Douglas,2014-10-17 When Edmund Wilson died in 1972 he was widely acclaimed as one of America's great literary critics But it was often forgotten by many of his admirers that he was also a brilliant and penetrating critic of American life In a literary career spanning half a century Wilson commented on nearly every aspect of the American experience and he produced a body of work on the subject that rivals those of Tocqueville and Henry Adams In this book George H Douglas has distilled the essence from Wilson's many writings on America An active reporter and journalist as much as a scholar Wilson ranged from Harding to Nixon from bathtub gin to marijuana Douglas here surveys Wilson's mordant observations on the roaring twenties the Great Depression income tax suburbia sex populist politics the Vietnam War the Great Society the failure of American scholarship pollution of the landscape and the breakdown of traditional American values The Wilson who emerges from this survey is a historical writer with deep and unshakable roots in Jeffersonian democracy Among his most far seeing and poignant books are studies of the literature of the American Civil War and of the treatment of the American Indian Pained by the crumbling moral order Wilson was never completely at home in the twentieth century In politics he was neither a liberal nor a conservative as those terms are understood today He endured those ideologies and their adherents but his genius was that he could bring them into hard focus from the perspective of the traditional American individualist who was too pained to accept the standardized commercial world that had grown up around him Edmund Wilson's *America* offers a distinctive overview of the nation's life and culture as seen and judged by its leading man of letters *God's Sacred Tongue*

Shalom Goldman,2015-01-01 In a comprehensive examination of how Christian scholars in the United States received interpreted and understood Hebrew texts and the Jewish experience Shalom Goldman explores Hebraism's relationship to American society By linking history theology and literature from the colonial period through the twentieth century Goldman illuminates the religious and cultural roots of American interest in the Middle East *God's Sacred Tongue* is structured around a sequence of biographical and intellectual portraits of individuals including Jonathan Edwards Isaac Nordheimer Professor George Bush an ancestor of President George W Bush and twentieth century literary critic Edmund Wilson Since the colonial period America has been perceived as a western Promised Land with emotional spiritual and physical links to the Promised Land of biblical history Goldman gives evidence from scholarship diplomacy journalism the history of higher education and the arts to show that this perception is linked to the role Hebrew and the Bible have played in American cultural history The book's final section takes up the story of American Christian Zionism among whose Protestant adherents political Zionism found much of its strongest support Religious and cultural figures such as William Rainey Harper and Reinhold Niebuhr are

among those who exemplify the centuries old ties between America the Land of Promise and Israel the Promised Land

A Reader's Guide to Ernest Hemingway Arthur Waldhorn, 2002-07-01 Arthur Waldhorn discusses Hemingway's sense of the world as well as his writing style He also analyzes in chronological order the writings beginning with the early stories and sketches tracing major patterns that recur throughout Hemingway's career His approach to each book is a critical examination of its achievements and failures

The Amateur Saikat Majumdar, 2024-06-13 Can ignorance mistake failure shape ways of reading or do they disrupt its proper practice What happens when the authority of modern education and culture places canonical western texts in the way of readers who live in worlds remote from their material contexts The Amateur reads patterns of autodidacticism and intellectual self formation under systems of colonial education that are variously repressive exclusionary broken or narrowly instrumental It outlines the development of a wide range of writers activists and thinkers whose failed relationships with institutions of knowledge curiously enabled their later success as popular intellectuals Bringing current debates around reading together with the history of higher education in the postcolony it focuses on three primary locations Black intellectuals in apartheid era South Africa in the aftermath of the Bantu Education Act of 1953 20th century Caribbean writers who sought to understand the disembodied legacy of the diaspora through accidental encounters with literature and history and writers from late colonial and postcolonial India whose disruptive self formation departed from the administrative project of professionalizing a particular kind of colonial subject Celebrating flawed and accidental forms of reading writing and learning along the periphery of the historical British Empire Majumdar reveals an unexpected account of the humanities in the postcolony
