings of power through an embodied multisensory ethics That remembering is an embodied act which necessitates an undoing of one's sense of self captures how colonial and familial histories silenced by hegemonic structures may only emerge through opaque bodily sensations These non institutionalised forms of witnessing serve both to reconfigure theories of performativity by re-situating the act of witnessing as integral to the workings of power and to interrogate the current emphasis on speech in trauma studies by analysing the multifarious communal and public ways in which memories emerge In *Queer Postcolonial Narratives and the Ethics of Witnessing* the body is reinstated as central to both the workings of and the challenges to colonial discourses

Understanding Postcolonialism Jane Hiddleston, 2014-12-05 Postcolonialism offers challenging and provocative ways of thinking about colonial and neocolonial power about self and other and about the discourses that perpetuate postcolonial inequality and violence Much of the seminal work in postcolonialism has been shaped by currents in philosophy notably Marxism and ethics *Understanding Postcolonialism* examines the philosophy of postcolonialism in order to reveal the often conflicting systems of thought which underpin it In so doing the book presents a reappraisal of the major postcolonial thinkers of the twentieth century Ranging beyond the narrow selection of theorists to which the field is often restricted the book explores the work of Fanon and Sartre Gandhi Nandy and the Subaltern Studies Group Foucault and Said Derrida and Bhabha Khatibi and Glissant and Spivak Mbembe and Mudimbe A clear and accessible introduction to the subject *Understanding Postcolonialism* reveals how almost half a century after decolonisation the complex relation between politics and ethics continues to shape postcolonial thought

Imagining the Postcolonial Jaime Hanneken, 2015-04-27 A comparative study of Latin American and francophone postcoloniality *Imagining the Postcolonial* is the first book dedicated to comparative analysis of Latin American and

francophone postcolonial identity Jaime Hanneken examines the disciplinary theoretical and political stakes involved in postcolonial identification in non anglophone cultural spheres through readings of Jos Lezama Lima and douard Glissant s poetics of place the symbolic value of Paris in modernista writing and in Congolese Soci t s des Ambianceurs et Personnes l gantes sape rituals and the scandals surrounding Rigoberta Mench and Yambo Ouologuem Hanneken argues that reorienting comparative critique to the priority of the object of study can transform rather than replicate existing conceptual formats of postcoloniality

The Body, Desire and Storytelling in Novels by J. M. Coetzee Olfa Belgacem, 2018-10-26 Asserting that Coetzee s representation of the body as subject to dismemberment counters the colonial representation of the other s body as exotic and erotically charged this study inspects the ambivalence pertaining to Coetzee s embodied representation of the other and reveals the risks that come with such contrapuntal reiteration Through the study of the narrative identity of the colonial other and her his body s representation the book also unveils the author s own authorial identity exposed through the repetitive narrative patterns and characterization choices

Maryse Conde and the Space of Literature Eva Sansavior, 2017-12-02 The Guadeloupean writer and critic Maryse Conde has for the last twenty five years divided her time between her native Guadeloupe and the United States If the author s work has attracted much critical attention in the United States it is the fictional works that have been the focus of this attention with these predominantly read in the light of political themes such as identity and resistance In these intelligent and sensitive readings Eva Sansavior argues in favour of adopting a broader thematic and generic approach to the author s work Sansavior accounts for the multiple and oblique uses of literature in the Conde s literary and critical work tracking its complex interactions with tradition reception politics and autobiography and also the singular possibilities that these interactions present for re imagining the ideas of politics literature identity and ultimately the nature

of critical practice itself **Narratives of Statelessness and Political Otherness** Barzoo Eliassi, 2021-07-16 This book argues that citizenship is an inadequate solution to the problem of statelessness based on a critical investigation of the lived experiences of Kurdish and Palestinian diasporas in western Europe It examines how statelessness affects identity formations homelessness belonging non belonging otherness voices status non recognition dis respect in visibility and presence in the uneven world of nation states It also demonstrates that the undoing of non sovereign identities subjection to structural subalternization and everyday inferiorization requires rights in excess of the mere acquisition of juridical citizenship which tends to assume national sameness That assumption in turn involves sovereign practices of denial and assimilation of ethnic alterity The book therefore highlights the necessity of de ethnicizing and decolonizing unitary nation states that are based on the politico cultural supremacy of a single core ethnicity as the sovereign legislator of the rules and regimes of national belonging and un belonging It therefore broaches questions of majority and minority mobility nationalism home making equality difference and universalism in the context of the nation state and illustrates how stateless peoples such as Kurds and Palestinians endure and challenge their subordinate position in a hierarchical geo political order and how in so doing remain bound by political otherness **Indigenous Transnationalism** Lynda Ng, 2018-11-01 After Aboriginal author Alexis Wright s novel *Carpentaria* won the Miles Franklin Award in 2007 it rapidly achieved the status of a classic The novel is widely read and studied in Australia and overseas and valued for its imaginative power its epic reach and its remarkable use of language *Indigenous Transnationalism* brings together eight essays by critics from seven different countries each analysing Alexis Wright s novel *Carpentaria* from a distinct national perspective Taken together these diverse voices highlight themes from the novel that resonate across cultures and continents the primacy of the land the battles that indigenous peoples fight for their language culture and sovereignty a concern with the environment and the effects of pollution At the same time by comparing the Aboriginal experience to that of other indigenous peoples they demonstrate the means by which a transnational approach can highlight resistance to or subversion of national prejudices **Reframing the Ethnographic Museum** Michael Rowlands, Nick Stanley, Graeme Were, 2025-03-20 Since the later part of the twentieth century ethnographic museums have come under increasing scrutiny and many have reflected on and changed their presentation as they questioned collections so often made by colonial officials and explorers Now is a good time to explore whether new developments in display and cultural politics provide a viable future for ethnographic museums In particular policies for restitution by colonial era institutions create a changed landscape for ethnographic display both in the countries from which they originate and in former colonising states *Reframing the Ethnographic Museum* presents a wide range of cultural settings across the world where ethnographic displays have appeared in their local circumstances Non European museum strategies raise new problems but also new solutions Nationalism has been especially significant in museology in Asia and in Africa new museum objectives have emerged They share a problematic future in a digital age when the aura of artefacts is

challenged by digital repositories and a public less willing to travel to visit original objects Authors in this book grapple with the new complexities facing them as curators in the contemporary world Praise for Reframing the Ethnographic Museum Ethnographic museums have been controversial and have been undergoing re invention for decades They are considered illegitimate but have renewed prominence as highly visible contact zones and theatres of cross cultural mediation This book reviews and explores the sector with insight and nuance reporting the successes and failures of key curatorial projects both within Europe and across the Global South Nicholas Thomas University of Cambridge
