New Socialisms Robert Albritton, Shannon Bell, Richard Westra, 2004-07-31 As neo liberal globalization pushes us further toward global inequality poverty war and militarism diverse movements are arising to voice their concerns These movements have in common a lack of credible alternatives and this book is a contribution to a more positive debate

The Essential Agrarian Reader Norman Wirzba, 2003-10-10 Eminently quotable and passionately argued essays on living in harmony with the earth and each other by Wes Jackson Wendell Berry and more Library Journal starred review Includes a Foreword by Barbara Kingsolver A compelling worldview with advocates from around the globe agrarianism challenges the shortcomings of our industrial and technological economy Not simply focused on farming the agrarian outlook encourages us to develop practices and policies that promote the health of land community and culture Agrarianism reminds us that no matter how urban we become our survival will always be inextricably linked to the precious resources of soil water and air Combining fresh insights from the disciplines of education law history urban and regional planning economics philosophy religion ecology politics and agriculture these original essays develop a sophisticated critique of our culture's current relationship to the land while offering practical alternatives Leading agrarians including Wendell Berry Vandana Shiva Wes Jackson Gene Logsdon Brian Donahue Eric Freyfogle and David Orr explain how our goals should be redirected toward genuinely sustainable communities

These writers call us to an honest accounting and correction of our often destructive ways They suggest how our society can take practical steps toward integrating soils watersheds forests wildlife urban areas and human populations into one great system a responsible flourishing of our world and culture The Asian Future Pracha Hutunuwat, Ramu Manivannan, 2005-02 Brings together the ideas and experiences of some of Asia s outstanding politicians intellectuals and social activists Through in depth interviews provides an overview and critique of the present system and describes a vision of a new Asian society *Cow Dung- A Down-To-Earth Solution* Dr. Sahadeva Das, 2018-01-01 Cow Dung A Down To Earth Solution Environmental crisis is for real and it s coming around faster than you think It s not a brainchild of some conspiracy theorist but a tangible perceivable fact proven by the catastrophic events all over the world But for most of us caught up in the daily grind it s hardly a subject worth pondering over Common man in the streets of London New York or Delhi has very little time to worry about some ozone layer up there or some damn iceberg in the North Pole At best it is a snow bear s problem *Who Really Feeds the World?* Vandana Shiva, 2016-06-28 Debunking the notion that our current food crisis must be addressed through industrial agriculture and genetic modification author and activist Vandana Shiva argues that those forces are in fact the ones responsible for the hunger problem in the first place Who Really Feeds the World is a powerful manifesto calling for agricultural justice and genuine sustainability drawing upon Shiva s thirty years of research and accomplishments in the field Instead of relying on genetic modification and large scale monocropping to solve the world s food crisis she proposes that we look to agroecology the knowledge of the interconnectedness that creates food as a truly life giving alternative to the industrial paradigm Shiva succinctly and eloquently lays out the networks of people and processes that feed the world exploring issues of diversity the needs of small famers the importance of seed saving the movement toward localization and the role of women in producing the world s food Can We Feed the World Without Destroying It? Eric Holt-Gimenez, 2019-02-25 Nearly a third of the world s population suffers from hunger or malnutrition Feeding them and the projected population of 10 billion people by 2050 has become a high profile challenge for states philanthropists and even the Fortune 500 This has unleashed a steady march of initiatives to double food production within a generation But will doing so tax the resources of our planet beyond its capacity In this sobering essay scholar practitioner Eric Holt Gim nez argues that the ecological impact of doubling food production would be socially and environmentally catastrophic and would not feed the poor We have the technology resources and expertise to feed everyone What is needed is a thorough transformation of the global food regime one that increases equity while producing food and reversing agriculture s environmental impacts *Testing and Analysis of GMO-containing Foods and Feed* Salah E. O. Mahgoub, Leo M.L. Nollet, 2019-01-15 An increasing number of genetically modified organisms GMOs continues to be produced every day In response to the concerns raised by the development of GMOs and their incorporation in foods and feed guidelines and regulations to govern and control the use of GMOs and their products have been enacted These regulations necessitated the design of methods to detect and analyse

the presence of GMOs or their products in agriculture produce food and feed production chains Design of techniques and instruments that would detect identify and quantify GM ingredients in food and feed will help inspection authorities to relay reliable information to consumers who might be concerned about the presence of GM ingredients Information generated by detection of GMOs in food and feed would be helpful for setting regulations that govern the use of GM components as well as for labeling purposes Qualitative detection methods of GM DNA sequences in foods and feeds have evolved fast during the past few years There is continuous need for the development of more advanced multi detection systems and for periodic updates of the databases related to these systems Testing and Analysis of GMO containing Foods and Feed presents updates and comprehensive views on the various methods and techniques in use today for the detection identification and quantification of GMOs in foods and feed The eleven book chapters cover recent developments on sample preparation techniques immunoassays methods and the PCR technique used in GMO analysis the use of biosensors in relation to GMO analysis the application of nucleic acid microarrays for the detection of GMOs validation and standardization methods for GMO testing in addition to the type of reference material and reference methods used in GMO testing and analysis Some of the ISO standards designed for identifying and detecting the presence of GM material in foods are also presented in the book
