Professional Development for Leaders and Managers of Self-Governing Schools David Gamage, 2006-08-05 Current Context Currently self governing schools SGS or school based site based management SBM or local management of schools LMS identifies the individual school as the primary unit of improvement It relies on the redistribution of decision making authority to stimulate and sustain improvements in a school For this purpose varying degrees of formal authority to make decisions in the domains of school mission goals priorities and school policies relating to financial material and human resources are not simply delegated but transferred by legislation to a representative governing body called the school council or board Accordingly it is the position of the principal or the head teacher previously at the apex of the hierarchical structure of the school which undergoes the most radical reform Under the new concept authority is shifted to the corporate body that is to the council or board while the principal becomes an ex officio member of that body and the chief executive officer CEO of the school Traditionally and legally the principal or the head teacher was vested with the full authority for the total management of the school But in terms of SGS or SBM the principal becomes a partner with the representatives of other relevant stakeholders in a democratic structure When the bureaucratic model of a school gets modified with the school governing body occupying the apex of the school hierarchy it becomes the key power centre with legal authority

Effective Leadership Management Dr. Michael Adewale Adeniyi, Ph.D.,2007-10-12 Effective Leadership Management is about theory and practice of integrating styles skills and character of today s chief executive officers It is about what a leader or a manager does to bring about staff efficiency and effectiveness A leader or a manager is effective when he or she brings about the desired results for the organization by using different approaches to the development of personal and interpersonal effectiveness of the staff by daily decision making staffing planning forecasting nurturing coaching directing organizing marketing encouraging and controlling quality Effective Leadership Management emphasizes leadership as the intersection of character knowledge skill and desire Management supervises tasks but leadership deals with people who supervise tasks In other words management is doing things right while leadership is doing the right things Effective Leadership Management styles are achievable by using mixtures of different styles as situation arises Each leader has to choose style s that suits his or her personality and that best represents the values of the organization In all a leader has to be transparent with all daily dealings communicates effectively be honest with staff members showing an unbending integrity at the same time be knowledgeable or skillful about the tasks at hand and be easy to follow When an employee is encouraged

motivated and positively appraised his or her performance will be enhanced This book strongly emphasizes theory Z by Dr Ouchi in which a management or leadership style focuses on a strong company philosophy a distinctive corporate culture long range staff development and consensus decision making When decisions and policies that relate to customers are being made by an organization it is important to understand that others such as customers community staff suppliers and stake holders opinions should be considered This is called a holistic view approach to decision making It is my hope that readers will find this book useful either as a church leader school principal or university president hospital or nursing home administrator nurse manager or departmental head company owners or CEO that an effective and efficient leader or manager cannot lead or manage alone by skills or knowledge but with styles character personality and by example The Literature of Education W. Kenneth Richmond,2019-01-15 Original blurb The volume of writing on educational topics has increased so prodigiously in recent years that the student is likely to lose himself in a sea of print This may lead him to opt for the first book that comes to hand or waste time rifling through half a dozen when a thorough grasp of one key text is all that is needed Reading lists commonly look impressive not to say daunting In fact the multifarious titles conceal an enormous amount of duplication an endless raking over of other people s research findings It is a safe bet writes W Kenneth Richmond that less than 5 percent of the contents of any new book on education will be in any way original This critical bibliography originally published in 1972 is concerned with the noteworthy books and major official reports that had appeared in the English language during the twenty five years prior to publication In his introduction and in the commentaries prefacing each section the author explains the background to the genuinely new departures of the period and describes successive changes in the climate of educational opinion **Current Issues in School Leadership** Larry W. Hughes,2005-01-15 Current Issues in School Leadership examines controversies about and affecting school practices Focusing on two essential questions what is important to today s school leaders and what is interfering with schooling processes it includes chapters by a broad range of authors with expertise on their specific topic The text is organized in three sections Social and Political Issues Curriculum and Learning Issues and Organization and Management Issues The goal of this text designed for school leadership educational administration and foundations of education courses is to challenge readers to think carefully and critically about each of the issues presented leading to positive action and leadership *Education-literature of the Profession* ,1966
