## Optimism

## MADE THE BEST OF IT

Even though I'll miss sitting at lunch with my best buddy, I'm excited to make new friends!	PE is my favorite sports class, but I'm starting to enjoy going to art class more!
Our soccer game got rained out, but that's okay. Because I get to spend more time with my family.	I'm having a pretty sad day, but I know that better days are just around the corner! Things always get better!
School isn't always fun, but I know I'll be thankful for all the things I learn!	I really hate the taste of medicine, but I know it will make me feel better! I'm ready, Mom!

## OPTIMISM

*An Optimist's Story*

Sometimes life is easy,  
Everything goes my way!  
But sometimes life is hard,  
And my days seem dark  
and gray.

But when I show  
optimism,  
I find the silver lining,  
I look for the good in life,  
And I stop all my  
whining.

Life is never perfect,  
Things won't always go as  
planned.  
But my life is full of  
goodness,  
So I'll bravely take a  
stand!

## OPTIMISM

Dear Parents,

Over the next few weeks, we will be learning all about optimism and will discuss the importance of focusing on the good in our lives, and finding the silver lining in every situation. Being able to carry that learning on at home makes it even more effective! During the next few weeks, please take time to discuss optimism and optimism with your child. Share examples from your own life of feelings frustrated but manageable to cheer positive. Some questions you might ask include:

- Have you ever been disappointed but been able to turn it around?
- What are some positive things in your life you can focus on when things are going wrong?
- Why is it important to be optimistic?

Thank you so much for your support!

## **Educating For Social Work Arguments For Optimism:**

**Towards a Classless Society?** Helen Jones, 2005-08-02 An alternative to the right wing paradigm which has hijacked discussions of class this book focuses on the specific ways in which class inequalities manifest themselves in Britain and exposes the hollowness of politicians' rhetoric over the classless society

**Broadening Horizons** Wanda Thomas Bernard, 2017-03-02 While the remit of social work professionals is in general locality based social work has a long tradition of concern about international issues Broadening Horizons provides an engaging and original contribution to the debate on how to tackle social work problems on a global scale Filling both a theoretical and a practice gap in the literature the book discusses the experiences of academics practitioners and students involved in international exchanges in social work It draws on a major EU Canadian exchange project as well as separate projects in countries including South Africa the USA China and Australia The contributors highlight the opportunities and barriers that shaped their experience and give guidance on how to deal with both the practicalities and aspirations of living and working across borders This book will thus be invaluable both to readers interested in the meaning and realities of international social work and to those hoping to embark on an exchange programme themselves

Innovative Education and Training for Care Professionals Rachel Pierce, 2000 This positive book brings together current good practice in education and training for care professionals around a central theme of involving service users and improving the quality of their care The contributors set out a strategy for the teaching of theory and practice to care professionals in the context of changing policy and practice in agencies and in higher education Helpful guidance is offered to education and training providers in universities and agencies on the preparation of care professionals for the new millennium and beyond Topics addressed within the book include international comparisons research teaching the bridging of vocational professional and academic frameworks user involvement assessing professional competence teaching anti discriminatory practice While drawing primarily from social work this book takes an interprofessional approach and will be essential reading for all health and care education providers Rachel Pierce and Jenny Weinstein have brought together academics researchers and practitioners to reflect with them both positively and critically on a broad range of contemporary educational developments thus providing a sound analysis to shape future arrangements for quality professional education and training

Reflecting on Social Work - Discipline and Profession Karen Lyons, 2017-03-02 Social work has always been a contested activity and its status as an academic discipline remains uncertain There is currently renewed interest in the theoretical and research dimensions of social work at a time when significant changes in the broad social political and economic context in which practice takes place require a re evaluation of social work's role and a re examination of its identity This timely book brings together leading social work academics to examine the state of social work at the beginning of the 21st century With their focus on the relationships between research theory and practice they reflect critically on the nature of social work as a discipline in higher education and the importance of this to the profession as a whole The book

represents an exploratory conversation among social work academics about the current state and future aspirations of the discipline and the profession It aims to stimulate wider debate about the dominant constraints and opportunities for social work in the 21st century      *Transfer of Learning in Professional and Vocational Education* Vivienne E Cree,Cathlin

Macaulay,2002-01-04 Combining an accessible presentation of the underlying theory of transfer of learning which explains how to put theory into practice this is a text which is relevant to teaching for transfer in any professional or vocational context The first part of the book looks at what transfer of learning means how it operates the implications for teaching issues such as assessment competence outcomes In the second part contributors present case studies from social work which show how specific teaching methods can be successfully used to make the maximum use of the student s previous experience These include personal construct psychology enquiry and action learning intentional observation critical incident analysis reflective diaries process recording information technology Information on each teaching method is presented in enough detail to allow the educator to go away and use it      **Social Work in Higher Education** Karen Lyons,2019-01-22 First

published in 1999 in the light of recent moves towards deprofessionalisation and instrumentalism Karen Lyons has conducted extensive research into the challenges facing social work training as a higher education discipline Here these challenges are located in a discussion of wider changes in both higher education and the personal social services and are also linked to debates about professional education and the nature of knowledge The analysis is based on original data and includes reference to pedagogical and cultural factors and to internal and external policies which might make social work viable or vulnerable in the higher education context This multi disciplinary perspective reflects a characteristic of social work study itself a quality which might be seen as either problematic or as a strength The book concludes that while the future scale and form of the social work subject area lie partly outside the control of social work educators they have a key role to play in the development of the discipline This includes the promotion of research which should underpin the creation of knowledge and inform professional practice in the changing field of personal social services      **Professionals & New Managerialism**

Exworthy,1998-12-01 Throughout the 1980s and 1990s there have been substantial changes to public sector organization and management A key aspect of this change has been the emergence of a new managerialism which appears to have challenged many widely held and established principles and practices within the public sector This book explores the relationship between professionals and professionalism and the new managerialism by using in depth studies from education social work and medicine      **Valuing the Field** Marilyn Callahan,Sven Hessle,Susan Strega,2018-02-06 This title was first

published in 2000 This text provides international perspectives on examples of best practice in child welfare and proposes organizational structures and policies to support this practice Practice innovations span the range of child welfare services including prevention protection and out of family care The contributors describe the child welfare context in each of their particular jurisdictions producing an addition to the literature comparing child welfare in different countries Moreover

existing books on the subject are primarily descriptive and examine overall child welfare legislation and policy The work adopts an analytical approach proposing policies and focusing on the largely unexamined topic of excellence in child welfare practice

**SAGE Biographical Research** John Goodwin, 2012-06-25 Biographical research may take a range of forms and may vary in its application and approach but has the unified and coherent aim to give voice to individuals The central concern of this collection is to assemble articles from sociology social psychology education health criminology social gerontology epidemiology management and organizational research that illustrate the full range of debates methods and techniques that can be combined under the heading biographical research Volume One Biographical Research Starting Points Debates and Approaches explores the different biographical methods currently used while locating these within the history of social science methods Volume Two Biographical Interviews Oral Histories and Life Narratives focuses on the more established interview based biographical research methods and considers the analytical strategies used for interview based biographical research Volume Three Forms of Life Writing Letters Diaries and Auto Biography considers the value of data contained within letters diaries and auto biography and illustrates how this data has been analyzed to reveal biographies and their social context Volume Four Other Documents of Life Photographs Cyber Documents and Ephemera focuses on the other human documents and objects like photographs cyber documents emails blogs social networking sites webpages and other ephemera such as official documents that are used extensively in biographical research

*EBOOK: PROFESSIONALS & NEW MANAGERIALISM* N/A Exworthy, 1998-12-16 What do managerialism and professionalism mean in today's public sector How do managers and professionals relate to each other

What are the implications of changing notions of managerialism and professionalism And of changing relations between managers and professionals Throughout the 1980s and 1990s there have been substantial changes to public sector organization and management A key aspect of this change has been the emergence of a new managerialism which appears to have challenged many widely held and established principles and practices within the public sector Not least this new managerialism has been seen to pose a significant threat across the public sector to the traditional dominance of professionalism and professionals This book explores the relationship between professionals and professionalism and the new managerialism by using in depth studies from education social work and medicine It shows that in practice the relationship is characterized by a range of outcomes from conflict to patterns of compromise and collaboration This challenges the often taken for granted assumptions about the distinctiveness even oppositional nature of managerialism and managers on the one hand and professionalism and professionals on the other and sheds new light on long standing debates *Transforming the Field* Narda Razack, 2002 This primer to antiracist and antioppressive social work practices explores the ways in which power and dominance are embedded in every facet of fieldwork A framework is provided for responding to social issues in the field and finding ways to break down barriers *Routledge International Handbook of Social Work Education* Imogen Taylor, Marion Bogo, Michelle Lefevre, Barbra Teater, 2016-03-31 The Routledge International Handbook of Social Work Education provides an authoritative overview of current understanding through coverage of key debates exploring the state of play in particular social work education fields and reflecting on where the future might be taking us The overall aim of the Handbook is to further develop pedagogic research and scholarship for social work education Drawing on medical education as an exemplar the contributions view social work education as a specialism and a field of expertise that counts in the same way as research programmes in more traditional areas of social work practice The chapters are concerned with the theory and practice of social work education at all levels they are accessible conceptually clear research based where appropriate critically reflective and ethically underpinned The Handbook is organised into seven sections that reflect the proposed themes and sub themes covering Social work education in context the western drivers Emerging and re emerging social work education The scholarship of learning and teaching New insights into field education New directions in learning and teaching Future challenges in social work education This handbook presents a contribution to the process of exchange and dialogue which is essential to global social work education It brings together professional knowledge and lived experience both universal and local and will be an essential reference for social work educators researchers students and professionals

**Community Approaches to Child Welfare** Lena Dominelli, 2018-08-13 Published in 1999 *Community Approaches to Child Welfare* is written by both practitioners and academics to explore ways in which community based preventative approaches to child welfare can be used to support families experiencing behavioural problems with children or undergoing difficulties in raising them Specific practice examples developed in Britain Canada and Sweden provide an international

dimension to this book Comparing and contrasting developments within these countries reveal that there are both similarities in the methods adopted and difference in the ways in which these are applied Common themes which appear across the stories that are presented include the importance of ensuring cultural specificity to respond to identity issues and local traditions the need to adhere to legislation that is country specific the importance of dealing with some child welfare issues on an international basis e g child abductions and the importance of giving children the space within which to articulate their own voice Additionally the book reveals how working with families from a community perspective which is centered in acknowledging children s rights and parental rights may challenge professionals in ways that they find uncomfortable Nevertheless the book concludes that practice can more effectively serve children s interests if parents and workers work in partnership with each other

*Educating for Social Work* Peter Ford, Patrick Hayes, 1996 This book concerns the embattled state of social work and the potential role of social work education in confronting attacks upon it Contributions from five British universities analyse the forces underlying recent trends and resources that already exist or might be developed to counter them Part One examines the difficulties facing social work education locating them within a wide social and political context and scrutinising such developments as competency based assessment Part Two analyses four areas where actual possibilities for change are masked by current pessimism the implementation of anti discriminatory curricula the strengthening of partnerships with social work agencies the growing significance of international links and the place of research in social work theory and practice Unexpectedly optimistic conclusions are drawn social work education has neglected some potential strengths whose development could improve the quality of social work practice
