Developmental and Educational Psychology for Teachers Dennis McInerney, David Putwain, 2016-09-13 Developmental and Educational Psychology for Teachers brings together a range of evidence drawn from psychology to answer a number of critical educational questions from basic questions of readiness for example when is a child ready for school through to more complex matters such as how does a teacher understand and promote good peer relationships in their classroom The answers to these and other questions discussed draw here on the interplay between a teachers craft expertise and their knowledge of evidence and theory from developmental and educational psychology Presenting a range of classic theories and contemporary research to help readers understand what the key issues are for teachers and other professionals this book aides informed educational decisions in situations such as inclusion ability grouping sex differences developing creativity home and peer influences on learning and developing effective learners Teachers in early years primary and secondary settings are routinely faced with questions regarding the development of children This not only relates to the planning and delivery of lessons but also to the mental and physical wellbeing of the children and adolescents that they teach The pedagogical features of this book are accessible and clearly presented including focus questions that direct the reader s attention to key issues activity posts that point the reader to meaningful and relevant research and show the practical applications of material covered and extension material that gives depth to many of the topics covered This book aims to

inform the practice of both in service and trainee teachers addressing issues that are relevant to their practice With no other detailed and accessible text presenting this evidence and theory specifically for an audience of practicing and trainee teachers currently on the market this book will be of essential reading to practicing and trainee teachers for early years primary and secondary education and other related educational contexts such as educational psychologists counsellors paediatric and child doctors and nurses

Student Study File to Accompany Educational Psychology, a Developmental Approach Richard C. Sprinthall, Norman A. Sprinthall, 1975 **Applied Child Study** Anthony D.

Pellegrini, David F. Bjorklund, 1998-09 Child study is a very complex field Human beings and children specifically are very complex beings Consequently simple answers and solutions to problems are very often just that too simple This text presents principles and methods for studying children in the varied contexts in which they live and function These theories and methods can be used as a kind of tool kit for application in a variety of situations by the people who work with children such as researchers parents educators pediatricians nurses social workers and child psychologists to name but a few In short the book is written for people interested in how to examine and describe children as well as those interested in creating educational environments for children
